

Creeping Consumption

Do not think for a single moment that consumption will ever strike you a sudden blow. It does not come that way. It creeps its way along.

First, you think it is a little cold; nothing but a little hacking cough; then a little loss in weight; then a harder cough; then the fever and the night sweats.

The suddenness comes when you have a hemorrhage.

Better stop the disease while it is yet creeping.

You can do it with

Ayer's Cherry Pectoral

You first notice that you cough less. The pressure on the chest is lifted. That feeling of suffocation is removed. A cure is hastened by placing one of

Dr. Ayer's Cherry Pectoral Plaster over the Chest.

After this week, the Black creek literary will be held on Saturday nights instead of Wednesday nights as heretofore. A good idea.

Joseph Hopping and wife, of Crawfordsville, spent the greater part of the week visiting the old home and their many friends in this section.

Walter Fick closed his school term at Ridge Farm on Thursday. He distributed quite a number of prizes among his scholars. He has taught a successful school.

James H. Steele and Carlton Snyder attended a meeting of the stock holders of the Keeley institute, on last Tuesday, at Plainfield. They report fifteen patients at this time.

Candy Lewallen's son, who is only 12 years of age, passed a successful examination in Union township, making

an average grade of 82½. This for township graduation.

The labor question has been much agitated here the past week as to how many hours constitutes a day's work. There is a law upon this subject that regulates it for the public.

Some of our farmers have the nerve to ask \$1.00 per gallon for their maple syrup. The fine beautiful sugar weather has caused an over-production of the article and consequently will cheapen the prices.

We read last week's letter from this place in the Journal and found much of it stale news, four and five weeks old. Why not subscribe for THE REVIEW and get the news fresh to date? It is no back number, we assure you.

The Bunker Hill school came to a close on last Friday, after a most successful term, it having been taught by John Hopping. It was a six month's term. There was good attendance throughout the whole term, and the scholars as well as the teacher started in with the determination of making it a success, which resulted likewise. The patrons and their families came in at the noon hour in the nature of a surprise to the teacher and scholars. They came with well-filled baskets and took full charge of the house until after the beautiful spread and all had partaken of the many good things to their hearts content, after which the tables were cleared, and the balance of the evening was spent in speech making, both by scholars and patrons, the latter speaking highly of the school and its advancement and eulogizing the teacher highly, after which they had an old-fashioned ciphering match, which ended the day's work as well as the school term.

Clover and timothy seed never sold as low as Darter & Hodgkin are selling it. See them before you buy.

Sugar making is in full blast. Wash Snyder, Mac Smith, Jasper Whitsel and Bud Wray are making molasses.

Alfred Shepherd has begun to shed winter clothing. When he gets warm enough at work he sheds a coat and then a pair of pants and so on, and when summer comes Alf will be hard to find.

Spring Term of School for Teachers and County Graduates.

The village and country schools of the county are closing. The term is all too short for young people to get good education for teaching or any business in the battle of life. Many of the teachers of these schools desire a chance to review or to make further advances in their studies. Many of the older pupils are anxious to advance further in their studies while they are fresh. The schools of Crawfordsville have nearly three months yet to run. No young people should now be allowed to enter teachers' ranks unless they have attended for a time some of the large and equipped schools. We offer as good chances as anywhere for the advanced study of all the common school branches, any of the High School studies and any of the topics for the preparation for teaching. A class of teachers is now studying Plato and the Social Elements with the Superintendent. We shall be glad to find place and plenty of work for any teachers or advanced pupil who can spend two months or so with us. A term with us will be of incalculable good to any young man or woman. The expenses will be as nothing in comparison to the good they will receive. Parents can do their sons and daughters no greater good than to give them some terms of school in the city High School, of Crawfordsville. Application should be made to W. C. Carr, Secretary of School Board, or to the Superintendent.

G. F. Kenaston.

HARMONY.

It is a Very Prominent Element in Certain G. O. P. Circles at the Present Time.

Mr. Reser, of Lafayette, who played a rather conspicuous part in the proceedings of the late lamented General Assembly of the good state of Indiana and who was most generously lambasted by the press of his own party for the aforesaid part therein played, has now returned home and is not in the least cast down by the vocal bombardment to which he has been subjected. On the contrary he is rather proud of his record and carries about with him his own little sting which he mercilessly thrusts into the sensitive cuticle of his critics. He is not helpless in the hands of his "friends" as witness the following extract from the Lafayette Sunday Times:

But Mr. Reser is not so mild mannered as he may appear, and sometimes turns upon his persecutors with pertinent remarks. For instance speaking of Governor Mount quite recently, he said: "Yes, Gov. Mount poses before the public as a great reformer. Reform has been his constant cry and yet does he apply it to his own case? During the first year of his term he received \$860 for house rent, and spent \$400 of it for the purpose. The second year he received \$600, and put up at an obscure boarding house in the outskirts of the city. Gov. Mount need not talk to me about reform."

And there you have it. The same "thrift" pervades the entire coterie of officials, from the chief executive of the State, who makes every edge cut down to the generous county commissioners.

All of which little exchange of courtesies is calculated to serve as courtesy to the wounds of those whose opinions and policies conflicted.

Landis's Prediction.

Mr. Landis informs the public through the interviewer attached to the Indianapolis Sun, that he had called upon the president and that that functionary, commander-in-chief of the army and navy, though he was, almost embraced him in his joy at meeting the man who had the nerve to rush against the bosses of Henry U. Johnson's buckler in the defense of the administration. According to Mr. Landis the meeting between himself and the president was similar to that of Jacob and Joseph. This leads Mr. Landis to think that the Republics goose is hanging in a
