we can talk to our friends far, far away.

Sixteen of our young maidens and old maidens are going to the Shades next week to camp for awhile. If you folks down in that part of the country hear loud talking and gabbing, you may know it is the girls from Darlington having a time that will be sixteen without the one. Next year by this time it will be sixteen to one.

The Booher's are in the majority in Franklin township, there being more persons by that name than any other in the township. Sixteen families of them live in Darlington, and all own homes except one, and I will say there are sixteen other families in town that are related to the Booher families. If we mistake not there are eleven families living in Franklin township. They are nearly all Democrats, only three families being Republican. The old fathers and mothers who emigrated here and settled this county away back in 1831 and '32, have long since passed over the river of death to their final reward.
