**LEAVING THE PARTY.**  
At a convention of the sugar planters  
of Louisiana at New Orleans last week  
they resolved to leave the democratic  
party and cast their future political  
welfare with the republicans. It re-  
sults from the action of Congress which  
withdraws hereafter the bounty on  
sugar. Under the circumstances, we  
say let them go and stay. Any law  
which takes a portion of the people for  
the support alone of another, and a very  
small portion too, is wholly and entirely  
unjust, and the sooner abolished the  
better. It is anti-democratic, is class  
legislation, and is wholly and radically  
wrong. The Louisiana sugar planters  
were getting along swimmingly under  
the provisions of the McKinley law re-  
lating to their interest. An exchange  
in referring to this subject says: "The  
average amount paid to each Louisiana  
sugar grower is \$19,000 a year. How  
many Indiana farmers make that much?  
The sugar bounty amounts to between  
\$40 and \$50 an acre. To get \$50 an acre  
for his wheat the Hoosier would, at  
present prices, have to raise over a hun-  
dred bushels an acre, whereas the aver-  
age yield is not over fifteen bushels,  
which means a return of \$7 to \$10 an  
acre. Is it a fair deal?" Not by any  
means is it a fair deal. Who ever heard  
of the corn producers of Illinois, or the  
wheat producers of Indiana, ever being  
paid a bounty for their productions by  
the government at any time in their  
history. The planters through govern-  
ment favoritism have prospered mag-  
nificently, regardless of other toilers of  
the country, and there is no wonder  
they rebel. They are to be placed on an  
equality with others, and no govern-  
mental favors are to be shown, as there  
never should have been. However we  
do not believe they will remain in re-  
publican ranks very long, and will be as  
anxious to cut loose from that party as  
they were under carpetbagger rule twenty-  
five years ago. No party, we believe,  
will hereafter dare pledge or advocate  
the paying of bounties to any class of  
producers. The iniquitous doctrine  
can never be popular with fair minded  
people in any party in any part of the  
country. It is against the spirit of free  
institutions, is unconstitutional and  
wrong from any side in which it may be  
viewed.

One of the items of news that seems  
to have escaped the notice of republic-  
an newspapers is reported from Delphi,  
Ind., and as it shows the working of  
what the republicans call our "infamous  
tax law," it should be read and known  
of all men. This item of news recites  
that one of the banks at Delphi return-  
ed to the assessor for taxation \$2,300  
only. The board of review, a creation  
of a democratic legislature, raised the  
Delphi bank's assessment to \$160,000.  
The board appealed to the State board  
of tax commissioners, but dismissed the  
appeal, and its assessment stands at  
\$160,000. It seems from this that dem-  
ocracy is a tax—on the tax dodger.

The State fair held last week was  
said to have been the most successful in  
a pecuniary point of view of any in its  
history. This is attributed to the new  
members of the State Board, who in-  
fused new life into it, and is an evidence  
that old members of any organization  
frequently outlive their usefulness long  
before they are retired.

HON. D. W. VOORHEES made the open-  
ing speech of the campaign at Terre  
Haute on Saturday evening to an im-  
mense audience.

