WHAT CLAIM HAS HE?

A correspondent of the Indianapolis News writing from this city and signing himself "Gold Standard" has the following to say of some things political:

"I, for one, will gladly go to work to-morrow for the success of the ticket, and I believe 99 per cent. of the gold democrats are with me. Let them, however, emphasize the tariff, dodge or temporize with the financial question, assault the merit system, and nominate for Senator a man whose chief qualifications consist of his ability to write fiction and abuse Cleveland, and what can we do but 'take to the woods'?"

The acquaintance of Wallace who have known him and his career for the past forty years will wonder what particular claim or fitness he has for the position of U. S. Senator. Simply being a writer of fiction or going around the country and calling Bryan an anarchist does not. A Senator it is supposed should have some elements of a statesman, to know of the political history and pre-ent demands of the country, to be free from political bias or prejudice to a reasonable extent, etc. He should know thoroughly constitutional law, and its application to the demands of the country. Simply because he has written "Ben Hur" and gained national notoriety thereby, or been U. S. Minister to Turkey, and become acquainted with numerous cheap politicians, does not fit him at all for the position of U. S. Senator. Taber, of Colorado, and Jones, of Nevada, were Senators, and were daisies too. They hardly knew what they were in the U. S. Senate for. We cannot see where Wallace from Indiana would be or his constituency any better than they did theirs.

THROW THEM OUT.

The Labor Union of this city is an organization of over 400 members. It is created strictly for the interest of laboring men. In spite of this a number of republican office seekers, and a few democrats too, have crept into the organization by some hook or crook, to simply further their own selfish interests, and not for one minute that they care a farthing for the condition of laboring men any more than they do for bankers, lawyers, doctors or others not supposed to use their muscles to any great extent. These office seekers are looking solely for votes, and after the nominations and elections are over will be seen no more at the meetings of the organization. Those of the order not looking for office are studying for some plan to throw these men out. They should be encouraged, and show to these demagogues that they have no use for them. Men who seek secret or fraternal organizations solely for office, as many of these men seem to be doing, should be set down upon at once.

OVER \$50,000,000 DEFICIT.

Republican conceit is being thoroughly exposed through the operations of the Dingley tariff law. Time and again have the orators of the party asserted that the democratic party did not know how to run the government, did not understand how to manage the financial part of it, and when they again assumed the reins of power they would demonstrate how to do and what to do very soon. The republicans have control now, and the people have now specimens of republican management. The Dingley tariff law is a pet measure passed by a republican Congress, and in less than a year after it is put in operation a deficit of over \$50,000,000 is shown in the revenues. It is proving no better as a revenue producer than the Wilson law which they decried so much about, but is a fine specimen of republican management, and proves that the party managers know no more about running the government correctly than the other side.

PAY OR STAY OUT.

Occasionally the REVIEW is in receipt of some long winded notice in some newspaper of some candidate for a State office, and asking and expecting we publish the same free. We decline the invitation. Pay for your advertising the same as candidates for county office do, or stay out. The Indianapolis Sentinel, the recognized organ of the democracy of Indiana, makes every candidate for State office pay for announcing his name and for any other advertising he may require. We see no reason why the country press should not enforce the same rule. The REVIEW expects to do so at least, whatever other publications may determine upon, and elaborate notices of candidates sent to us, unaccompanied with the pay for the same will be thrown aside.

EEN NEBAKER, of Covington, again "got left" in his desire to be chairman of the republican State central committee, a man named Herley, from New Castle defeating him. Nebaker appears to be a back number in his party.

THE COUNTY DEBT.

The debt of this county has been reduced within the past three or four years until now it amounts to about \$30,000. It is a long time since Montgomery county has been entirely free from debt, and it would be indeed a satisfaction to have it that way again, and keep it that way too. Taxes could then be reduced. However it seems impossible in most counties to prevent the politicians from piling some debt or other upon the people on some pretext and therefore keeping the taxes up to a high notch, and doubtless they soon will here.

The general sentiment among the democracy of this district appears to be favorable to the nomination of a straight-out democrat for Representative in Congress in this district this year. And this is the right view to take of it. Nothing tends more to the future democratization of any party than to continually seek for nominees who are only partially with you in political belief and action? And again what have you gained even if you elect such a nominee. Only a temporary victory, which does no good.

The Shakers of Mont Lebanon, a community of simple, honest, God-fearing men and women, have prepared the Shaker Digestive Cordial for many years, and it is always the same, simple, honest, curative medicine that has helped to make the Shakers the healthy, long-lived people that they are. The Shakers never have indigestion. This is partly owing to their simple mode of life, partly to the wonderful properties of Shaker Digestive Cordial. Indigestion is caused by the stomach glands not supplying enough digestive juice. Shaker Digestive Cordial supplies what's wanting. Shaker Digestive Cordial invigorates the stomach and all its glands so that after awhile they don't need help. As evidence of the honesty of Shaker Digestive Cordial, this formula is printed on every bottle. Sold by druggists, price 10 cents to \$1.00 per bottle.

