

Fits Cured

From U.S. Journal of Medicine
Prof. W. H. Pelee, with
many details of
Epilepsy, has without
doubt treated and cured
more cases than any
living man. His
success is astonishing.
We have heard of cases
of 20 years' standing
cured by him. He
publishes a valuable
work on this disease
which he sends
with a
large bot-

tie of his absolute cure, free to any subscriber
who may send their P. O. and express address.

We advise any one wishing a cure to address
Prof. W. H. PELEE, F. D., 4 Cedar St., New York

Don't think because you are sick and
nothing seems to give you relief that
you can't be cured.

There must be a cure for you some
where.

If your doctor can't cure you, perhaps
he has mistaken the cause. Anybody is
liable to make a mistake sometimes.

One in three of us suffer from indiges-
tion, and one out of three dyspeptics
don't know it. That is, he may know
he is sick, but he blames it to something
else.

Indigestion is the cause of half of our
dangerous diseases.

Shaker Digestive Cordial, made from
tonic medicinal roots and herbs, is the
most natural cure for indigestion. It
relieves the symptoms and cures the
disease gently, naturally, efficiently,
giving fresh life, strength and health
to sick dyspeptics.

At druggists. A trial bottle for 10
cents.

Gardner Brown, a rag-picker who
died recently in Newport, R. I., left an
estate valued at \$30,000.

Do Not Do This.

Do not be induced to buy any other
if you have made up your mind to take
Hood's Sarsaparilla. Remember that
Hood's Sarsaparilla cures when all
others fail. Do not give up in despair
because other medicines have failed to
help you. Take Hood's Sarsaparilla
faithfully and you may reasonably ex-
pect to be cured.

Hood's Pills are purely vegetable,
carefully prepared from the best in-
gredients. 25c.

In many cases of dyspepsia great relief
is found by a very hot bath quickly
taken.

Bucklin's Arnica Salve.

The Best Salve in the world for
cuts, bruises, sores, ulcers, salt rheum
fever sores, tetter, chapped hands,
chilblains, corns, and all skin eruptions,
and positively cures piles, or no
pay required. It is guaranteed to
give perfect satisfaction or money re-
unded. Price 25 cents per box. For
sale by Nye & Boo.

The world makes and eats each year
1,000,000 tons of butter and cheese.

Children Cry for Pitcher's Castoria.

Birmingham turns out 40,000 tons of
brass and copper wares annually.

A False Diagnosis.

LaGrippe is confounded by many
persons with a severe attack of catarrh,
which in some respects resembles the
former. These individuals suffer
severely with pain about the forehead,
eyes and ears, with soreness in throat
and stoppage of the nasal passages, and
in fact, are incapacitated for work of any
kind for days at a time. These are
catarrhal sufferers. Ely's Cream Balm
has been used with the best results in
such cases. The remedy will give instant relief.

The United Kingdom spends yearly
\$750,000,000 on tobacco and cigars.

Children Cry for Pitcher's Castoria.

Go South at Half Rates.

Tickets on sale as below, at one fare
for the round trip plus \$2.00 via the great Queen & Crescent Route. Round trip tickets will be on sale from all points North to all points South on the Queen & Crescent Route and A. G. S. R. R. south of Somerset, Ky., in Kentucky, Tennessee, Arkansas, Mississippi, Louisiana, Texas, Arkansas, Arizona, and points east of and including Charlotte and Salisbury in North Carolina, March 10th, 1896.

Tickets are also sold on this date to points on the Mobile & Ohio R. R., south of Meridian, (except Mobile, Ala.) and to points in Georgia on the G. S. & F. and Central of Ga. R. R.

Tickets are good for 30 days to return. Stop-overs will be allowed under certain conditions on tickets except to Carolina points. Ask agents in regard to stop-overs and return limits.

One Way Setters' Tickets are on sale via the Queen & Crescent Route, on the first Tuesday in each month to Somerton, Ky., and all points south thereof in the state of Kentucky; also to all points in Alabama, Georgia, Florida, North and South Carolina, Tennessee, Mississippi and Louisiana, located east of the Mississippi River.

