SATURDAY, JAN. 2, 1891.

Special Announcement.

As an inducement to increase the circulation of the WEEKLY JOURNAL we will send during the coming year to each subscriber who renews his subscription and to all new subscribers the *Farmers' Friend*, one of the best agricultural and fireside papers in the country. It has 16 large pages, is issued twice a month, and is devoted exclusively to agriculture and literary matters. The price of the WEEKLY JOURNAL including the *Farmers' Friend*, is \$1.25. All new subscribers are entitled to receive THE JOURNAL the remainder of the year free.

EX-SPEAKER REED and would-be Speaker Mills contribute articles to the current number of the *North American Review* on the powers of the Speaker and the rules of the House. Mr. Mills works out a very fine-spun theory by which he attempts to show that the inalienable rights of the people are endangered by the methods of the fifty-first congress under the rules invented by Mr. Reed. The ex-Speaker, however, demonstrated by practical results that the policy of obstruction which Mills advocates is more dangerous to the public welfare than any thing else in the history of recent legislation. When it comes to a choice between the theoretical and practical the average American will always take the latter. The people prefer to see the party in power carry out its plan and go on record so that the record can be judged.

THE new tin plate factory at Anderson is in full operation and orders are being filled there for cities in Mexico, Cuba, and Central America. One car load has been received at this city.—*Indiana Farmer*.

The *Farmer*, being a non-partisan paper, should be cautious about stirring up political strife. Do not let editors know that this item of news is a plain contradiction of the Democratic "theory" that there is not now, never was, and never will be a tin plate factory in this country? In justice to the *Farmer*, however, it may be said that it obtained its facts from the Indianapolis *News*, a free trade monomaniac.

Among all the carols that have been handed down to us through the mist of years there is one that should be never forgotten. It was uttered near where the Sea of Galilee rolls its silent way. And it was made by Him who made Christmas possible. This was what He said: "Glory to God in the highest, on earth peace, good-will to men." There may be many Christmas carols and songs and texts, but this is the best of them all.

HON. E. V. BROOKSHIRE, who represents the Eighth District in Congress, was a warm supporter of Roger Q. Mills for Speaker. In the shuffle Mills was defeated. As a result Mr. Brookshire has not fared very well on committee assignments. Serving now on his second term he was certainly entitled to a chairmanship, but instead he is placed seventh on the committee for the revision of the laws.

It is a great pleasure to note the establishment of a new building association at Wingate. With three associations in Crawfordsville, and one in nearly every small town in the county, we are doing pretty well. Building associations denote progress, thrift and homes. If any community desires such an organization B. R. Russell will be glad to furnish the necessary information.

In 1867, says the *New York Mail and Express*, no steel rails were made in the United States, and the price of the imported English steel rails was \$138 a ton in gold, or \$166 in currency. In 1890 the products of steel rails in this country amounted to 2,091,798 tons, and their average price for the year was \$31.75 a ton. For this we must thank protection.

THE 6,000,000 acres of land known as the Cherokee strip, lying between Kansas and Oklahoma, have been surrendered by the Cherokee Nation to the United States for \$8,500,000 and as soon as Congress ratifies the agreement made by the United States Commission there will be another rich territory open to the homesteaders.

"The glorious climate of California" can't compare with the invigorating atmosphere of Hoosier Athens tempered by natural gas fires. Let us all be thankful.

THE DIFFERENCE BETWEEN RECIPROCITY AND FREE TRADE.

Now that reciprocity is an assured fact and is popular Democrats assert that there is no difference between it and free trade. The difference between the two is as plain as a pikestaff. Reciprocity permits freedom of trade that is mutually advantageous between two countries producing unlike articles of manufacture and dissimilar fruits of the soil, whereby the one is enabled to profit by the peculiar adaptation of the other to such production. Free trade is unrestricted trade among all countries, irrespective of circumstances of manufacture or conditions of climate and soil, regardless of the effect of such trade upon the industries or commerce of any nation, and having respect only to a dogmatic theory that if everything is allowed to take its natural course in the world, everybody will be happier and more prosperous. Reciprocity is based upon the actual and existing conditions of trade and productions. Reciprocity admits our manufactures without restriction into foreign ports to the benefit of non-manufacturing nations and profit of our commerce; free trade admits England's manufactures to our ports to the detriment of home industry. Reciprocity is the conception of a practical statesman; free trade is the hobby of the doctrinaires. Reciprocity enlarges our commerce with nations where products do not compete with ours; free trade enlarges the commerce of other nations whose products do compete with ours, and whose competition on uneven terms of labor and capital would ruin our industries. There is no abandonment of the principle of protection in the policy of reciprocity. There is nothing in the principle of protection that forbids seeking after a foreign market. The policy of protection, however, seeks to build up a home market that will make us in a large measure independent of the foreign market. Protection and reciprocity do no conflict in this matter. Protection preserves the home market; reciprocity seeks foreign outlets for our surplus of production, and gives us unrestricted trade in those necessities of life which we do not produce ourselves. This is all very different from free trade, which indiscriminately throws open our ports to the invasion of foreign productions, neglecting to protect native industry.

