## Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always treat, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now a little late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good! However, for this very reason, mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's label—and none in the medicine, else it must be law to be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Very Good! package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

W. H. NACHTRIEB.

Stop that tickling cough! Dr. Shoop's Cough Cure will surely stop it and with perfect safety. It is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else even with young babies. It calms the cough, and heals the sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Take no other. W. H. Nachtrieb.
