**HERO WORSHIP.**

This country is now enjoying a season of hero worship. It was Dewey at the beginning of the worship to which has been added Sampson, Schley, Hobson and others. The stock of heroes of the late civil war is almost gone, and the public taste demands a new supply. This Spanish war is developing them, and if continued there will be plenty. How prone we are to hero worship. Six months ago this country knew neither Dewey nor Hobson, but now their praise is on every tongue. They appear in finely illustrated books and newspapers, in wall pictures and even on floor rugs. We must have heroes of some kind. Although our present heroes have had brief careers as fighters they seem doomed to as much praise as Gen. Grant or Admiral Farragut. Dewey and Sampson engaged in no naval battles until this year, yet we are already giving them as much praise as Commodore Perry or any other naval commander of other days has ever received. We "slop over" too much under the circumstances, and if any of our present naval commanders should meet with reverses, be defeated, how the worship would quickly cease.

**THE CUBANS.**

In turning over the island of Cuba to us the United States has undoubtedly secured a white elephant and which for years will give this country much trouble and expense. The Cubans, judging from what is now said about them, are totally unfit for self government. Like wild animals they will have to be disciplined for years before having the island turned over to them to control. Their present disposition as exhibited seems to be to eat and to pilage. They have been of little benefit to the army of this country thus far in the war. They do not seem even to make laborers in any capacity, but at all times are ready to eat. It will probably be a half century before the Cubans will be in a suitable condition to have the island turned over to them for their management and government.

**TIRED OF POPULISM.**

They evidently are sick of populism in the south, judged at least by the results of the election in Alabama last week. Populists, republicans and all other parties combined against the democracy, but were defeated by a majority ranging from 60,000 to 65,000. Populist ideas and aims are evidently unpopular in Alabama, and no where else do they seem to gain any advocates within the past four years.

**THESE "GOOD TIMES."**

In spite of McKinley and prosperity there continues to be failures of many business houses in various parts of the country, there being quite a number of houses forced to the wall last week. With the government spending a million dollars a day, and with good crops of wheat, hay and oats in almost every locality, business should be good with almost all classes. Yet it is not. The want of money is felt in thousands of localities, the meeting of financial obligations is as difficult now as in any time in a year past, and business in most lines not at all lively or energetic as it should be. The financial management of affairs still appears to be as heretofore directed by Wall street. There is no improvement whatever in the money situation and there will not be under republican management. There will not be until the silver doctrine prevails, until silver is restored to its position in the circulating medium of the country, and until others aside from bond holders, monopolists, etc., are permitted to control the monetary interests of the country.

**LARGE numbers of republican delegates to their State convention at Indianapolis last week opposed Hart, the candidate for Auditor of State, because he enforced in strict terms the Mull law which cuts off perquisites of office and allows officials only the exact amounts that the law says they are entitled to. It would seem from this that large numbers of people would take advantage of any law providing it would put money into their pockets. The honest voters of Hart's party should illustrate their professions by sustaining him, but party feeling revenge may make the result otherwise. If elected he will still exercise his right as Auditor to continue to cut off perquisites. Now the question is does his party want that kind of a man in office?**

It is said by republican financiers that American silver dollars on the Philippine islands are worth as much again as Mexican silver dollars of the same weight and fineness. When making this assertion these fellows don't know they are backing up populistic doctrine, that value is created by the fiat of the government. It proves that the silver in the dollar does not determine value, but the government issuing the money. These fellows prove too much when trying to depreciate silver as money.

**PEACE.**

Spain has at last considered that the wisest move she can make is to ask for peace, and has done so. By the treaty she will lose all her West India possessions, and likely the future control of the Philippine islands. Of course by the treaty one-half at least of the armed soldiers of the United States will be mustered out of the service. A large number must be retained, however, to preserve order in Cuba and the Philippine islands.

**REMOVE THEM.**

Mayor Stilwell at the last council meeting called the attention of that body to the row of old rotten frame buildings on Green street south of the Ramsey block belonging to C. M. Crawford. They have long since been condemned as unsafe and also dangerous as a fire trap, he said, and are yet permitted to remain. It is suggested that the city remove them without further delay at the owner's expense which could be done.

**THE Newport Hoosier State** last week contained one page of sheriff sale advertisements where that official is selling real estate to pay the debts of unfortunate defendants. This is striking evidence of "good times and McKinley prosperity," and the publisher, no doubt, trusts they will continue.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY CO., Toledo, O. Sold by Druggists, 75. Hall's Family Pills are the best.

**From Baby in the High Chair**

to grandma in the Tucker Grain-O is good for the whole family. It is the long-desired substitute for coffee. Never upsets the nerves or injures the digestion. Made from pure grains it is a food in itself. Has the taste and appearance of the best coffee at 1/4 the price. It is a genuine and scientific article and is come to stay. It makes for health and strength. Ask your grocer for Grain-O.

Help is wanted when the nerves become weak and appetite fails. Hood's Sarsaparilla gives help by making the blood rich and pure.