AGAINST AN AMERICAN

HOW OUR CONSUL GENERAL WAS INSULTED.

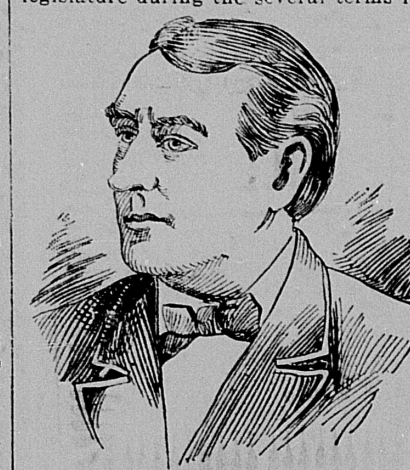

His Name Presented for Membership in a British Club and Then Declined by the Black Baiting Process—Major Bittinger's Trouble.

HE blackballed of Major J. B. Bittinger, the United States consul-general, for membership in the St. James Club, Montreal's swell social organization, has caused a great deal of talk. The members of the club are very reticent and no reason is given. The fact that the consul-general was blackballed while two other prominent Americans, Seward Webb and young Alger, son of the secretary of war, who were on the same ticket with him, were elected, shows that the objection to the consul-general was personal. There is no doubt that Major Bittinger is not persona grata to certain people in the Canadian capital.

An alleged interview with the consul-general that appeared recently in an American paper, in which he was made to say that a league existed among the French-Canadians working to the establishment of Canadian independence, caused a good deal of ill feeling. Major Bittinger denied the interview on his return to Montreal, but it had already done harm. Major Bittinger says that he was not aware that his name was to be put up for membership in the club and he declined to discuss the matter.

Major Bittinger is one of the big men in St. Joe, Mo. For many years he has been a conspicuous figure in politics. He was the postmaster of St. Louis under President Lincoln, and he was one of the foremost men in the Missouri legislature during the several terms in

the capital. Bittinger got his title in the war. He rose from the rank of private to that of major. It is said by his friends that the reason he was blackballed by the high-toned Canadian club is to be traced to a charge that he defrauded the United States of funds entrusted to his care when he was a revenue collector. When he was named consul-general the Missouri press lashed him unmercifully and it is thought that this fact prejudiced the Canadians against him. Major Bittinger was a prominent candidate for the mission to Switzerland, but failed to get that post. He is the editor of the St. Joseph Herald and his personality has had much to do with the success of that newspaper.

China Cup Watch.

John Curzon, a Polish mechanic, who was presented with a gold medal for his inventions, performed a most extraordinary thing when he succeeded in manufacturing a complete watch in the space of eight hours, and from materials on which another watchmaker would have looked with contempt, says an exchange. It appears that the czar of Russia, hearing of the marvelous inventive genius of Curzon, determined to put him to the test, and forwarded him a box containing a few copper nails, some wood shavings, a piece of broken glass, an old cracked china cup, some wire and a few cribbage-board pegs, with the request that he should transform them into a time-piece. Nothing daunted, and perceiving a golden opportunity of winning favor at the court, Curzon set about his task with enthusiasm; and in the almost incredibly short space of eight hours had dispatched a wonderfully constructed watch to the czar, who was so surprised and delighted at the work that he sent for the maker, conferred upon him several distinctions and granted him a pension. The case of the watch was made of china, while the works were simply composed of the odds and ends accompanying the old cup. Not only did it keep good time, but only required winding once every three or four days. This remarkable watch is believed to be still in the possession of the Russian royal family.

Meridian Ants.

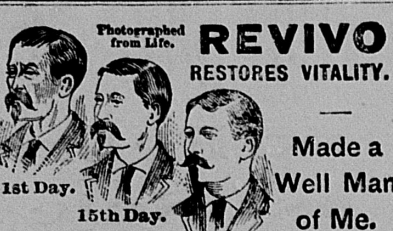

Among the curious inhabitants of Australia are a species of termites called the "meridian ants," because they invariably construct their long, narrow mounds so that the principal axis of the dwelling runs exactly north and south. These mounds are 6 or 8 feet in height, and consist of a series of spires topped with smaller spires, and when viewed end on, they show a remarkable resemblance to a many-spired cathedral.

Novel Invention.

A recent invention is a cradle that rocks by means of a clockwork mechanism, and at the same time plays tunes to the baby.
