CHEAP NEWSPAPERS.

The Chicago daily newspapers are en-
gaged in a lively war just now and are
engaged in losing money on their prop-
erty just to show the public what they
can do. The Tribune, Inter-Ocean
and Chronicle, large eight and twelve
page papers, are sold at 1 cent each,
away below cost of production.
It may be fun to the public, but is
a great loss to the publisher, if con-
tinued very long. In fact newspapers
all over the land are too cheap, weekly
as well as daily papers. Any weekly
newspaper, respectably conducted, if it
has not more than ten columns each
week of reading matter, is worth more
than \$2 and \$3 invested in a book, which
is not one-fourth the value to him and his
family as is the weekly newspaper,
which oftentimes does not cost one-half as
much. But this is an age of much com-
petition, and no class feels it more for-
cibly than the publishers. Popinjay
publishers, whose ideas of busi-
ness and integrity are about equal
to those of a horse on astronomy,
rush in anxious to do something and
crowd out the other fellows, so that they
are prepared soon to give nothing for
something, kill their own business and
injure that of those near them, and are
eventually closed out through mort-
gages, paper bills and other debts ac-
cumulated while aiming to down the
other fellows. That is about the gait
many publishers are traveling at this
time. It is the result of unhealthy com-
petition, for no one is eventually bene-
fitted by it. The big Chicago papers
are only setting a bad example for pen-
ny publishers to follow—if they are
idiots enough to do it. Competition is
the life of trade, and it might be added
that it is frequently the death of it, and
all those publishers who insist on giving
their time and labor away, will soon feel
the force of it.

NEW STRUCTURE MUST BE BUILT.

The democratic party is very much in
the position of a man having a good
house which through the carelessness
and indifference of an attendant had
permitted it to be burned down. He
proceeds to rebuild making the struc-
ture as substantial and symmetrical as
possible, and as near fire proof as it can
be reared. This is much the position of
the democracy to-day. Its leaders have
in too many instances been recreant to
their trust, have proven false and indif-
ferent, or have been unable to cope
with their adversaries. To them in a
great measure can the cause be attrib-
uted for the somewhat prostrated atti-
tude of the party in the country at this
time. For two successive years have we
marshaled our forces only to meet with
defeat. In the hands of men of ability,
men sincere, determined and harmoni-
ous in action this would not have
occurred, and the almost unanimous
reputation of the party could not at
this time be chronicalled. But the
house must be rebuilt. It must be
erected on the solid and enduring prin-
ciples of Jefferson, Jackson and Tilden.
It must be erected on a rock that the
waters cannot wash away. Its builders
must be men tried and true, experienced
and honest. The leaders, and no one
else, are responsible for our defeat.
Many of them have shown themselves
to be truckling time servers, whose own
interest to them politically was above
the party. We want no Brices nor Gor-
mans hereafter. We want no bull-
headed executive controlled by Wall
street dictation. We want men ready
to sacrifice anything of personal inter-
est that will redound to the party's ben-
efit. Secure these style of men and a
house will be erected that will stand
regardless of storms and tempests that
may surround it.

KENTUCKY LEGISLATURE.

The Kentucky legislature is a tie, that
it is composed of an equal number of
democrats and republicans, while the
populists have two votes. The popu-
lists are masters of the situation and
these two members will make money
out of their votes beyond question.
That as much as anything else is what
the party was created for—to get place,
power, money—not for the propagation
of sound business principles in the
management of state and national
affairs, and these two individuals have
an opportunity to carry out party in-
clinations and doubtless will not be
slow in adopting them.

NOTWITHSTANDING the democracy, as
republican papers asserted, were by re-
duced tariff rates of the Wilson law,
killing off the industries of the country,
the iron interests, the tin plate mills,
the cotton factories, etc., were never
more prosperous than at this time, in
fact they can stand that kind of killing
first rate.

SHOT GUN POLICY.
Rev. Myron Reed, Denver, recom-
mends the use of shot guns at elections
where there is a probability of the peo-
ple being deprived of their franchise by
persons guilty of cheating at elections.
This may be termed the heroic method,
but such advice coming from a minister,
a man of God, a follower of the meek
and lowly Jesus, sounds entirely out of
place, and we would not give much for
the sincerity of any man's religious be-
lief and teachings who favored such
unlawful work. He simply means to
take the law into your own hands, and
kill the man guilty of fraudulent work
at the ballot box. He advises mob law
to punish men for wrong doing instead
of the more peaceful ways of punishing
them by civil process. To the devil
with such preachers. They are not as
good citizens as those to whom they
tender such advice.

WANNAMAKER—HE PAID THE
\$10,000.

Ex-Post Master Wannamaker, lately
paid \$10,000 as campaign expenses for
Indiana, which if the republicans of the
State, who enjoyed the spoils during the
Harrison administration, had any
sense of honor or decency, they would
not have permitted. Wannamaker
simply stood as an endorser agreeing to
pay the \$10,000 which had previously
been raised by the party politicians in
the State for campaign expenses. After
the campaign was over the fellows
wanted their money, there being no
spoils in view and the party forced into
retirement. Instead of sharing the loss
of funds themselves they forced Wanni-
maker to pay it, and a few days ago a
check came for the amount. Wanni-
maker's opinion of the littleness of some
Indiana republican politicians would
probably be worth reading about.