RICHARD MANSFIELD, the famous actor, has instructed his manager to discontinue the use of lithographs and printing of all kinds excepting advertising in the newspapers. He says this is the only way to reach all classes of theater-goers. There is no doubt that his judgement and experience are entitled to consideration. A many other lines of business millions of dollars are wasted annually on useless methods of advertising outside of the newspapers.

In 1890, says the *New York Mail and Express*, for the five months ending September 1, the exports of carriages and cars from the United States to Brazil amounted in value to \$263,771. In 1891, under reciprocity, for the corresponding period, our exports of the same articles to that country amounted in value to \$394,859. This increase of \$131,088, or 50 per cent., was caused solely by reciprocity.

SOMEbody should present Mrs. Henry Ward Beecher with a small map of the United States. In her last article in the *Lady's Home Journal* she speaks of the Little Miami river as the boundary line between Indiana and Kentucky at Lawrenceburg where she lived for ten years. The Little Miami runs into the Ohio above Cincinnati, and the Great Miami above Lawrenceburg.

"TARIFF reform has received a black eye on the threshold of a Presidential campaign." This is the lament of that eminent Cleveland worshiper, Henry Watterson, in his comments on the election of Crisp to the Speakership. The war is on between the Democratic factions.

REPUBLICANS are praying that Governor Humphrey will not appoint Ingalls to the Senate. The iridescent ex-Senator is too much like a weather cock.

DEAFNESS CAN'T BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed. Cases out of ten are caused by colds which nothing but an internal remedy can cure. The mucous membrane is inflamed and dries up. Deafness (caused by colds) cannot be cured by local applications. Send for F. J. Coleau, of Chicago, Ill.

BET SUGAR.

The beet sugar crop of Germany last year amounted to one 1,300,000 tons; that of France to 750,000 tons; that of Austria to 730,000 tons; that of Russia to 430,000 tons, and that of Belgium to 200,000—total 3,600,000 tons. Had the foolish theory that "the tariff is a tax," deterred those countries from aiding the beet sugar business it is probable that not a pound of beet sugar would have been made in the world today. Cannot the people of the United States learn a valuable lesson from those countries, and continue the Republican policy of attempting to develop our own sugar-producing resources, and thereby soon add three or four million tons to the world's production of sugar? We are making a good start, and who will be so foolish as to advocate an abandonment of the sugar bounty?

The reciprocity treaty with Spain has caused an increase of 60 per cent in our exports to Cuba and Porto Rico, and that means a good many million dollars gained by the farmers through the efforts of a Republican administration.

If the Republican party of Ohio lets the Cincinnati *Commercial Gazette* and *Enquirer* element predominate to the defeat of grand old John Sherman, the country, without regard to party, will not soon forgive it.

THE total foreign trade of this country in the first twelve months under the new tariff amounted to \$1,768,394,974. The McKinley law wasn't so much of a Chinese wall as the Democrats feared.

WHERE is the city's mud scraper?

Named by Billy Florence. "Oofy Goofy" the eleven-year-old English terrier of J. W. Ramsey, is dead. The dog was one of the finest in the State and was named by the late celebrated actor, Billy Florence, while he was playing Oofy Goofy in Crawfordsville. He saw the dog, then a tiny pup, at Capt. Talbot's and called him "Oofy Goofy" after his play.

Tyler and Taylor. Tom Taylor and Hank Tyler live down by the cemetery where the birds sing when their songs are heard and buttermilk flows perennially. Tom has been real rude lately in his department toward Hank, and Hank avers that he goes about with a big knife almost as long as a railroad tie. Hank finally became so worried that he couldn't eat anything except substantial, so he came up before Mayor Carr Tuesday and swore out a warrant against Tom for surety of the peace.