**BORROWING MONEY.**  
Ever since Crawfordsville dropped its  
swaddling clothes of a "town" to assume  
the airs of a city it has been under the  
control and been managed by republic-  
ans. Whatever of prosperity or of  
retrogression it may have seen and ex-  
perienced in the past thirty years is  
due solely to members of that party as  
councilmen who have always had con-  
trol of city affairs. During the past  
four years the financial affairs of the  
city have been in bad shape. The city  
is largely in debt, has repeatedly had to  
borrow money to tide over, and is now  
again in that condition. Again the  
treasury is empty and again must the  
city borrow, but it is all in the family—  
the republican family. By being all re-  
publican in the city management, with  
no one of the opposite party to keep an  
eye upon them there is no knowing the  
amount of foolish and unfair appropri-  
ations for this or that purpose that are  
granted and approved by this one-sided  
administration. There is no way of  
knowing of the corrupt schemes that  
may be hatched out and carried through  
by those of the same political organiza-  
tion who have no fear of being seen or  
denounced by those who vote with  
them. There is no doubt that there  
has been gross mismanagement in the  
conduct of city affairs, but a denuncia-  
tion of it will never be heard among re-  
publicans. Party policy demands that  
they keep still, and they are doing it.  
They must say nothing if they know of  
any wrong doing in the management of  
city affairs. It would injure party pros-  
pects hereafter. If financial manage-  
ment has not been of the worst why  
borrow money and pay big interest  
every year as the city has done for some  
time past? The matter of politics  
should not enter into consideration of  
men for councilmen and other city  
offices, but it does. It does here and  
elsewhere, and tax-payers pay dear for  
their partisanship. They pay for it in  
scheming, corrupt jobs, increased taxa-  
tion and an empty treasury. It would  
be money in the pockets of the people  
and a better state of affairs in general  
if politics were eschewed in the selection  
of those who serve the city.

**NOT ENOUGH "BLOOD" IN IT.**  
Over in Howard county a few days  
ago the Sheriff of the county resigned.  
His strange action is accounted for be-  
cause under the new salary law relating  
to county officers there was not enough  
money in it for him; could barely make  
a living. He doubtless acted very  
sensibly, but the strange part about it  
all is that so many men in every county  
of the State knowing what they do re-  
garding the salaries paid under the new  
law, are still willing to make the sacri-  
fice—the sacrifice of time and money to  
obtain positions that they loudly assert  
do not pay. Now this seems somewhat  
paradoxical. The people cannot com-  
prehend why men are so self denying, so  
patriotic as it were, and neither do we.  
Why are men so anxious to fill offices  
when offices don't pay? There were as  
many office seekers in Indiana this year  
as in years before the new law was  
adopted. Many of them seem perfectly  
willing to fill the offices whether they  
pay a living to the incumbent or not.  
The whole truth of the matter, the new  
law with a few minor alterations here-  
after to be made has come to stay. The  
days of high salaries and gigantic fees  
have passed. The people will not sub-  
mit to them. If any official cannot  
make a respectable livelihood out of his  
position he should quietly resign as the  
Howard county Sheriff has done. No  
official is of such consequence that no  
one can be secured to fill his place.  
Neither political party is obligated to  
retain any man in office if he is dissat-  
isfied with the emoluments of it. He  
should not distress himself by retaining  
any place in which he is losing money,  
and no one should be taxed high fees to  
keep him afloat. Men running for office  
in Indiana should know thoroughly  
what it is worth, and if not satisfied  
drop out at once. The world does not  
owe them a living, neither do the tax-  
payers who pay for official services.

**OHIO DEMOCRATS ON THE SILVER  
ISSUE.**  
In the democratic platform of the  
Ohio democracy in convention assem-  
bled at Columbus last week the follow-  
ing plank relating to silver was adopted:  
"We dissent from the President's  
views, construction and treatment of  
the silver question, and therefore believe  
that silver should be restored to the  
position it occupied as money prior to  
its demonetization by the republican  
party, and to that end we favor the un-  
limited free coinage of silver at the legal  
ratio of 16 to 1 and with equal legal  
tender power."  
This is the general doctrine held by  
the democracy through the west, and  
many republicans likewise, and in 1896  
will be an issue upon which they will  
stand. The east, however, thinks and  
acts different. It is profitable to them to  
have gold as the standard money, and  
keep silver demonetized if they can.

ROCKFORD, ILL., council has passed an  
ordinance compelling dealers in cigar-  
ettes to take out license for the sale of  
them, the cost of said license to be \$500.  
Now if a similar license compelling the  
idiots who smoke them is passed, that  
city will continue on the high road to  
prosperity and happiness.

