Where Disease Is Bred.

When a sewer is clogged or choked up the accumulations poison the atmosphere in its vicinity and bring about the conditions that breed disease. We all know that in time of pestilence every precaution is taken not only to keep the sewers free and open, but even to remove all decaying matter from the community. The danger of infection is thus minimized. How few of us who pay taxes for the maintenance of sanitary bureaus for the public health think of an equal requirement for our individual welfare. The alimentary canal is the great sewer of the human system. When that is dammed up conditions are generated which invite fevers and such diseases as our nature inclines to. Constipation is a clogging of the natural drains, and nearly everything we suffer from follows this condition. It will not do merely to clear the drains from time to time. We must repair and improve the working power of the machinery whose function it is to perform this work. **Smith's Bile Beans** differ from pills in that they are more than a mere cathartic. They not only stimulate sluggish bowels and clear the system of all disease-breeding matter, but they remedy the evil complained of; they restore power and freedom of operation to the secreting organs, and they tone up and strengthen the entire system. They are easy and soothing in action. Try them. 25 cts. a bottle, 5 bottles, \$1.00. For sale by druggists and medicine dealers throughout the country, or by mail, postpaid, on receipt of price. Ask for the "Small Size" (green wrapper or carton).

While H. Duvall, a stock-buyer of Wells county, was driving in the vicinity of Berne, he overtook a woman who was carrying a babe, and he invited her to ride. The woman accepted the invitation, and Duvall sprang out to hold the child while she climbed into the buggy. Once reaching the seat, the woman seized the whip and applied the lash to the horse, galloping away while the stock buyer stood petrified with astonishment. Duvall left the child with a neighbor and instituted a search for his missing property. He had been unable to locate either the woman or stolen rig at last accounts.

HEAVY FIRE LOSSES.

MANY CONFLAGRATIONS REPORTED YESTERDAY.

Damage Estimated at \$200,000 at Rochester, Ont.—Haze at South Bend, Ind.—The Franklin Mine Fire was Incendiary.

OTTAWA, Ont., Aug. 27.—An extensive fire took place yesterday afternoon in Rochester, a suburb of this city, doing damage estimated at upward of \$200,000. The fire started in piles of lumber belonging to John R. Booth, and owing to great distance of water supply soon got beyond control and extended toward the city until the wind fortunately changed. The territory covered by the fire was about ten acres. On this were between six and eight million feet of lumber belonging to Mr. Booth, valued at \$150,000; six railway cars with lumber belonging to the Export Lumber company, the Parry Sound railway bridge, the Cedar street public school, valued at \$8,000. Several smaller buildings were also burned. The fire was undoubtedly the work of an incendiary. At 10 p. m. it was burning brightly and should a strong breeze spring up the loss will be great.

Blaze at South Bend, Ind.

SOUTH BEND, Ind., Aug. 27.—At 11 o'clock yesterday forenoon fire broke out on the east side which destroyed nearly \$30,000 worth of property before it could be controlled by the firemen. For some time the business center of the west side was seriously threatened and it was feared the loss would be many thousands greater. A number of people were burned and hurt, but none seriously.

Mine Fire Set by Incendiary.

SEATTLE, Wash., Aug. 27.—The coroner's jury investigating the disaster in the Franklin coal mine Friday, in which thirty-seven men were killed, has returned a verdict finding that the fire was started by parties unknown. It is believed the persons who fired the mine also perished.

Woodenware Factory Burned.

PETOSKEY, Mich., Aug. 27.—Wetzell Village on the Grand Rapids & Indiana railroad, burned yesterday at a loss of \$50,000. The big woodenware factory is in ruins.

MINERS REFUSE ULTIMATUM.

Operators of Massillon Fields Will Resume Work with Non-Union Men.

CLEVELAND, Ohio, Aug. 27.—News received from the Massillon coal fields is to the effect that the miners have refused to accept the ultimatum of the operators, which provided that they should resume work to-day upon a schedule of wages based on the Columbus scale. It is said many of the miners are now removing their tools from the mines, and it is believed the operators will carry out their intention of resuming work with non-union men. The miners of the Massillon district, about 6,000 in number, have been on strike since Feb. 17.

No Attempt to Start Bristol Mill.

NEW HARTFORD, Mass., Aug. 27.—The police officials were notified by the management of the Bristol mill last night that their attendance at the mill gates this morning would not be needed, as no attempt would be made to run the mills. The operatives look upon this as a good sign, and will hold a mass meeting in the vicinity of the mill in order to give the weak hearted courage. The utmost quiet prevails among the strikers. It is almost an assured fact that three more of the large yarn corporations will start up this week at the old rate of wages.

A Credit to the City.

The new carpet parlor of Mahorney & Sons is a credit to the city. The \$7,000 stock of carpets on display far surpasses any attempt heretofore made in the city in this line. The arrangement of the room is such as to afford a fair and impartial display, as the apartment is perfectly lighted by day, while at night the incandescent lamps render an inspection of goods entirely satisfactory. The arrangement of parlor furniture at one side and the elegant mantels cozily set around the other walls makes it an ideal palace in which the wealth of the factory and loom from the Orient to the Occident are spread before the vision. It is just such a place as the purchaser needs to make a selection of furnishings for a cozy home. Visitors are always welcome to call and see this display.

Death of George W. Montgomery.

Death ended the unhappy condition, brought on by mental aberration, of George W. Montgomery, at his home in Linden, last Friday night. He received some injury to his head by jumping from a train two years ago and his death was partly due to that accident. He was 55 years of age and a good citizen. He served with Co. E 72 Ind. Reg. during the civil war. He leaves a wife and three children to mourn.
