When the Lord created the human race he gave them two sets of teeth, two eye sights, two kinds of voice, two tempers a set of bolls and a miscellaneous lot of mumps, measles and in-growing toe nails, but nowhere has he provided us with the second crop of hair.

It is no sign because the end of your shoe extends quite a distance beyond the end of your toe, that the shoe is too large for you.

Because The whole fit of a shoe is from the ball to the heel. If the ball and heel of your foot fit snugly into the places made for them in all Walk Over shoes, the size (or length) will take care of itself. Don't wear too short a shoe or you'll have trouble. Let the salesman fit your foot. He knows how.

There's no more reason why your toe should touch the end of your shoe than that your head should touch the top of your hat. We are willing to give you our time in fitting shoes.

The decrease of 18,000 in the number of pensioners on the rolls at the end of the fiscal year 1907 as compared with the year previous, is the feature of the annual report of Pension Commissioner Warner. This is the greatest decrease in the history of the pension bureau. The number of pensioners on June 30, 1907, was 967,371 and the value of the pension roll \$140,850,880.

Ike Nelson, a young man who was out celebrating Halloween had a very narrow escape from death, as he was the struck along the side of the head by a stray bullet that clipped off his hair and left a small furrow in the scalp. Young Nelson does not understand how the accident happened or who fired the shot, but he does know that he had a very narrow escape. The injury is slight and he is showing no ill effects of the same today.

Several of the large wholesale houses in Chicago and other cities have instructed their representatives and collectors that they must have currency in payment for their goods instead of checks. This is done for the reason that in many cities bankers will only honor checks to the amount of \$25 or \$50 per day on any one account. Should the check be more than that amount the bankers would issue a draft or check of deposit for the balance.

Judge E. C. Vaughn and Attorney John Burns were in Indianapolis Thursday to consult with an attorney with the Lake Erie in regard to the claim for damages against the railroad company by Robert Guesman because of the death of his wife and two children, who were killed a few months ago by a Lake Erie train. The railroad company's attorneys made an offer in settlement, but not enough to satisfy the claim and suit in court will likely be filed in which there will be demand for \$20,000.—Bluffton News.

The Rev. C. E. Luce, pastor of the east Main street Christian church at Portland has resigned his pastorate, because of too much pastoral work. He informed his congregation he believes his best work can be done from the pulpit. Owing to the way in which his congregation is constituted, he asserts he has had more work to do outside than in the pulpit.

Uncle John Brock has offered a small reward for any information in relation to the parties who damaged some of his property last evening. Unquestionably some of the boys had not gotten over their Halloween celebration of the night before and continued their depredations last evening. Should Mr. Brock learn the true facts as to his own property prosecutions will follow.

One of the busiest places to be found about town these days is Poyneer factory in Reome block, where the Poyneer grain and seed separator is being manufactured by a small force of men. There are now thirty or forty machines finished and ready for delivery to purchasers. Mr. Poyneer states that he would like to establish a factory here which would furnish work for a considerable number of men.—Warren Tribune.

A Chicago educator says the Bible isn't fit for children.—Evexchange. That Chicago editor has expressed more than he knew. The Bible as it is written, and without helps, is not fit for children. Neither is it fit for adults. The Chicago editor undertook to read his Bible just as a man will drink alcohol. He neglected to adulterate the fluid and the result was it took the skin off of his throat. We might say that the study of Greek or Latin is not intended for children and the saying would be true, but how they enjoy it when it is their privilege to have the books simplified. The Bible is too deep for the Chicago editor.

A committee appointed by the Elks to secure a hall for lodge meetings has negotiated with Tangeman and Smith for the third floor of the opera house block, the old lodge hall of the Elks. The lodge will continue their present club quarters, but it affords no facilities for a hall for lodge meetings. Until the lodge gets a permanent home they will rent a hall. The lodge as a body will act tonight on the committee's action in negotiating for the opera house hall. The lodge will doubtless ratify the committee's work.—Bluffton News.

The town of Warren is making another determined fight, aided by an anti-saloon worker who arrived there two weeks ago, to put the saloons out of business completely at that place. A remonstrance is in circulation and it is hoped by the temperance forces that enough names will be secured to it to defeat the application of Hiram Gill, who will appear before the Huntington county commissioners Monday to ask for a renewal of his license. There are now five saloons at Warren and the remonstrance being circulated is against the business as a whole and not against Gill or any other man individually and it sufficient names are secured it will knock out the saloon business at Warren completely for two years to come.