Information in regard to schedules, rates, the securing of tickets, choice of routes, checking of baggage, etc., cheerfully given upon application to the undersigned:

THE TRADE REVIEW.

BUSINESS SHOWS CONFLICTING TENDENCIES.

Certain Lines of Commerce Have Improved, but the General Situation Is Not Very Encouraging — Hints of a Gold Outline.

New York, March 28.—R. G. Dun & Co.'s weekly review of trade says: "No important change has occurred in the general condition of business during the week, and if trades in some respects look worse, in other respects they look better. Some failures of magnitude have occurred, which have caused much apprehension and unwillingness to lend among bankers, and there have been somewhat less favorable features in the dry goods market, but in iron and steel conditions are slightly improved, and in boots and shoes considerably more hopeful. The labor controversies, mainly in the clothing trade, still cause much interruption of that business. Foreign trade is a little more satisfactory, exports from New York for three weeks showing an increase over last year of 6 per cent, while imports have shown nearly the same rate of decrease, and there are not wanting signs that the domestic markets have been somewhat overstocked by many kinds of foreign goods. In general, the course of domestic prices tends to favor the marketing of staples abroad.

"Wheat has gained about a point, but corn and cotton remain unchanged. Receipts of wheat at western points continue surprisingly large for a most unfavorable season, and make it hard to believe that the crop of 1895 was as small as estimates represent it, for such receipts amounted during the last week to 2,901,724 bushels, against 1,849,432 bushels last year, and for four weeks of March have been 11,884,205 bushels, against 7,474,361 bushels last year. There has been a slight increase in Atlantic exports this week, but in four weeks exports (flour included as wheat) were 5,488,119 bushels, against 6,488,109 bushels last year.

"Cotton had a lively rise with the covering of short sellers, but began to decline again a week ago and has been lagging ever since. The receipts from plantations continue quite as large as in the same weeks of the last short crop year and stocks in sight, with the quantities known to be held by European and American mills, make up an ample supply for the rest of the crop year.

"In the dry goods market the latest indications do not warrant expectations that the mills will continue full production throughout the season. The demand for woolen dress goods is the best feature of the woolen market, and there is about as much difficulty as at any time in men's wear departments, the operations of clothiers being hindered not only by the prevalent strikes but by slackness of immediate demand. The sales of wool have fallen to less than half a week's full consumption. A striking feature this week has been a sale of 350,000 pounds of American wool for shipment to England.

"The iron and steel markets have disclosed a similar feature, for a little Alabama pig has been sold for export by the Sloane company, though few imagine that much business of that sort is possible. The combination of lake ore producers has at last announced its prices for the coming season, \$4 for first-class Bessemer, \$3.40 to \$3.70 for Mesaba and \$3 for non-Bessemer ores, and it is calculated that with coke at \$2 per ton Bessemer pig can be produced at about \$12.25 at Pittsburgh, which is now the current price there. But the slow marketing of finished products is still the main trouble. There has been a little more activity this week and the Carnegie works have sold 10,000 steel rails to Japan, thus scoring a noteworthy success, but in the main the market is as inactive and insufficient as it has been.

"A heavy failure in Texas will also swell the aggregate of returns for the past week, which include 259 in the United States, against 234 last year, and thirty-nine in Canada, against forty-two last year."

Quay Expects to Get a Majority.

Pittsburg, Pa., March 28.—The republican primary elections for delegates to the convention that will elect state and national convention delegates is being held today. At the Quay and combine headquarters the leaders will elect at least fifteen of the twenty-seven delegates. A few days ago they were content with the belief they would capture fourteen delegates. To meet the heavy expenses of the bitter fight against Senator Quay it is stated that a 2 per cent assessment was made on all city and county employees. It is expected the combine will carry the city, while the country districts will go for Quay.

Burial of Pearl Bryan's Body.

Greencastle, Ind., March 28.—The services at the funeral of Pearl Bryan, the Fort Thomas victim, Friday were simple and of a quiet nature. The family has abandoned the idea that the missing head would be found, but the interment was withheld with the slight hope that it would be brought to light and identified.

Minnesota Solid for McKinley.

