DEMOCRATIC COUNTY CONVENTION.

The democrats of Montgomery county will meet at Crawfordsville in delegate convention June 18th, 1898, to nominate a county ticket to be voted for in November as follows: Representative, Prosecuting Attorney, Auditor, Treasurer, Sheriff, Surveyor, Commissioners in first and third districts, and a Coroner.

The democrats and others that wish to affiliate with them in this election will meet in mass convention in the several townships June 4, at 2 o'clock p. m. to select delegates according to the table below. Basis of representation as follows: Two delegates to each township to begin with and one delegate for each twenty-five votes, and fraction of thirteen votes cast for Governor in '96. Townships will meet in the following places: Coal Creek at Wingate, House; Wayne at Waynetown; Ripley at Alamo; Scott at Center School House; Madison at Linden; Sugar Creek at Center School House; Franklin at Darlington; Walnut at New Ross; Clark at Ladago; Union, Crawfordsville, small court room; Brown township at two places, precinct No. 1 at Brownsvalley, and precinct No. 2 and 3 at Waveland.

The following is the vote cast for B. F. Shively, candidate for Governor in 1896 by townships and number of delegates each township is entitled to in this convention:

	No. Votes	No. Del.
Coal Creek	389	18
Wayne	337	15
Ripley	217	11
Scott	180	9
Madison	107	5
Sugar Creek	114	7
Franklin	290	14
Walnut	289	14
Clark	409	18
Union	1497	62
Brown, precinct 1	136	6
" " 2-3	162	8

The delegates selected June 4 in the several townships—one hundred and ninety-one (191)—will meet in convention at Crawfordsville, in the court room, June 18, at 10 o'clock a. m.

While this is a delegate convention, everybody is invited to attend. Come one and all.

H. D. VANCELEAVE, Chairman.
 TAYLOR THOMPSON, Secretary.

NOT THE SENTIMENT.

While the district is over 2,000 republican, still Cheadle was defeated by less than 300 votes two years ago. He will be the nominee this fall, and there is no doubt now of his winning by a handsome majority. He has already been nominated by the populist district convention, and the democrats will name him at their convention soon to be held at Frankfort.

The above special sent to the Indianapolis Sentinel last week by an individual connected with a newspaper in this city, and who was expecting two years ago through the influence of Cheadle a job in the event of Mr. Bryan's election, does not represent the sentiment, belief nor wish of many scores of democrats in this and adjoining counties. Attempts this year to "mould sentiment" won't work. Efforts to bulldoze men who all their lives have voted for and sustained democrats into the support of any soreheaded republican, or silver republican, or populist probably, cannot be repeated this year. Investigation in a quiet way will reveal this fact to any diligent inquirer. The individual nominated by the populists for congress may remain as such nominee, we have not heard of his yet declining it, but it is immaterial. He will not get the universal support of democrats, and cannot be elected. It matters not how many disappointed republicans may be sore at the tom-tit nominated by that party here the other day, in any event neither they nor democrats in general will give their support to another man equally as repulsive.

NO "PUFFS."

Quite a number of neatly worded résumés from candidates before the democratic State convention have been received at this office soliciting friendly notices for them. If these candidates can give \$5 or \$10 to the State Sentinel for announcing their names we are unable to see why it would not be the correct thing to similarly serve the country press through the State likewise, and the Review begs leave to decline publishing gratuitous notices for any State candidate.

THE yellow journals, those newspapers that have published lie after lie, sensation after sensation, regarding the present Spanish war, with no reason for it only solely that they could dispose of their publications, should best be repaid by the loss of public confidence and a rapid decline of their business. Newspapers living on falsehood and sensation should be short lived.

PERFECT WORK.
 How perfect was the work of the republican political machine can be seen in the nomination of Landis for Congress last week. All the postmasters, their deputies and other appointees to position who had secured their jobs through Landis, were at work months ago with the single object in view of securing his re-nomination. This is the price they pay for fealty to him. So long as he can control such people no other republican, however worthy he might be, could stand the least show for a nomination. That is just the way the machine runs. It was wound up this year strictly for Landis, and the puny efforts of Dr. Tucker and one or two other old time republicans who desired the nomination were subjects of ridicule. If they want to defeat Landis they must secure a machine of equal or greater capacity than that now managed by Landis. There are without question vast numbers of republicans in the district who would prefer some other man for Congress than Landis. They consider him a poor stick for a national law maker. There is, it would seem, little of him aside from a certain style of spread eagle oratory, which in this practical age counts for little. To consider him in the same class with such men as Godlove S. Orth, Jos. E. McDonald, Henry S. Lane and other notable men in former years from this district who represented the people in Congress, would indicate the height of sarcasm. With the sentiment already in healthy growth against him, the district although gerrymandered for republican success, it would seem that if the democracy nominate a representative man he can defeat Landis. There is little in him to create enthusiasm or attach strong political friendship. He is the product of the machine, not of the unanimous choice of his party, and as such his political life cannot be of great duration.

WHAT particular advantage there would be in having another ward added to the city and thus adding additional expense to the city has not yet been made manifest by its advocates. He is the best councilman and best friend of the taxpayers who will aim at the very earliest opportunity to begin a reduction of the debt that has been piled upon us. It is this style of movement that is most demanded and will be the most popular.