The laws of health are taught in the schools; but not in a way to be of much practical benefit and are never illustrated by living examples, which in many cases might easily be done. If some scholar, who had just contracted a cold, was brought before the school, so that all could hear the dry, loud cough and know its significance; see the thin white coating on the tongue and later, as the cold developed, see the profuse watery expectoration and thin watery discharge from the nose, not one of them would ever forget what the first symptoms of a cold were. The scholar should then be given Chamberlain's Cough Remedy freely, that all might see that even a severe cold could be cured in one or two days, or at least greatly mitigated, when properly treated as soon as the first symptoms appear. This remedy is famous for its cures of coughs, colds and croup. It is made especially for these diseases and is the most prompt and most reliable medicine known for the purpose. 50 cent bottles for sale by Nye & Co.

Newspapers endorse. "Educators are certainly the greatest benefactors of the race, and I, after reading Dr. Franklin Miles' popular works, cannot help declaring him to be among the most entertaining and educating authors." He is not a stranger to our readers, as his advertisements appear in our columns in every issue, calling attention to the fact that the elegant work on Nervous and Heart Diseases is distributed free by our enterprising druggists Nye & Co. Trial Bottles of Dr. Miles' Nervine are given away, also Book of Testimonials showing that it is unequalled for Nervous Prostration, Headache, Poor Memory, Dizziness, Sleeplessness, Neuralgia, Hysteria, Fits, Epilepsy.

A National Event. The holding of the World's Fair in a city scarcely 50 years old will be a remarkable event, but whether it will really benefit this nation as much as the discovery of the Restorative Nervine by Dr. Franklin Miles is doubtful. This is just what the American people need to cure their excessive nervousness, dyspepsia, headache, dizziness, sleeplessness, neuralgia, nervous debility, dullness, confusion of mind, etc. It acts like a charm. Trial bottles and fine book on Nervous and Heart Diseases, with unequalled testimonials free at Nye & Co.

Miles' Nerve & Liver Pills. Act on a new principle—regulating the liver stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, torpid liver, piles, constipation. Unequaled for men, women, children. Smallest, mildest, urest. 30 doses 26 cents.

Bucklen's Arnica Salve. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and loss-tively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Nye & Co.

A WOMAN BEST UNDERSTANDS A WOMAN'S ILLS.

The experiments of Lydia E. Pinkham that years ago gave to the world that blessing, the Vegetable Compound, were made through a feeling of sympathy for the afflicted of her sex. She discovered that nearly all the diseases of woman have a common origin, and therefore may have a common cure. That cure is known in all parts of the civilized world, and an average of 100 letters per day are received from grateful women.

LYDIA E. PINKHAM'S Compound

is sold by all Druggists as a standard article, or sent by mail, in form of Pills or Lozenges, on receipt of \$1.00.

Send two 2-cent stamps for Mrs. Pinkham's beautiful 98-page illustrated book, entitled "GUIDE TO HEALTH AND ELOQUENCE." It contains a volume of valuable information. It has saved lives, and may save yours.

Lydia E. Pinkham Med. Co., Lynn, Mass.

THE NEXT MORNING I FEEL BRIGHT AND NEW AND MY COMPLEXION IS SETTER. My doctor says it acts gently on the stomach, liver and kidneys, and is a pleasant laxative. This drink is made from herbs, and is prepared for use as easily as tea. It is sold by all druggists.

Strong Witnesses.

Among the thousands of testimonials of cures by Dr. Miles' New Heart Cure, is that of Nathan Allison, a well known citizen at Glen Rock, Pa., who for years had shortness of breath, sleeplessness, pain in left side, shoulders, smothering spells, etc.; one bottle of Dr. Miles' New Heart Cure and one box of Nerve and Liver Pills, cured him. Peter Jaquet, Salem, N. J., is another witness. For twenty years suffered with Heart Disease, was turned away by physicians as incurable, death stared him in the face, could not lay down for fear of smothering to death. Immediately after using New Cure he felt better and could lay down and sleep all night, and is now a well man. The New Cure is sold, also free book, by Nye & Co.

