CONGRESSIONAL RE-APPORITION MENT.

That the republicans are determined
to gerrymander the State to capture a
majority of Congressmen as well as Sen-
ators and Representatives at the com-
ing election is readily seen in the bill
introduced in the Senate last week by
Senator Lafayette, which was drawn by
the direction of Chairman Gowdy, of
the republican State committee. The
State is divided as follows:

First district—Knox, Gibson, Pike,
Posey, Vandalia, Warrick, Spencer.
Second—Daviess, Orange, Wash-
ington, Scott, Perry, Crawford, Harrison,
Floyd, Clark.

Third—Wayne, Fayette, Franklin,
Union, Ripley, Dearborn, Jefferson,
Ohio, Switzerland.

Fourth—Hancock, Henry, Rush,
Shelby, Decatur, Bartholomew, Jackson,
Jennings.

Fifth—Putnam, Hendricks, Morgan,
Johnson, Monroe, Brown, Greene, Law-
rence, Daviess, Martin.

Sixth—Marion.

Seventh—Boone, Hamilton, Madison,
Clinton, Tipton, Howard.

Eighth— Fountain, Montgomery, Ver-
million, Parke, Vigo, Clay, Sullivan,
Owen.

Ninth—Huntington, Wells, Adams,
Blackford, Jay, Delaware, Randolph.

Tenth—Lake, Portor, Newton, Jas-
per, Put-in-Bay, White, Benton, Warren,
Hancock.

Eleventh—Fulton, Cass, Miami, Wa-
bush, Carroll, Grant.

Twelfth—La Grange, Steuben, Noble,
DeKalb, Whitley, Allen.

Thirteenth—La Porte, St. Joseph,
Elkhart, Kosciusko, Marshall, Stark.

By this re-apportionment the republi-
cans will secure at least ten of the
thirteen Congressmen. The Eighth
district will have a very small demo-
cratic majority. Democrats, however,
find consolation in the fact that the
supreme court will surely knock out any
apportionment the Senate may make at
this time.

The county officers' "lobby" is per-
haps the most formidable of any now
attempting to corrupt legislation. The
object of the "lobby" is to have the
salary unchanged and the old fee system
restored. It is the best organized
and financially equipped organization
aside from the railroad "lobby" in the
State. Circular letters have been sent
to each county officer in the State, levying
an assessment of one per cent on the
salaries paid such officers in 1891. This
means about \$20,000 which the "lobby"
will use to purchase legislation. Spe-
aking of the matter the Indianapolis News
says: "It is most unfortunate for the
lobby and most fortunate for the people
of Indiana that this charming creature
has been made public. It will have a
great and good effect. Senators and
Representatives will be reluctant even
to talk with members of this to grab
combination. To be on even the
most formal terms with any of its mem-
bers will at once arouse suspicion. The
people, too, are aroused, and they will
be very watchful. They understand
the situation as they have never under-
stood it before. And they have been
taught that the present salaries are at
least 1 per cent. too large, for that is
the proportion of the salaries which
they say is to be spent in paying the
"postage" of the "lobby."

A TWO CENT RATE.

The bill now being considered by the
Senate committee on railroads, which
was introduced by the Senator from
Dobson, proposes to reduce the amount
of railroad fare to 2 cents per mile.
There is already a strong opposition to
this bill and, although most of the mem-
bers of the house who have expressed
themselves favor the bill, and while it is
equally popular as a thing to be desired
by members of the Senate, it is hardly
probable that it will ever become a law.
There has been made the same effort
before to make such a law in this State
but the effort is generally exhausted be-
fore the bill comes from the committee.
The bill would mean the loss of too
many thousands of dollars annually for
the railroads to take any chances to
allow it to be passed by default, and default
is the last thing that they could
be accused of in such a case. If the
bill is ever reported favorably by the
committee, it may possibly pass and be-
come a law, if no mistakes to nullify
its effects are made by the clerks
through whose hands it must pass.
There is many a slip 'twixt the cup
and the lip,' and also many a slip be-
twixt the introduction of a bill and its
final enforcement as a law."—Indiacap
olice Sentinel.

The big Brooklyn street railway
strike is at an end with the usual re-
sult—a complete victory for capital.
This strike, like many others, was ill-
advised. During the conflict a human
life was sacrificed. The State of New
York was put to an expense of several
thousands of dollars for military service.
The company lost more than \$100,000 in
damage to property and loss of busi-
ness, while the loss to the striking em-
ployees is simply incalculable. Hun-
dreds of men are rendered idle, for the
company refused to take back any of
the old employees who participated in
the strike. Many of them, when real-
izing their cause was lost, made beg-
ging, pitiful appeals to be taken back
but it was of no avail. New men had
taken their places and business was re-
sumed as though nothing had happened.
Why it is that men will permit them-
selves to be influenced by a few hot-
headed, impulsive, anarchistic dead-
beats who make it a business to create
dissension and strike is more than we
can understand. A strike at this time
was little less than suicide. There are
dozens of men willing and anxious to
step into the position you occupy and
throw so-called "spirit eagle" to the wind.
Strikes are failures, have always been,
and will always be. Some other method
must be adopted to effect differences
between capital and labor or the cause
of labor is forever lost!

JUDGING from the number of wooden
headed politicians in the present State
Legislature there was certainly a dearth
of material at the last election.

There is more Catarrh in this section
of the country than all other diseases
put together, and until the last few
years was supposed to be incurable. For
a great many years doctors pronounced
it a local disease, and prescribed local
remedies, and by constantly failing to
cure with local treatment, pronounced
it incurable. Science has proven
catarrh to be a constitutional treatment

Now is the Time.

The benefit to be derived from a
good medicine in early spring is un-
doubted, but many people neglect tak-
ing any until the approach of warmer
weather when they will like a tender
flower in a hot sun. Something must
be done to purify the blood, overcome
that tired feeling and give necessary
strength. Vacation is a costly long-
er, but many weeks, perhaps months,
must elapse before rest can be
indulged in. To impart strength, and
to give a feeling of health and vigor
throughout the system, there is nothing
equivalent to Hood's Sarsaparilla. It
seems perfectly adapted to overcome
that prostration caused by change of
reason, climate or life, and while it
tones and sustains the system it purifies
and renovates the blood.

A Great Battle.

Is continually going on in the human
system. The demon of impure blood
strives to gain victory over the consti-
tution, to ruin health, to drug victims to
the grave. Hood's Sarsaparilla is the
weapon with which to defend one's self
from the desperate enemy from the
field, and restore bodily health for many
years.
