CONGRESSIONAL CANDIDATES.

We observe that the names of a number of gentlemen in counties of this district are mentioned as probable candidates at the convention next year for Congress on the democratic ticket. The present Congressman, Landis, from this district is a very thin man, is all on the surface, in fact there is nothing in him. Very many republicans of the district consider him very poor material for a congressman, do not like his course in many post office appointments, and will vote again for him. Under these circumstances, and the increased sentiment favorable to freesoil, a good democratic nominee will stand a very favorable show for election notwithstanding the jerryandering the district has suffered at the hands of republican legislators. THE REVIEW has no choice in the matter among democratic candidates. It will insist, however, that the nominee be a democrat, not a mugwump, or a renegade republican, but a man known to have acted and voted the democratic ticket long enough at least to have the odor of republicanism thoroughly fumigated from his person. We despise this policy so often insisted upon by party leaders in hopes of winning victories. Rather go down in honorable defeat a half dozen times than secure a political triumph under such circumstances. Victories won by taking up a sorehead from the other party are always short lived and do the party little good. We insist that if a true and tried democrat is nominated next year he will stand a much better chance of election than any other kind the party can select.

A MODEL REPUBLICAN CANDIDATE.

Dr. Tucker, of Hamilton county, who two years ago was a candidate before the district republican convention for Congress, and who intends to be again, is without question a model republican candidate. He has lately been sued by the commissioners of Hamilton county for extortions fees collected while acting as auditor of the county. When the legislature was in session last year he was chairman of the county officers' association, whose duty it was to impede any legislation contrary to the interests of these officials, to buy legislators when their votes were needed if necessary, and any other work of similar character relating to county officers. Wouldn't he make a model representative in congress? Wouldn't he be a daisy to look after the interests of the people? One can fancy he can see this man beating back with a club the emissaries of the big corporations who would dare approach him soliciting his vote for their interests. If the district has to tolerate a republican at all it better keep the verdant egotistical representative it now has than place its interests in the hands of such a "veteran" as the instincts of this man Tucker indicate him to be.

THE PRATHER BUSINESS.

THE REVIEW has given both sides in the Rev. Prather matter, of Brown township, a hearing. We insist now that so far as this paper is concerned they stop. We have had, and most of the public, aside from the locality where the church is located, enough. The general public is satisfied to let the matter drop, and most of the people down there certainly should be. If these people discussing and wrangling over this matter are genuine Christians, followers of the meek and lowly Jesus, then we must confess they have a remarkably strange way of demonstrating their faith to the outside world. We are not Christians, but as sinners beg to suggest to these people down in Brown that they apply a little of the Golden Rule in their actions hereafter, and if they should affairs there will doubtless resume their normal conditions.

THE MONEY TALKS.

Riley McKeen, Terre Haute, is put down among the wealthy men of Terre Haute as worth \$2,000,000. While this is probably not true, as there is no man in the State worth any where near that sum, still in the contest for U. S. Senator next year we fear that it will greatly oversize the pile of Crawfordsville's statesman, Gen. Wallace. Under such circumstances it is very discouraging to go before a republican legislature with no more money than Wallace possesses. In fact McKeen has got nine points in the game and will defeat our man if he uses his advantages with discretion.

This may be discouraging to the Journal of this place, which is constantly boasting Wallace for Senator, but we see no way out of it.

Pure blood is absolutely necessary for perfect health. Hood's Sarsaparilla is the one true blood purifier, and great health giver.

ABOUT the most noticeable thing to the average householder in recent times is that his income, whether it be called wage or salary, does not go as far as I did a year ago in supplying his wants. Flour is 50 per cent. higher than it was last.

Sugar is nearly 18 per cent. higher. Pork is about 33 per cent. higher. Mutton 25 per cent. higher. Apples 100 per cent. higher. Molasses 7 per cent. higher. Corn 10 per cent. higher. Butter 15 to 20 per cent. higher. Potatoes 75 per cent. higher. Coal 25 per cent. higher.

