## A MATTER OF SPOILS ONLY.

Mr. Spencer, pension agent for Indiana, has been removed from his job within a few days past, to make room for Mr. Leighty, a hungry republican who has been standing impatiently at the official stand awaiting the feed promised him. The friends of Spencer seem to "kick" considerably over his removal until his four years term was completed in the same manner probably as the friends of the man preceding Spencer did. Now business will go on probably if neither Spencer nor Leighty had ever been remembered with official favors, and it doubtless would have been transacted fully as well. Both men are probably born spoilsman, and are in office strictly for the money that is in it regardless of which banner, democrat or republican, they sail under. Therefore what matters it in particular who has the positions of profit. Men often boast of fealty to party, yet thousands of them do so not that they have any fixed convictions, but for the personal party favors they may ultimately secure. They are strong McKinley men we are given to understand and talk loudly in his favor, but at the bottom of their hearts don't care a d—n for him or his principles only so far as it may in the future aid them. It was the same with hundreds who boasted of their strong free silver "convictions"—they expected official jobs of Bryan had he won. It is spoils, spoils that animate those loudest mouthed in campaign times and there is no principle in it to them. McKinley gives the offices, Landis gives the offices and "Hurrah for McKinley and Landis!" in consequence. It is somewhat remarkable in an intelligent country like ours that there is so much of this man worship, where offices are in sight, and the aim of the whole thing is so plain, Ta is time serving, to the man not looking nor wanting office, is nauseating. Every four years the same old thing is repeated, and the spoilsman are foremost in the contest. The public at large not office wanters are little interested in matters relating to Spencer and Leighty.

## WANT PRICES REDUCED.

The heating and cooking fuel furnished to Peru is by the Deitrick syndicate, the same that owns the plant in this city. The syndicate controls a dozen or more plants in Indiana, and is making piles of money off of its investments in Indiana. At Peru their contract soon expires and the citizens demand a reduction in the price of natural gas of 33 per cent. They should have it, but will they get it? Not if the syndicate can prevent it. The citizens threaten the construction of a new plant. It should not end in threats. The gas furnishing business is a strong monopoly. The syndicate, if its profits could be learned, probably make 33 per cent. at least on its capital. This is entirely too much. The outside public will be interested in learning of Peru's success in this matter.

## HELEN M. ON THE SITUATION.

As a political observer of matters relating to present affairs there are few more acute than Helen M. Gougar. Then again she writes with an incisive pen. In a communication to the Lafayette Journal the other day she said:

## Keep Up Your Scott's Emulsion in Summer-time

What are your resources for the summer? Have you an abundance of health stowed away for the long, hot, depleting days, or does summer find you low in vitality, run down, losing flesh, and weak? Scott's Emulsion of Cod-liver Oil will give you the proper reserve force, because it builds up the system on a solid foundation. A tonic may stimulate; Scott's Emulsion not only "boosts," it sustains.

It is a wise precaution always to have at least a small bottle of Scott's Emulsion in the house. Unopened, it will keep indefinitely. Tightly corked, after using, kept in a cool place, it will remain sweet for weeks.

Editor Journal—I would suggest that the Journal publish clippings from the republican papers on the present reign of "prosperity owing to dollar wheat." Some of us want this collection to read to the army of people who will wait around the free soup house the coming winter. This rise in wheat is in spite of, not because of republican rule. The Almighty has checkmated their gold standard oppression by the wheat famine over the world. Were it not for the gold standard for money wheat would be \$1.50 per bushel. It is worthy of note that while the present rise in wheat brings over \$6,000,000—republican estimate—into the pockets of mortgage holders, from the farmers, the tariff legislated by the Dingley bill into the pockets of the sugar trust takes out of the people, on a one cent rise on sugar, over \$8,000,000 a year. Where is the prosperity? Only for the money loaners and trusts.

The people are too intelligent to permit the present prosperity dust to fill their eyes. The republican party, with its corporations, government by injunction and commission and gold standard must go.

HELEN M. GOUGAR.

## GRIEF LITERATURE.

If writers of extended obituary notices, and composers of resolutions of condolence, were less conceited and knew what dull, lifeless and prosaic manner their work is, and how little it interested the majority of readers of newspapers, they would greatly abbreviate their work, and most times omit the resolution that "they be published in the newspapers of the county." It is somewhat encouraging to note that the fashion of advertising one's grief and sorrow is becoming to be considered as useless and unnecessary, and that newspapers are charging advertising rates for all such contributions.

## DESIRE HANNA'S DEFEAT.

Even republicans occasionally become disgusted with their leaders and seek to turn them down. The decent element of the party in Ohio begin to condemn the ways and means of Mark Hanna and many of them trust he will be defeated for U. S. Senator, which he is aiming to secure by having a majority of the State legislature elected republican. If the better element of the party have any voice or influence it will defeat him and place a decent man in the place.

## "SHE DRESSES WELL."

But Her Clothes Often Cover a Living Death

Beauty Is the Shrine of Men's Worship, and Women Vie With Each Other to Make Themselves Attractive.

The remark, "She dresses elegantly," is a very common one in this age of wealth and progress.

Women vie with each other in making themselves attractive, for men admire a stylishly dressed woman.

Good clothes add to the charms of the woman in perfect health, but are ill-befitting those who through ignorance or carelessness have suffered the inroads of female diseases to stamp them as physical wrecks.

It is unfortunate, but true, that some physicians allow women to suffer needlessly, because man can

only work from theory, and at best only patch up, without removing the cause.

Proof is abundant that Lydia E. Pinkham's Vegetable Compound removes the cause, gives strength to the weakened organs, vigorous health to the system, and therefore beauty to the face and form.

Mrs. Pinkham, Lynn, Mass., gladly answers, free of charge all letters.

Here is one of the results:

"Three months ago, I wrote you a letter describing my troubles, which were inflammation of the womb and bladder. I had not seen a well day since the birth of my second child, 16 years ago. I had spent hundreds of dollars for doctors and medicines. Such pains as I endured. My back ached, my feet and limbs were swollen, and it was almost impossible for me to stand; I could not walk any distance. I received your answer to my letter, and followed closely all your advice, and I have been using Lydia E. Pinkham's Compound for three months. Now I can work all day without pain. I have recommended the Compound to many of my friends, and gladly recommend it to all women in any way afflicted with female troubles."—Lydia BATE, 227 Spring St., Greensburg, Pa.
