

HERE is a medical lecture in a nutshell. The Kidneys drain water and impurities from the blood. The Liver makes bile and helps to drive off other waste. If these organs work badly the body becomes a cesspool and disease sets in. You must get them into healthy action or die.

Dr. J. H. McLean's Liver & Kidney Balm

is an old and unsurpassed remedy for Backache, Debility, Sleeplessness, Lost Appetite, Foul Tongue, Palpitations and all other symptoms of disease in those organs. It cures as well as prevents every serious trouble in Kidney, Liver or Bladder. At druggists, \$1.00 per bottle. THE DR. J. H. McLEAN MEDICINE CO. ST. LOUIS, MO.

RUSSELL SAGE, who is usually spoken of as a mean old miser, the other day gave an outing on his railroad from Poughkeepsie, N. Y., to Upton Lake park to one thousand poor boys and girls. They cheered their benefactor, who furnished a special train on a road which he maintains at an annual loss of from \$10,000 to \$15,000. This would indicate that Mr. Sage is not altogether untouched by the ills of his fellow man and is probably much better than he has been represented. There is generally considerable good in every man and it will appear if the right spot is touched.

GOVERNOR MOUNT in the matter of recommending men for appointment as army officers in the Philippines says: "It is my determined purpose to do my duty as I see it, and to decline to recommend any man until after his merits are established beyond peradventure." He further says that he will give preference to men who are worthy of recognition, and that neither political nor personal influence will avail. It is to be hoped that Governor Mount's backbone is as stiff as his language, and he may be able to stay with this proposition.

ALREADY we have opportunity to extend aid and comfort to our new possessions. The fearful havoc wrought by the recent cyclone off the coast of Porto Rico calls for immediate action. Ruin is everywhere and thousands are suffering for food. The government is sending relief as speedily as possible, but there is ample room for individual citizens to contribute. This is most emphatically our business now, and all expansionists should immediately "expand" in the region of the heart and give a practical demonstration of the faith that is in them.

CONGRESSMAN DOLLIVER's attempt to answer Bryan at a meeting held at Winona Park was a failure. The crowd was as great a failure as the speech. The people wouldn't go to hear him. The Republican press explains that Republicans are opposed to paying to hear political speeches. They seem to be anxious to save their money for some reason.

THE Iowa Democrats are now coming in for a few broadsides of hot shot from Republican guns. Strange to say those hasty and inconsiderate Iowans failed to consult the wishes of the Republican party when constructing their platform, and very naturally the organs of the G. O. P. are much displeased.

If the Dreyfus affair does not end in a revolution in France, it will be without a precedent in her history. The time is ripe for such an outburst of the volcanic French spirit. France does not progress in an orderly and healthful manner. It is spasmodic. She seems to retrograde in order to gain momentum for a forward rush.

CHAIRMAN HENLEY is beginning early. With a little practice he will become a champion campaign liar. The story that Bryan received \$500 for his Greenfield speech has been traced to him. It will prove a boom-orang Bryan never received pay for making political speeches.

Oom Paul thunders forth his edicts with scriptural quotations, and in true style of the patriarch. Like the patriarchs and their tribes, in all their simplicity, the Boers are terrible fighters. If arms are taken up, Boer blood is not the only kind that will run.

THE price of meat is beginning to assume an altitudinous position. The butcher, the baker, and the candlestick maker, not to speak of the gas companies, are all raising prices. If business of other sorts will keep pace, it is well and good. If not, there will be still more hungry people.

THE horseless carriage has probably arrived to stay. Good roads make its use practicable, and since its coming more good roads will be built. The beautiful and necessary horse is rapidly being relegated to the background. New worlds are about to be conquered.

THE horrible burning of Bruno Kirves by the electric current, when he was executed at Columbus, Ohio, the other day, demonstrates once more the fact that the science of electrocution is yet far from perfect. It is often not so humane as the rope.

MR. CARNEGIE is apparently carrying out his laudable ambition to die poor like other folks, and is still endowing hospitals and libraries. He is evidently a reformed millionaire.

A RUMOR is now afloat to the effect that McKinley will not again be a candidate for President. It is hinted that he has seen the handwriting on the wall and so interprets the defection of so many leading men of his party. It is pretty safe to predict that at present, he has no such intention.

THE act of Judge Beeman in returning his passes to the railroad companies is meeting with universal approbation. It has suddenly made him famous over the United States. It seems that the act is almost unprecedented, but it is one much in harmony with the sentiment of press and people.

THE exploration of Walter Wellman in the polar zone may have satisfied his ambition to be an explorer, but it accomplished mighty little else. About everything is known about the frozen north that is worth knowing and it is time these foolhardy expeditions should cease.

THE race for the American cup will be full of interest to Americans whether they understand yachting or not. The Shamrock is now in port here and the Columbia is ready for the trial. The contest is such as encourages a friendly spirit of rivalry.

THE French method of disposing of too brilliant an opposition lawyer, in any other country than France, would exert a powerful influence in behalf of the accused. The crime is worthy of the Middle Ages, but it is in keeping with the whole Dreyfus affair.

THE Trans-Siberian railway will let the sun light of civilization into that God-forsaken country. It cannot long be used as a place of exile after the railroad reaches it. Men who seek homes will follow, and transform it, though blasted by the curse of eternal snows.

THE Mormons are reported as about to send down a band of missionaries upon Ohio. It is not known what reason they may have for selecting Ohio, unless as McKinley's state they think it expedient to "carry the war into Africa."

So the anti-Goebellies have nominated a full ticket in Kentucky. Kentucky always has maintained a reputation for keeping house in a lively and interesting manner. This year is no exception.

THE question of the Alaskan boundary is not so exciting after all. The "spell-binders" had to have their say.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J.