THE THIRD TERM FOLLY.

The talk of nominating Cleveland
next year is about the silliest stuff now
afloat. It is very probable, whatever
his ambition might be, that he knows
he could not be elected, and again he is
wise enough to know that his populari-
ty of four years ago with the party is
a very different thing from the feeling
toward him to-day with the rank and
file of the party. There is nothing in
earnest in the assertions made by some
that he will be nominated and very few
believe it for a moment. At Cleveland's
time of life he is certainly not desirous
of being nominated only to be defeated.
He very sensibly no doubt prefers to re-
tire on laurels already won. He, no
doubt, knows his exact position in the
party as well as any one. He will be
very well satisfied at the end of his pres-
ent term to drop all political ambition.

**SLAUGHTER OF THE ARMENI-
ANS.**

The massacre of Armenians by Turks
still goes on. The Turks being all Mo-
hammedans consider the Armenians, who
are Christians, no better than infidels.
Forcing people to become religious or
to believe in your system of religion
has existed for ages. History is full of
accounts of wars, battles and bloodshed
brought about through religious pro-
secution. The believers in the Christian
religion too have in ages past put to
the sword many who would not think
and act as they did, and as the Turks
for centuries have thought their system
of salvation was the only correct one it
is not to be wondered at that they will
tolerate no heresy. But their cruelties
toward the Armenians should be stop-
ped even if Turkey has to be devastated
with fire and sword.

"DIGNIFIED SILENCE" WON'T WIN.

Present indications are that "dignified
silence" on the part of is Harrison not
going to win the nomination for presi-
dent next year alone. The Reed men,
it would seem, are going to make a gi-
gantic effort to land their man, and they
are among the greatest workers of the
republican party. Among them are
Quay, Platt, Clarkson and others. Reed,
also, it is said, has the entire New En-
gland States for him. This is a good
start. Besides all this the east has
rarely had a candidate for president and
this may give them some precedence or
reason for asking Reed's nomination.
It is quite evident if the friends of Har-
rison desire his nomination it is going
to take something else than "dignified
silence" to secure it.

TOO MUCH ATHLETICS.

If students were as anxious to excel
in mastering the intricacies of mathe-
matics and the classics as they are in
foot ball, how much higher class of
educated men would there be than are
now yearly turned out by our colleges
and universities. Exercises and sports
of various kinds are demanded for the
health of muscle and mind, but they
overdo it altogether—devote more time
to them than to good hard study of the
text books.

The republican national convention
will probably from indications be held
next year at Pittsburgh. The bosses of
the party, that is Quay, Platt, Clarkson
and others, are aiming to have it held
there, and these bosses generally suc-
ceed. If held there it is said it will not
be to the advantage of Harrison and the
coterie of republican politicians of Indi-
ana that are fawning upon him. Quay
by having it located in Pittsburgh can
get in much good work for Reed, who is
said to be his choice for President.

THE STATE PRINTING.
A reform has been brought about
in the matter of the State printing, and
hereafter the State will only be com-
pelled to pay for what it needs and at
reasonably specified prices. The State
has frequently paid over \$100,000 for
books, blanks, paper and stationery,
much of which she did not need and at
very high rates. Under the new regula-
tions the State will pay but about \$75-
000, and the State printer's bank ac-
count will not enlarge to the extent as
heretofore. An idiotic rule or law of
some kind prevents the awarding of
this work outside the State. The State
simply supports a monopoly in this. It
bids for this work were open to the
world, Chicago, Cincinnati, and printing
establishments of other large cities
would furnish supplies no doubt, at
much lower rates than the State has
been paying, but in order to enrich
home manufacturers, the tax payers of
the State must pay the extra cost. It
is a proper illustration of Indiana tariff
and Illinois and Ohio free trade. Keep
out all competition is what every man
desires until his pockets are well lined.

Deafness Cannot be Cured

by local applications as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed con-
dition of the mucous lining of the
Eustachian Tube. When this tube is
inflamed you have a rumbling sound or
imperfect hearing, and when it is en-
tirely closed, deafness is the result, and
unless the inflammation can be taken out
and this tube restored to its normal con-
dition, hearing will be destroyed forever;
nine cases out of ten are caused by
catarrh, which is nothing but an inflamed
condition of the mucous sur-
faces.

We will give One Hundred Dollars for
any case of Deafness (caused by catarrh)
that cannot be cured by Hall's Catarrh
Cure. Send for circulars, free.

An Important Office.

To properly fill its office and function, it
is important that the blood be pure.
When it is in such a condition, the body
is almost certain to be healthy. A
complaint at this time is catarrh in some
of its various forms. A slight cold
develops the disease in the head. Drop-
pings of corruption passing into the
lungs bring on consumption. The only
way to cure this disease is to purify the
blood. The most obstinate cases of
catarrh yield to the medicinal powers of
Hood's Sarsaparilla as if by magic, sim-
ply because it reaches the seat of the
disease, and by purifying and vitalizing
the blood, removes the cause. Not only
does Hood's Sarsaparilla do this but it
gives renewed vigor to the whole system,
making it possible for good health to
reign supreme.
