Rev. Sam Small has been holding Frankfort level during the past week. Editor Sam B. Riley, of Brazil, continues to defy fate by calling his lively weekly newspaper the Cothran Era. His constituency in Clay county, however, ignore the name, either calling it the era, or else referring to it as "Sam Riley's paper." Seldom is one found of sufficient daring to grapple the whole title.

**The "Bad Man's" Sense of Humor.**

A young man from way down east had gone to Denver armed with an old fashioned Allen revolver—"pepper box" that weapon was called in those days.

In a gambling house one night he became involved with a "bad man" in a quarrel and drew forth his "pepper box." The "bad man," who was really a tough citizen from the mountains, and who had not the remotest idea of fear, and who was always armed with a pair of big knives, threw up his hand in well feigned dismay and said:

"Heavens, man! You ain't a-goin to throw that at me, are you?"

For the sake of his joke he spared the young man's life, and to that one of the wealthiest and most respected citizens of Denver now owes the fact that he is doing business in the western metropolis. He is a monument of that border man's sense of humor.—Chicago Times-Herald.

**A Witty Judge.**

The late Lord Bowen, besides being a great judge, was also a great wit, and many interesting bon mots of his are being recalled just now. On the occasion of the queen's jubilee the judges were drawing up an address to the queen. "Conscious as we are of our shortcomings," ran the address. "Conscious as we are of one another's shortcomings," suggested Lord Bowen.

Sometimes his wit was very incisive, as, for instance, when he remarked: "Truth will out—even in an affidavit." Not the least happy of his recorded witticisms was the remark he made when congratulated on his appointment to be a law lord. He would, he said, find the work easy, his duty being to give his opinion after so many others had given theirs. "In fact, I only have to agree, and might well have been raised to the peerage as 'Lord Concurry.'"

The big, hearty, healthy man is a continual irritant to his dyspeptic friend. One man in a hundred is perfectly healthy. The other 99 have some digestive trouble, and perhaps more than 50 per cent. of these could trace their trouble to that most prevalent evil—constipation. It's a simple thing of itself, but like many simple things, it may grow and become complicated. Constipation is the root of nine-tenths of the sickness of men, and of a large proportion of the sickness of women. It can be cured. It can be cured easily, naturally and quickly. There is no reason save that of carelessness why it should cause the trouble that it does. Nature is continually working as hard as she can to throw off impurities, and to force out poisonous refuse matter. Nature is not a dray-horse and should not be overworked. Nature is systematic. Some little thing may interfere with the system, and cause serious derangement. The removal of this little impediment sets the wheels working again without any trouble.

This is exactly what Dr. Pierce's Pleasant Pellets do. They assist nature in a gentle, healthful, efficient way. There is nothing violent about their action, and yet it is just as certain as if it were twice as violent. The use of the "Pellets" doesn't derange the system in any way, and once it is in order, you can stop taking them. There are unscrupulous druggists who will tell you that something else is "just as good." They are mistaken—or worse. Whether they are ignorant or untruthful matters little to you if you do not get the "Pellets." Insist on getting what you ask for.
