The recent snow is like prosperity—very partial. It came, but fell on the road, one of the places needed, but was blown off into the fence corner. So with prosperity. Some say prosperity has come, but it really has it must be like the recent snow—blown away to some locality where it is of no use.

## PRICE'S CREAM BAKING POWDER

A Pure Grape Cream of Tartar Powder.  
40 YEARS THE STANDARD.

The proprietor of a turpentine farm near Damascus, Ga., has had serious trouble because gamblers have come among the hands and kept them away from work. All of last week a large portion of the employees failed to report, and, as the distillery was short of hands, the woods rider, John Haddock, took a journey into the forest to try to find the absentees. The duty of the woods rider is to patrol the forest on horseback and report on the condition of affairs. Haddock stumbled across eighteen of the truants seated under the shade of a giant oak and engaged in gambling. He asked why they had not made an appearance at the works. Resenting his interference, the entire party swooped down on him. He backed his horse against a tree, and, drawing his revolver, shot into the crowd with such good effect that seven were wounded, four, it is thought, mortally. The others became demoralized, and retreated in disorder. Haddock then returned to the distillery and reported the affair, returning to the scene with a relief party to attend to and bring in the wounded. The proprietors fear no more trouble from crap shooters.
