The consideration of the report of the committee on constitution and bylaws was resumed and adopted. The most important change is that which divides the beneficiary department into three classes of insured. All members under the amended constitution are compelled to enter the \$500 class; then if a member so elects he can join the \$1,000 or the \$1,500 class. Under the old system the only policy was one for \$1,500, and during these hard times many members have been compelled to retire from the order owing to their inability to pay their dues.
