When she learned of this it was thought she would have hysterics and the ladies accompanying her tried to get her to leave the agonizing scene, but all to no effect. She watched the lad until he reached the other side of the wire. ## Yes Follow the Crowd and Get a Home of Your Own and Quit Paying Rent

Are you expecting a great reduction in values, or a sudden fall in prices? A moment's consideration will convince you that artificial gas, electric lights, paved streets, stoned roads, large manufacturing industries, and new traction lines put in operation, do not reduce the prices of the real estate near them. That good locations will steadily increase in value, no matter who owns them. That you might as well save that increase as to pay high for it when you buy some years later. Now is the time to invest your money while property is reasonably cheap.

The Snow Agency can fit you out with your choice from a list of about 25,000 acres of as good farm lands as can be found in eastern Indiana or from a list of about