HAVENS, the Terre Haute renegade democrat, who left the party some years ago, and has been trying to get the republicans to give him an office has at last succeeded. He has been appointed a paymaster in the army. He held down some petty position during the World's Fair at Chicago, but has been out of a job since.

WHEN it comes to strategy Cervera, the Spanish admiral, seems to possess as much or more than our strategy board at Washington City. He has kept the board for near a month past guessing where he is, and has shown skill in being able to avoid an engagement—until he is ready.

GEN. WALLACE is not going south as a correspondent for a New York paper, as stated heretofore, but has returned home several days since to this city. The statement, however, has been a good free advertisement to the General and to that extent he is doubtless quite grateful.

The Shakers of Mount Lebanon, a community of simple, honest, God-fearing men and women, have prepared the Shaker Digestive Cordial for many years, and it is always the same, simple, honest, curative medicine that has helped to make the Shakers the healthy, long-lived people that they are. The Shakers never have indigestion. This is partly owing to their simple mode of life, partly to the wonderful properties of Shaker Digestive Cordial. Indigestion is caused by the stomach glands not supplying enough digestive juice. Shaker Digestive Cordial supplies what's wanting. Shaker Digestive Cordial invigorates the stomach and all its glands so that after awhile they don't need help. As evidence of the honesty of Shaker Digestive Cordial, the formula is printed on every bottle. Sold by druggists, price 10 cents to \$1.00 per bottle.

"Is She Your Daughter?"
 Have you a young daughter just at the age when young girls most need a mother's loving care? Is she physically strong and well or does she suffer from any weakness of the delicate organism which most intimately concerns her womanhood?

If so, you understand her suffering better than anyone else can. You know that such troubles, unless remedied, mean a life of incapacity and wretchedness for her. You appreciate her reluctance to undergo physician's "examinations" and "treatments," and you will be glad of assurance from the most eminent medical authorities in this country that in nineteen cases out of twenty these mortifying methods are absolutely unnecessary.

Any mother who will write about her daughters case, to Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., will receive free of cost the best professional advice obtainable, and instructions whereby a complete cure may, in nearly every instance, be effected by simple, common-sense home methods.

No living physician has a wider practical experience or a higher reputation in the treatment of diseases peculiar to women than Dr. Pierce. His "Favorite Prescription" is the only proprietary remedy ever designed by an educated authorized physician specifically to cure women's diseases. His great 100-page illustrated book, "The People's Common Sense Medical Adviser," is of priceless value to every mother. It will be sent absolutely free on receipt of 21 one-cent stamps, to pay the cost of mailing only. Address, World's Dispensary Medical Association, Buffalo, N. Y.; or send 31 stamps for a heavy, cloth-bound copy.

The unfailing, never-failing cure for constipation—Dr. Pierce's Pleasant Pellets.

Queer Press Law in France.

From the New York Tribune: Owing to the existence of a peculiar law in France, which exacts that "any person named or referred to in any periodical publication shall have the right to reply in the next number in the same place and in the same type, providing the reply does not extend to more than twice the length of the offending article," one of the forthcoming numbers of the Revue des Deux Mondes, the most important and influential monthly review in France, will contain an article of unusual length and couched in extravagant language, which will appear in its pages despite the opposition of the editor. It will bear the signature of a dramatic author who, infuriated by the nature of the criticism passed by the Revue on one of his plays, has invoked his rights under article 13 of the press laws, rights which were vainly contested by the editor.

Light From Sawdust.

A town in Canada is partially lighted by gas made from sawdust. The sawdust is charged in retorts which are heated by a wood fire, the gas from the retorts passing into a series of coils and thence into the purifiers, which are similar to those used for coal gas. Lime is the principal purifying agent employed. The works turn out daily 640 cubic meters of gas, for the production of which about two tons of sawdust are required. A man and boy furnish all the labor needed at the works. The gas in an ordinary burner gives an illumination of about eighteen candle-power. The best quality comes from resinous woods.—Tit-Bits.

In Reply to a Correspondent.

"How can I get an article in your paper?" asked a correspondent of a Western journal.

"It all depends on the article you want to get into our paper," replied the editor; "if the article is small in bulk, like a hairbrush or a tea caddy, spread the paper out upon the floor, and placing the article in the center, wrap it up by carefully folding the edges over it, and tie with a string. This will keep the article from slipping out of the paper. If, on the other hand, the article is an English bathtub or clothes-horse, you would better not try it at all."—Harper's Bazar.

Fruit Flavors From Leaves.

Monsieur Jacquemin, a French pharmacist, has invented a process by which, he says, he can form, from the leaves of various fruit bearing trees and shrubs, the flavors that are characteristic of the fruits themselves. From apple tree leaves, crushed and fermented, he obtains a liquid possessing the fragrance and taste of apples, and from vine leaves a beverage resembling wine. His theory is that the peculiar flavor of apples, pears, grapes and berries is prepared in, and derived from, the leaves of the plant.

Long Fasts of Animals.

Animals are often able to bear very protracted fastings. In the Italian earthquakes of 1796 two hogs were buried at Soriano in the ruins of a building. They were taken out alive forty-two days later, but very lean and weak. A dog at the same time and place was buried for twenty-three days and recovered.