Rushford, Minn., March 28.—The First district republican convention Friday elected A. D. Gray of Preston and L. S. Swenson of Albert Lea delegates to St. Louis. Both are for McKinley and the Minnesota delegation is now solid for the Ohio candidate. The resolutions are for McKinley and "sound money."

A BRUTAL MURDER.

AN AGED COUPLE ASSASSINATED IN OHIO.

A Farmer and His Wife Killed, While Two Daughters and the Hired Man Are Seriously Injured — Double Crime in Cass County — Killed by His Wife.

Akron, O., March 30.—At an early hour Sunday morning a double murder was committed on a farm seven miles east of this city. Alvin N. Stone, aged 68, and his wife, Serena, aged 63, are the victims, and Ira Stillson, the hired man, is fatally injured. Two daughters are seriously injured, while third daughter is the only one of the household who escaped the assassin's plows.

The crime was committed about 1 o'clock by an unknown man wearing a mask. He effected an entrance through a second-story window, and went to the room of Mr. and Mrs. Stone on the first floor. With some instrument, evidently a hatchet, he killed the aged couple, striking them repeatedly on the head. Going upstairs he attacked Stillson, knocking him unconscious. Returning to the room of the aged couple, he mutilated the body of the old man. He cut a deep gash in the throat, severed both ears, mutilated the face, slashed the body and limbs and wound up with stabbing the man to the heart. He also cut a gash on Mrs. Stone's face.

Going again upstairs the assassin entered the room of Emma Stone. She awoke and screamed, thus arousing her sisters. Hattie started to her sister's room, but was knocked down with a blow on the head, but fortunately was not rendered unconscious. Regaining her feet she ran to her own room and locked the door. Throwing a bed quilt about her she leaped from the window and ran through the rain and mud to the nearest neighbors. After he had struck Hattie down the murderer returned to Emma's room and struck her on the head, leaving her unconscious. Then he tried the door of the room in which Hattie had left her younger sister, Flora, when she jumped from the window. Finding the door locked, he battered it down. Finding only Flora in the room he asked where the other girl was. When told that she had gone for help he hastily left the house and made his escape.

Hattie, with the blood streaming from the wound in her head, managed to reach the neighbor's house, told her story and then fainted. After she had been put to bed the neighbor, calling for help, went to the Stone house. There the evidences of the butchery were discovered. The only person in the house who was able to speak was Flora Stone, aged 16, and she was so badly frightened that she could tell nothing about the murder except that the man who committed it wore a mask over his face.

The crime is a mystery. There is no possible motive for the murders so far as can be learned. Certainly the murderer was not bent on robbery, for in a bureau drawer in Mr. Stone's room were two gold watches and some money and nothing had been taken apparently.

The sheriff of Summit county was called to the scene of the murder and with a posse of men has been searching for clews to the murderer. Nothing has been discovered. One man has been found who says he saw a buggy pass his house late Sunday night, going in the direction of the Stone house, and the same horse is believed to have been found in the streets of Kent, a few miles east of Tallmadge, Monday morning. Ira Stillson, the hired man, and Emma and Hattie Stone have not yet recovered consciousness, and it is feared that Stillson, at least, will die.

Stepson's Awful Crime.

Jacksonville, Ill., March 30.—For a long time trouble has existed between Conrad Becker, a German farmer, who lived near Arenzville, this county, and his stepson William. The trouble ended Saturday afternoon, when the son killed the father and then took his own life.

The father had a favorable lease for ninety-nine years on a lot of school land, on which he had made a good deal of money. Seven years ago he leased a farm to his son for five years, but at the end of the lease no papers were drawn, though William stayed on the farm according to a verbal agreement which he claimed existed for another five years. Last year the father concluded to take his farm again. This angered him, and Saturday afternoon he took a rifle and sought the home of his father and found him in the barn. Calling him out he leveled the rifle at him and sent a bullet through the old man's back. A second shot penetrated the victim's heart, and a third entered his bowels. He fell dead. A posse was at once raised and started in pursuit, and the son was found on the bank of Indian creek with a bullet through his brain.

Husband Killed by Wife.