When wear begins to exceed repair in your body you are going to feel sick. The signs of it are: loss of flesh, nervousness, weakness, nervousness, etc. The repair needed is food. You think you eat enough, and yet you feel that you wear out more tissue, energy, nerve-force, than your food makes for you. The difficulty is that you do not digest enough. And this is so serious it is worth sitting down seriously to think about. If you can't digest what you eat, take a few doses of Shaker Digestive Cordial. The effect of it will be to increase your flesh and make you feel stronger. You won't fail sick. Proof that it is in control of your repair apparatus. It's easy enough to test this for yourself. Take a few bottles of Shaker Digestive Cordial.

Sold by druggists at 10 cents or \$1.00 per bottle.

**Stop dragging yourself with quack nostrums or "cures."** Get a well known pharmaceutical remedy that will do the work. Catarrh and cold in the head will not cause suffering if Ely's Cream Balm is used. Druggists will supply 10 cent trial size or 50 cent full size. We mail it.

**ELY BROS.,** 56 Warren St., N. Y.

Rev. John Reid, Jr., of Great Falls, Mont., recommended Ely's Cream Balm to me. I can emphasize his statement, "It is a positive cure for catarrh if used as directed."—Rev. Francis W. Poole, Pastor Central Pres. Church, Helena, Mont.

**Did Not Sleep Well.**

"I had nervous spells and did not sleep well at night. When I rose in the morning I was tired and exhausted. After taking one bottle of Hood's Sarsaparilla I felt much better. I took five bottles and have not felt so well and strong for years." H. P. JONES, 223 east Mulberry street, Kokomo, Ind.

Hood's Pills are the favorite family cathartic. Easy to take, easy to operate. 25c.

The Clover Leaf will run its annual excursion to Mackinac on Aug. 27th. Tickets will be sold for "fast line" No. 6 leaving Illinois stations night of Aug. 26th. Indiana and Ohio stations morning of Aug. 27th, arriving Toledo 8:55 a. m. and connecting with the magnificent steamer "City of Alpena," of D. & C. May Co. which leaves Toledo 11:09 a. m. and arrives at Mackinac Island 5:15 a. m. Aug. 29th. Good returning from Mackinac not later than 8:30 a. m. steamer Monday, Sept. 5th; from Toledo until Sept. 7th inclusive. Side trips "ad libitum" may be arranged for at slight cost upon arrival at Mackinac or Toledo.

The benefits and pleasures of this delightful water trip of 820 miles must be experienced to be fully appreciated. The universal popularity which our Mackinac excursions have enjoyed in former years assures us in advance of the success of this one. An early reservation of berths and space will certainly be advantageous to patrons.

For full information as to rates, cost of berths, meals, side trips, etc., call on any agent Clover Leaf route or address, C. C. JENKINS, Genl. Pass. Agent, Toledo, O.

**THE BEEHIVE.**

Look out for robbers when the honey harvest becomes scarce.

The way to get wax of a light yellow color is to let it cool slowly.

Do not expect many swarms and a large honey flow at the same time.

The best time to introduce a queen is the middle of the day when the greater part of the bees are at work.

If a colony becomes queenless and it is not a broad frame from another colony.

Second swarms may be controlled by taking out all cells but one after the first swarm issues, as second swarms rarely issue unless there is a plurality of queens.

If frames of clean comb are given to newly hived swarms so that they can go to work at once, there is not much danger of the bees leaving the hive and swarming out.

To raise comb honey to the best advantage there should be good, populous colonies, and when they are in this condition swarming is likely to occur often.—St. Louis Republic.

**HOUSEHOLD HINTS.**

In preserving berries or any other fruit liable to fall to pieces if a small lump of alum is added to the fruit while cooking it will make it firm.

If you use a wooden pail about your household and it begins to shrink and leak, fill it with water and then stand it in a tub filled with water. This will swell the wood so it will leak no more.

The backs and arms of chairs become very dirty with constant use. They should be washed with warm water in which there is a little soap and then the polish brought back by kerosene or turpentine.

A goodly amount of kerosene on a soft rag cleans shutters nicely. This takes off all the dust and brightens them as well. Brush well first, then apply the kerosene, rubbing hard, then polish with a dry flannel cloth.

**ANIMAL ODDITIES.**

The eyes of the birds that fly by night are generally about double the size of those of day birds.

In India elephants over 19 and up to 46 years of age are deemed the best to purchase and will generally work well until they are 60 years old.

It is stated that in the West Indies the lizards, from the large iguana downward, run erect on their hind legs when terrified. Pictures on rocks at the watershed of Guatemala show lizards running erect. The Mexican iguana lizard and the "trilled lizard" of Australia also do so.

Little Tommy (promptly)—A doctor, like pa.

Uncle John (quizzically)—Indeed; and which do you intend to be, an allopath or a homeopath?

Little Tommy—I don't know what them awful big words mean, Uncle John, but that don't make no difference, 'cause I ain't goin' to be either of 'em. I'm just goin' to be a family doctor an' give all my patients Hood's Sarsaparilla 'cause pa says that if he is a doctor, he is 'bliged to own up that Hood's Sarsaparilla is the best family medicine he ever saw in his life.