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition. If you are afflicted with a cough, cold or any lung, throat or chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Dr. King's new discovery could be relied on. It never disappoints. Trial bottle free at Nye & Co.'s drug store. Large size 50 cents and \$1.

Inferior Goods.

The only safe way for purchasers is to insist on having the genuine article, and not allow themselves to be swindled by having plasters said to be "just as good," or containing superior ingredients" imposed upon them. They are only tricks to sell inferior goods that no more compare with Alcock's Porous Plaster than copper does with gold. One trial of Alcock's Porous Plasters will convince the most skeptical of their merits.

The eminent Henry A. Mott, Jr., Ph. D., F. C. S., late Government Chemist, certifies: "My investigation of Alcock's Porous Plaster shows it to contain valuable and essential ingredients not found in any other plaster, and I find it to be superior to and more efficient than any other plaster."

Ask for Alcock's, and let no solicitation or explanation induce you to accept a substitute.

A Leader.

Since its first introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of stomach, liver or kidneys. It will cure sick headache, indigestion, constipation, and drive malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50 cents per bottle. Sold by Nye & Co.

A son of Mr. M. D. Pusser, a merchant of Gibraltar, N. C., was so badly afflicted with rheumatism for a year or more, as to be unable to work or go to school. His father concluded to try Chamberlain's Pain Balm on the boy. It soon cured him and he has since walked one and a half miles to school and back every school day. 50 cent bottles for sale by Nye & Co.

For pain in the stomach, colic and cholera morbus there is nothing better than Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by Nye & Co.

Don't.

Farmers

Don't be deceived by one-horse dealers and street-day Hawkers when you bring grain to town. They will tell you that they are paying the highest market price when nine times out of ten we will give you from three to five cents per bushel more than they bid.

Don't

Exchange your wheat for an inferior Flour, when we will give you 36 pounds of the celebrated Gold Leaf Flour and 10 pounds of bran for a bushel of wheat.

Don't

Take your feed grinding to old, worn-out one-horse feed mills, when we do your grinding at same prices and on the best roller feed mill in Indiana.

Don't, Don't, Don't forget that it will always pay you to trade with a responsible firm that has a reputation at stake.

NOTICE OF ADMINISTRATOR'S SALE

Notice is hereby given that as administrator of the estate of Peter Lewis Fisher, deceased, and by order of the Circuit Court of Montgomery county, Indiana, I will sell at public auction at the south front door of the court house in said county on the 4th day of January, 1892, between the hours of 10 a. m. and 4 p. m., of said day, the following described real estate in said county and State, to-wit:

The north half of lot number eighteen (18) in James Thompson's addition of out lots to the city of Crawfordsville.

Also, the undivided one-half of parts of lots one hundred and thirty-one (131) and one hundred and thirty-two (132) in the original plat of the city of Crawfordsville, described as follows: Beginning at the north-west corner of said lot 131 and running thence south twenty-two (22) feet and five (5) inches; thence east one hundred and nine (109) feet to an alley; thence north twenty-two (22) feet and five (5) inches; thence west one hundred and nine (109) feet to the place of beginning.

Also, part of the southeast quarter of section 31, township 19 north, range 4 west, beginning at a point on the north margin of Market street 108 feet east of the southeast corner of lot No. 10 in McClelland & Connors' addition to the City of Crawfordsville, and running thence east forty-nine (49) feet; thence north one hundred and forty-five (145) feet; thence west forty-nine (49) feet; thence south one hundred and forty-five (145) feet to place of beginning—being the dwelling formerly occupied by the decedent.

TERMS OF SALE:—One-third cash, one-third in six months and one-third in twelve months from date of sale, the purchaser executing notes for the balance of the purchase price, bearing six per cent. from date and secured by mortgage on the real estate sold.

If satisfactory bids are received on that day the sale will be continued from day to day until all of said property is sold.

ALBERT C. JENNISON, Administrator estate of Peter L. Fisher, deceased. M. W. Bruner, attorney for Administrator. Dec. 5, 1891.

To Consumptives

The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send (free of charge) a copy of the prescription used, which will cure any ailment for Consumption, Asthma, Catarrh, Bronchitis and all throat and lung Maladies. He hopes all sufferers will try his remedy, as it is invaluable. Those desiring the prescription, which will cost them nothing, and may prove a blessing, will please address REV. EDWARD A. WILSON, Brooklyn, New York.
