We, at the Crossing, have a reform verdict on the Philippine troubles which, by permission of the editor, is as follows: Paying Spain \$20,000,000 for something she does not own, looks a little wrong. Even if Spain was in possession of the Islands, America would be paying \$2.50 per head for 8,000,000 slaves, which we believe to be un-American. Help the Philippines obtain their independence, make a bonded indebtedness on the Islands of America's expenses and then return home. We should honor a good name beyond our earthly gains.