A SNEAK UNREWARDED.

Havens, of Terre Haute, who left the democratic party last fall and joined the republican for the purpose of getting office, is still unrewarded and it is hoped for the decency of the service it will remain that way. Of all the despicable creatures none are more so than the individual living for office only, and who seeks the leaves and fishes by leaving one party for the other, no principle being involved, the sole incentive being office. Havens, it is said, wants to be a consul, and if the McKinley administration measures him correctly he will continue to want.

Deafness Cannot be Cured by local applications as they cannot reach the deceased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists; 75c.

Have a dozen fine photographs taken for fifty cents at Willis & McQuown's.

From Port Tampa, Fla., there were shipped in August \$14,400 tons of phosphate rock.

Don't Tobacco Spit and Smoke Your Life Away. To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No. 2 Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or \$1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

In a pure-food-law prosecution in Stroudsburg, Pa., Judge Craig ruled that mustard is not food.

"Only The Best"

Should be your motto when you need a medicine. Do not be induced to take any substitute when you call for Hood's Sarsaparilla. Experience has proved it to be the best. It is an honest medicine, possessing actual and unequalled merit. Be wise and profit by the experience of other people.

Hood's Pills are the favorite family cathartic, easy to take, easy to operate.

Roosters at 10 cents a piece is the Brooklyn (Me.) stock quotation, over which the farmers are not crowing.

It will Surprise You.

In order to prove the great merit of Ely's Cream Balm, the most effective cure for catarrh and cold in head, your druggist will supply a generous 10 cent size or we will mail for 10 cents. Full size 50 cents.

Ely Bros., 56 Warren St., N. Y. City. Ely's Cream Balm has completely cured me of catarrh when everything else failed. Many acquaintances have used it with excellent result.—Alfred W. Stevens, Caldwell, Ohio.

A Russian thistle nine feet in circumference was recently found growing by the wayside in the Santa Fe Valley, New Mexico.

CASTORIA.

The facsimile signature of *Charles Fletcher* is on every wrapper.

Home Seekers to the West and South

The Big Four railroad will on Oct. 5 and 19th, Nov. 2d and 16th and Dec. 7th and 21st. Sell round trip excursion tickets to points in the west and north-west and south and south-west at one fare plus \$2.00 for the round trip. For information apply to

A bicyclist scorching down a Bath (Me.) street with a baby carriage attached, attracted considerable attention the other day.

THE STATE

Building and Loan Association of Indianapolis, Indiana, does a safe business and has over \$500,000 assets. We issue investment stock and have plenty of money to loan. See Mrs. L. A. Scott, Schultz & Huett, or correspond with

DR. F. H. HOVEY,
Indianapolis, Ind.

The man who would be considered wise, often turns out to be otherwise.

REGARDING COMPRESSED AIR.

Will a Little Better Economy Be Obtained?

It remains to be ascertained whether or not the pressures of from several hundred to several thousands, all things considered in compressing and in using, are possible and practicable in the face of heat and refrigeration, with the assistance of compounding, tripling, quadrupling and what not; that is, whether it will pay to employ this vehicle for transporting power developed at a convenient and economical point and distribute the accumulated energy for use through a system of street cars, says Cassier's Magazine.

Capitalists who invest money for a return upon the outlay are very careful in considering the enthusiastic, although sincere, views of inventors, and even if it is reasonable to believe that compressed air will eventually take important place in the world's work, the investors who take the responsibility are very much in the position of the man who wanted to know how to tell toadstools from mushrooms, and was advised to eat them, and if he did not die then they were mushrooms. Obtaining, say, 10 per cent. or less of the heat value of coal in the form of power for available use is a sure thing, well known, and from the standpoint of facts, cheap. But putting Prof. Tynall's "mode of motion" into some other medium of transportation, and paying toll at both ends of the line, appeals to the man who pays the bills with a force not easily appreciated by the scientists. The losses met with in transforming mechanical energy into electrical energy, and sending it in this form over the trolley wire and into the car motor, or in investigating the mechanical energy in the pull of a cable, are more than counterbalanced by many inconveniences and economies, and now the hope that some incidental advantages in sight may be realized, and still a little better economy be obtained, is attracting attention toward compressed air.