Springfield, O., March 30.—A horrible tragedy occurred Sunday afternoon at the home of Arthur Wilson. Mrs. Maggie Wilson deliberately murdered her husband by shooting him in the back of the head. The crime was the result of an altercation over a trunk belonging to Mrs. Jessie Blair. Wilson wanted to eject the Blair woman from the house, and his wife objected. Mrs. Wilson and Mrs. Blair were arrested and placed in jail. Mrs. Wilson is charged with murder, and Mrs. Blair as an accomplice. Mrs. Wilson claims she shot him in self-defense, as her husband was coming toward her with a hatchet intent on killing her.

FOUR KILLED BY FIRE.

DISASTER IN A NEW YORK TENEMENT HOUSE.

Fireman Walsh Killed While Attempting the Rescue of Imprisoned Inmates of the Building — Weston, W. Va., Visited by a Disastrous Fire.

New York, March 30.—Four persons were killed and two injured in a fire which started early Sunday morning in the three-story business and tenement building, 374 Hudson street.

The dead are:

THOMAS MALLOY, 23 years old, a fireman on the steamship St. Louis; suffocated.

ARCHIBALD GROGAN, 35 years old, a waiter; suffocated.

MARY MAHON, single, 22 years old; suffocated.

MARGARET RYAN, single, 60 years old; died on the way to the hospital from injuries received by jumping from a window.

The injured are:

Kate Higgins, 35 years old; leg fractured by falling.

Edward Walsh, 29 years old, fireman; internally hurt by falling from a ladder.

It was in the apartments of the McManus family that the fire originated, so far as the police and the firemen are able to determine. Nicholas McManus, one of the sons, who slept in one of the back rooms, was awakened by the smell of smoke. He turned in an alarm and awakened the tenants. It was apparent that the lives of many were in danger, for the smoke had permeated every part of the house, and the flames were burning briskly. All of the McManuses were able to make their way down the stairs to the street before escape in that direction was cut off by the flames. Nicholas McManus succeeded in helping several persons out by leading them down the stairs through the blinding smoke in the hallway.

It was among the tenants on the top floor that the chief danger lay. Some of them ran to the roof and escaped in that direction, but others sought to get down by the stairway.

Miss Margaret Ryan and Miss Kate Higgins, being awakened, ran to the front windows on the third floor. The firemen had already arrived, and ladders had been placed on the front side of the house to help take out the tenants. On one of these ladders was Foreman Walsh. As he was ascending a burst of flame and smoke shot out of one of the windows and he was sent reeling to the street. As Walsh fell Miss Ryan leaped from the window to the sidewalk, and Miss Higgins, apparently partly overcome by the smoke in the rooms above, fell to the ground at almost the same time. An ambulance was sent for, but Miss Ryan was unconscious when placed in the conveyance and died before the hospital was reached. Walsh was taken to the hospital at the same time. He is badly but probably not dangerously hurt.

After the flames had been extinguished a search of the building was made and the bodies of Thomas Malloy, Archibald Grogan and Mary Mahon were found. All of the persons found dead had been suffocated before they were able to escape.

How the fire originated cannot be determined until a thorough investigation is made. The property loss will not exceed \$15,000.

Wheeling, W. Va., March 30.—The fire which broke out in the business portion of Weston, this state, shortly after midnight Sunday morning destroyed property to the value of \$150,000, only about one-third of which is covered by insurance. The property burned was about one-half the business portion of the town, which is the seat of the state hospital for the insane.

During the fire a suspension bridge which spans the West Fork river connecting the hospital with the town gave way with a crowd. A number of persons were injured in the fall, the most seriously hurt being Deputy Sheriff William Wodell and Henry Fisher. J. S. Mitchell was fatally hurt by a falling wall. Weston has no fire department, and it was not until a heavy rain came up to assist them that the bucket brigade was successful in getting the flames under control.

SEED-TIME

for Infants and Children.

Castoria with the patronage of millions of persons speak of it without guessing.

It is unquestionable that the world has ever known it is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have something which is absolutely safe and practically perfect as a child's medicine.

Castoria destroys Worms.

Castoria allays Feverishness.

Castoria prevents vomiting Sour Curd.

Castoria cures Diarrhea and Wind Colic.
