For Commissioner, 31 District,

JAMES W. FOSTER.

For Commissioner, 31 District,

ALLEN BYERS.

THE CENTENARY SCHEME.

The scheme hatched in Indianapolis some months since of having a centenary celebration at Indianapolis in 1900 to continue some months, is not dead, but is only sleeping, and will probably be urged with great energy and a big lobby as soon as the legislature convenes in January next. Honest members of any political party should oppose this with all the resources at their command. It is simply a scheme to benefit a few persons at Indianapolis at the expense of the tax payers of Indiana. If these persons desire it let them go ahead with their own resources and take their chances of making it a success, but to force the people of the State by legislative enactment to help pay the bills, would be an outrage. Indiana does not need this centenary; may be Indianapolis does. Let her pay for it then. It has been reported that the Hon. J. A. Mount has promised his support of the project. If so, this of itself should defeat him. It is anything to get money out of the State with a lobby that is to be found the year around hanging around the hotels of Indianapolis. If the majority of the next legislature should be republican the plan will be almost sure to go through and an appropriation of possibly a million or more of cash will be made for the project. This is one of the affairs of the future that honest members of the next General Assembly should keep their eyes upon. It will be forced through if possible, as it is in the interest of a few hungry politicians who will use every means within their knowledge to have an appropriation made for this purpose. Let it be defeated. Let the deeply interested foot the bills themselves.

HOW MANY ARE THERE?

The question is often asked, how many in this county will vote the bolter's ticket, and from it average up the State for the total number. Close investigators do not count more than 50 votes for Palmer and Buckner in Montgomery county, about a half of whom live in Crawfordsville. A very few county at this rate gives 4,500. Of course in several counties like Marion, Vigo and Allen the vote for them will run up into the hundreds, while in many counties they will not secure over 12 or 15 votes.

THE CORRUPTION FUND.

Never has a national election been held where a larger corruption fund will be used than by the republican leaders at the ensuing election in November. The Wall street bond buyers, the big syndicates, and those who have a big personal interest in a gold standard, will contribute to this fund as never before. It is the only anchor on which to cling with any hope of success. The American voters to day are in favor of the election of Bryan by a great majority, and were the election held to day this assertion would be affirmed in a language unmistakable. To stem this tide this immense corruption fund, running up into the millions is to be used. That is what Hanna and his lieutenants of the republican national central committee are now engaged upon. All their arguments, all their work, all the labor of their leading speakers, falls upon stoney ground. The voters see nothing in what they say. They know the government is upon a gold standard basis to day, and they know that times could be little less stringent than now, or business in all lines less dull. They want a change, are determined to have it, and can see little hope for it in the election of McKinley. This fund will be used in many ways to bring the desired result. The party can this year succeed in no other way, cannot possibly hope to defeat the democratic ticket by any other means. The people are with us, the millionaires, rich syndicates and money lenders are against us. But in spite of all their money we believe they are doomed to defeat. Additions to the Bryan column are being made daily in almost every part of the country. The speaking of Bryan in the east has been of vast benefit to the ticket. His arguments in behalf of silver remain unanswered. The Australian ballot system, now in use in all the States greatly aid the cause of a free ballot and an honest count. This is our hope, and in spite of Hanna's corruption fund will result in a victory for the cause of free silver.

McKINLEY'S PRAYER.

"Our Father who art in England, Rothschild be thy name, thy kingdom come to America, thy will be done in the United States as it is in England. Give us this day our bonds in gold, but not in silver, give us plenty of laboring men's votes to keep monopoly in power and its friends in office. We know our father that we have done many things that were wrong, we have robbed the honest poor, and brought distress to many a poor man; we know that it was wrong to refund the bonds and make them payable in coin; we know it was wrong to water our stock, but thou knowest that we made money at that—now, our father, thou knowest that we are above politics. It is the same to us whether Gold Democrats or Republicans rule; for thou knowest we are able to sway such parties in our favor. Lead us not in the way of 'common people,' the farmer or laborer, and above all, deliver us from '16 to 1.' Thus shall we have the kingdom, bonds, interest, power and gold until the Republic shall end.—AMEN."

DRAWS THE CROWDS.

No public speaker of this generation has drawn larger crowds to hear him than Hon. Wm. J. Bryan, and no speaker has shown greater versatility in the language, thought and general make-up of his addresses to the people. No one is abused who differs from him, no one personally pointed out and held up, but his speeches are conservative in tone throughout, and appeal to the good sense and reason of the people. Mr. Bryan's addresses are of vast benefit to the cause of free silver and everything indicates his triumphant election.

DON'T CHANGE YOUR RESIDENCE.