HOLDING BACK STOCK.

Beef Producers Will Not Ship Until Prices Advance.

It is now a settled fact that our beef producers will not ship a hoof to market this season until prices show some advancement, says the Sioux Stock Journal. There are, of course, a few who must ship, but the percentage is indeed small. Not only is this the situation here, but throughout the range country.

We had anticipated a large output of range beef this season, but it looks now as though it would be the smallest in years. There is a slight upward tendency just now and we do not think the present prices will be broken if the marketing throughout the country is done judiciously. Occasionally jams may occur and paralyze the market temporarily, but if cattlemen have their business well in hand they will be able to prevent these breaks, which are almost unavoidable, from becoming permanent. The market is fully \$1 per hundred lower than it was one year ago and cattleowners are in no condition to stand a further decline. There is little hope for prices to improve, but there is danger of a further decline. It is true the present figures have prevailed for the past six months, and since the pressure of the spring beef, corned, did not break them, they ought to stand the grass cattle, but a little injudicious management would run the price very low. Our chief reliance, however, for keeping up the present figures is in the good judgment of the cattlemen. If the market should break seriously, thousands of fat steers would be held over. The range is good and an immense crop of hay is being put up, and the country will be in good shape to carry live stock through the winter, and this is our chief reliance for holding the present figures.

AN EARTHQUAKE CENTER.

Russian savants have discovered that the bottom of the Sea of Marmora, lying between the Bosphorus and the Dardanelles, contains three profound and nearly parallel furrows, the deepest of which, that on the east, attains a depth of one mile. This particular furrow lies in the center of the region from which proceeded the earthquake that seriously shook Constantinople, and was felt at great distances two years ago, and soundings show that the bottom there has sunk below the level it occupied before the earthquake. There is no evidence, however, of volcanic action occurring in the bed of the Sea of Marmora, so that the earthquake was probably due to the slipping or caving of the underlying rocks.

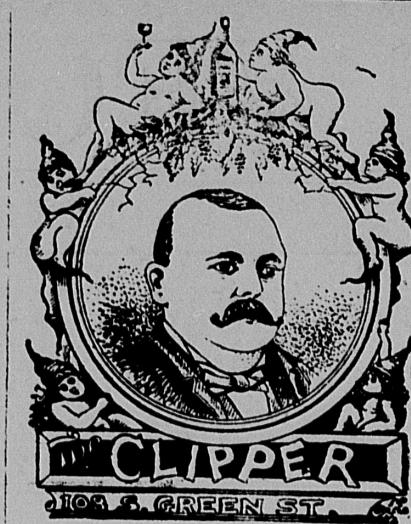

A Queer Fish.

A fish of extraordinary appearance has drifted ashore at Lunnastane, Shetland. The head and neck had some resemblance to those of a horse, and along the back extended a cartilaginous growth very like a horse's mane. The body dwindled to the thickness of one inch at the extreme tip of the tail. The length of the animal was 6 feet 6 inches. It is believed to be a specimen of the Hippo Ampius, specimens of which two or three inches long are not unknown on the east coast of Scotland. So far as is known there is no record of one of this size having been found before.

Only a Little Fall.

Little Benny—"Mamma, please let me hold the baby for a minute." Mother—"I am afraid, Benny, you might let her fall." "Well, if she does fall she can't fall very far."—Texas Sifter.

The man who would be considered wise, often turns out to be otherwise.

DO YOU
Drink Beer?
If so the chief points to consider are Flavor, Body, Color and Digestive Properties.

A BEER WHICH EXCELS

In all these qualities it is essentially Healthful, Invigorating and Refreshing. Epicures say that the Indianapolis and Lafayette Beer surpasses all other Beers. On this account, competent judges pronounce it the perfection of excellence.