**REPUBLICAN POLITICAL MACHINE.**  
The New York republican political  
machine was set for grinding purposes  
some time past and last week nominated  
Morton for Governor. The machine is  
under control of Platt, the political boss  
of that State. Morton was selected not  
for his fitness at all, but solely for the  
dollars he controls. He was an un-  
known quantity previous to his nomina-  
tion for vice-President with Harrison in  
1888, and was rapidly going into obscu-  
rity until drawn out of his hole and  
pushed into the race for Governor.  
This fashion of nominating wealthy  
men, who have nothing to commend  
them for official life should become un-  
popular. Hardly any wealthy Senators  
amount to anything in the Senate.  
Their wealth gives them position, not  
their brains. They originate nothing for  
the good of the country. They pay  
party assessments for campaign pur-  
poses, and stop there. Beneficial laws  
for the country do not originate in their  
brain. Morton may come down hand-  
somer for the campaign of 1896 for his  
party, but to honor the high position to  
which he has been nominated is out of  
the question. The ablest Senators this  
country has produced have not been  
millionaires, but always were poor or in  
moderate circumstances. The selection  
of millionaires for office smacks natu-  
rally of corruption and wrong doing, and  
always will. Merit and not money  
should be the true gauge, and Morton  
should be defeated if for no other reason  
than that he was selected for his cash  
and not for his fitness.

**WHAT CAUSED HARD TIMES.**  
Judge Hubbard, of Iowa, says it is  
the existence of private corporations.  
George Gould says it is the hostility  
to corporations.  
The farmer says it is the low price of  
wheat.  
The silver man says it is the action of  
Wall street.  
Wall street says it is the action of the  
silver men.  
The manufacturer says it is the fear of  
free trade.  
The consumer says it is the tariff.  
The debtor says it is the creditor.  
The creditor says it is the debtor.  
The democrats say it is the republic-  
ans.  
The populists say it is both.  
The prohibitionists say it is whiskey.  
The preachers say it is the devil.  
Now, what is your idea?

**OWENS, THE NOMINEE.**  
The committee of the Ashland, Ken-  
tucky, district last week counted the  
official vote and decided that Owens  
had received a plurality of the votes  
cast and was the nominee for Representa-  
tive in Congress. This settles the fate  
of Breckenridge. Politically and social-  
ly hereafter he will be considered a back  
number, and the voters of the district  
have shown good sense in retiring him  
permanently.  
One of the latest and meanest schemes  
adopted by republican party leaders is  
to get manufacturers through the State  
to reduce the wages of employees 20  
and 25 per cent, alleging that the pro-  
visions of the new tariff law necessitate  
this. After the election, when all is  
accomplished that is hoped for by these  
schemers, which is simply to secure the  
vote of employees for the republican  
ticket, the wages very generally will be  
restored.

The city council has not yet passed  
any ordinance protecting city butchers  
from those of the country. When they  
commence the business of protecting a  
certain class of the business community  
by taxing all the rest, they should  
spread the protection business so that  
all classes can receive the alleged great  
benefits from protection. After this is  
thoroughly accomplished they can then  
fence in the city.

CONGRESSMAN BROOKSHIRE has been  
making a very energetic canvass  
through the district during the past  
ten days, addressing large audiences in  
most places where he has been. His  
prospects for re-election are very good,  
the people being well satisfied with his  
labors in Congress.

Mrs. Betsy Carroll, eighty-five years  
of age, living at Willimantic, Conn., has  
been having measles.

Deafness Cannot be Cured.

By local applications as they can-  
not reach the diseased portion of the  
ear. There is only one way to cure  
deafness, and that is by constitutional  
remedies. Deafness is caused by an  
inflamed condition of the mucous  
lining of the Eustachian Tube. When  
this tube is inflamed you have a rum-  
bling sound or imperfect hearing, and  
when it is entirely closed, Deafness  
is the result, and unless the inflama-  
tion can be taken out and this tube re-  
stored to its normal condition, hearing  
will be destroyed forever; nine cases  
out of ten are caused by catarrh, which  
is nothing but an inflamed condition  
of the mucous surfaces.

We will give One Hundred Dollars  
for any case of Deafness caused by  
catarrh that cannot be cured by Hall's  
Catarrh Cure. Send for circulars free.