Democratic voters should make it a point not to remove their location into another precinct, until after the election in November. We understand a part of the republican plan now under way in the county is to induce voters of the party opposite to them to move into another township or even into an adjoining county. This has been attempted in several neighborhoods, especially near the county line. Don't change your residence, if possible, until after November 3d. You may lose your vote.

"THE LAW AND THE FACTS"

The above is the title of a pamphlet, issued this week from the REVIEW job room. The pamphlet is a compilation of figures and facts relating to the coinage of silver and the financial question in general. It is issued by the democratic central committee and should be in the hands of every voter of the county. By careful perusal of the work the voter can gain many valuable facts in guiding him how to cast his vote.

HON. W. J. BRYAN addressed an audience of between 40,000 and 50,000 at Columbus, O., last week—as large a crowd probably as was ever congregated to hear any speaker in this country.

GRANT FOR BIMETALLISM.

"With free and unlimited coinage of gold and silver, we will clear away our public debt before the close of the century."—U. S. Grant in 1873.

ALTGELDT.

Altgeld, as a candidate for re-election for Governor of Illinois, is almost sure of success. The republican press of the west have been particularly free in their maledictions toward Altgeld, yet all the same he has made an excellent Governor, will have a majority in Chicago of from 20,000 to 30,000, is a very sensible man and will again be elected Gov. of Illinois. In a speech at Girard, Illinois, one day last week, he made an excellent address on the silver question from which we make the following extract:

"We are not proposing to, wrong anybody. We are proposing to give every man his due. We are not suggesting experiment; we are demanding a return to the experience of the world for thousands of years, and we say that this experiment of trying to force the nations of the earth onto a gold basis for the benefit of European creditors is ruining the American people. We propose to pay back the English creditors in the same money they gave us, gold and silver. We propose to give them dollars that will have the same purchasing power, that will buy as much property and as much labor of every kind as the dollars they gave us. We propose to pay them principal and interest in exactly the same money which they gave us, and we say that their act in getting silver demonetized and gold made dearer after they had succeeded in getting our bonds and notes so as to compel us to pay in a different kind of money from that what they gave us, to pay in dollars which cost twice as much sweat, twice as much blood, was a fraud, and a crime against civilization."

THE Indianapolis News was very free in giving advice to the bolters' national convention last week, suggesting platform, nominees, etc. However as the entire thing from start to finish was in the interest of McKinley and his party, the zeal of the news should surprise no one. The News seems to be one of those publications whose appropriate motto should be "Always independent, but always republican."

LINCOLN'S PROPHECY.

"As a result of the war, corporations have been enthroned and an era of corruption will follow; the money power of the country will endeavor to prolong its reign by playing on the prejudices of the people until all wealth is concentrated in a few hands and the republic is destroyed. Before God I fear more for my country now than when in the midst of the war."—Abraham Lincoln.

McKINLEY ON SILVER.

"I am for the biggest use of silver in the currency of the country. I would not dishonor it; I would give it credit and honor with gold. I would make no discrimination. I would utilize both metals as money and discredit neither. I want the double standard."—[From a speech by McKinley in the House of Representatives, June 14, 1890—Congressional Record, vol. 21, page 6,447.]

ELKIN'S OPINION.

"Silver is the money of the constitution as much as gold; the people will have silver for money and will fight for it, and the contest will not end until it has its proper place in the money system of the country."—[Stephen B. Elkins in a speech at Fairmount on June 19, 1894.]

GARFIELD ON MONEY.

"Every man who is opposed to the use of the silver coin as a part of the legal currency of the country I disagree with. I would endow the two metals with equality and make coinage free."—[James A. Garfield in a speech delivered in the House of Representatives.]

REPUBLICANS assisted very materially in booming the bolters' convention at Indianapolis, for which they are no doubt, entitled to the thanks of the convention managers including Bynum, Vilas, Flowers, et al. The bolters will reciprocate about the time of the election by voting for McKinley.

It is remarkable at the great praise bestowed on the management, conduct and appearance in general of the delegates to the bolters' convention at Indianapolis—by republicans. They wished it well for the benefit they trust it may be to McKinley.

PALMER, the nominee of the bolters or President, is in his eightieth year, has been on all sides of political issues, and should he live two years more will probably be against the principles he now upholds. However he is good enough probably for a leader of bolters.

WHEN I find a man talking about an honest dollar and then not telling you what he means by an honest dollar I am afraid he loves darkness rather than light, because his purposes are evil.—Mr. Bryan at Hornellsville, N. Y.

For thirty years those who do not want it have, we are told, been trying to secure an international agreement favoring bimetalism. We have patiently waited, but we will wait no longer.—W. J. Bryan.
