TERRELL RELEASED
(Continued from page 1.)
reopened the case in the newspapers
in northern Indiana, and it was report-
ed that should Terrell be discharged
as cured he would be immediately re-
arrested and re-tried. It was held at
that time, however, by some attorneys
that Terrell, in the event of his dis-
charge as cured, would have to be
taken back to the Michigan City pris-
on to begin his lifetime imprisonment.
Nothing was heard of the case until
today, when the announcement by Dr.
Smith that Terrell had been discharg-
ed and was subject to the order of the
clerk of the court of Wells county,
created a sensation.
"Is Terrell completely cured?" was
asked of Dr. Smith by the News corre-
spondent.
"I can simply say," replied Dr.
Smith, "that his condition at this time
does not warrant his confinement in
this institution."
Miss Jessie Magley is on the sick

NEAR DEATH'S DOOR.
"I was near to
death's door. The
doctor said he had
done all he
could; that my
stomach was old
and worn out. I
was so weak I
could not walk.
I took Mi-o-na
tablets, and have
been eating hearty ever since, and I
am able to work like a tiger. I wish
I could go and thank you myself. I
send you my picture, and you can use
my word and my picture, and I thank
you again."—Mrs. Nelson Lucier, 112
Fisk, St., Athol, Mass.
Mi-o-na cures dyspepsia. If any
of the readers of the Democrat are
suffering from stomach trouble of any
kind Holthouse Drug Co. will sell you
a box of Mi-o-na for 50 cents with an
absolute guarantee of relief, or money
back. In many cases one box will
effect a permanent cure; in chronic
condition more is necessary. But one
thing is certain: one box of Mi-o-na
will make you feel so much better
and brighter, so much more energetic,
that you will not give it up till cured.

present a very attractive appearance.
Boys in Markle fixed up a game on
Frank Carger of that town a few days
ago, and had all kinds of fun at his
expense. Knowing that Carger is one
who cares not to meet a stranger in
the dark unless the stranger pre-
sents a card at a distance, the young
fellows fixed up a dummy and set
it near Carger's home. They then
made a noise to attract the man's at-
tention and he opened the door and
let the light fall on the object. Carger
is said to have walked out to a
safe distance from the dummy and
said "How're you." Strange to say
the dummy was silent. Carger then
pulled his gun and fired two shots
through the dummy's hat while the
young fellows in hiding near the place
laughed till their sides nearly split.

Women Save Money
Every woman in this city can save
several dollars this week. She can
get an up-to-date suit or coat to wear
this season and next at a mere frac-
tion of its real value. The garments
now selling at these unequalled low
figures are the famous "Bischof"
models. Everything about them—
style, material, making, fit—made
them at regular prices great values.
It is only because one of our leading
stores does not carry over stock that
these goods are marked at such reduc-
tions. It is in no sense a sale of odds
and ends, but this season's models in
every desirable material and all sizes
to fit every customer perfectly. Whether
she has been thinking of a new
garment or not, every woman ought
to see these goods now selling at
NIBLICK & COMPANY

LONG ON WHEAT
(Continued from page 1.)
ing us the building. We went from
here to a reception and band concert
at the city hall. We found out that
this, a "great grain" raising country
and prosperous city of eight thousand.
In the morning we were at Indian
Head, a thriving little town in one of
the best grain growing districts of the
northwest. There are thirteen grain
elevators here for handling products
of the surrounding country. We were
especially interested in the experi-
mental farm at this place. All kinds
of small fruits, vegetables and grains
were growing and doing remarkably
well. The flowers were exquisite. Ev-
erywhere in Canada flowers and vines
grow well. The sweet peas were larger
than ours grow; the dahlias were
most beautiful. All kinds of old fash-
ioned flowers that used to grow in
our grandmothers garden were here.
To our regret a Kodac picture of a
great bunch of the different varieties,
was a failure. These experimental
farms are found all through Canada.
We visited others, but the one at In-
dian Head was the most complete.
We arrived in Regina, the capital of
Saskatchewan at 12:30, Sept. 2. A
committee of citizens met us and es-
corted us to the city hall, a very
fine structure recently erected. Along
with others of our party I tried to fig-
ure out their system of taxation in
this country. It seemed so very sat-
isfactory to the people, the Regina
rate is 15 mills on the dollar, but it
was utterly beyond me. However, I
am sure I understood how they make
public improvements in Regina with-
out taxing the people. A certain
amount of land was given to the city
by the government to be held for pub-
lic purposes. The money for build-
ing the city hall and doing other pub-
lic work is obtained from the sale of
the lots into which this ground has
been divided. After a luncheon at the
Kings Hotel, we were taken in car-
riages and automobiles for a drive in
and around the city. We visited the
government house, where we paid our
respects to Lieutenant Governor For-
get the king's representative. Mrs.
Forget told us there were only two
other white women in this locality
when she came. In the conservatory
connected with the house there was a
most beautiful collection of begonias.
Our next visit was to the headquar-
ters of the Northwest Mounted Police.
Recruits are received and trained at
this place. The horses used by the
men are very fine and perfectly train-
ed. The N. W. Mounted Police is con-
sidered to be the most effective organ-
ization of its kind in the world. A
certain man is detailed to do police
duty in a certain section. He rides over
his territory twice a week, so that he
knows it perfectly, better than any
one else possibly can. Every part of
the country is covered in this way.
If a crime is committed in a locality,
the force is immediately notified.
Knowing the country as police do, it
is practically impossible for a man
to escape. The men are armed like
soldiers, but have also the authority
to act as constables. The officers are
empowered to serve as magistrates.
When any person is caught doing any-
thing which is considered a minor
offense he is brought before an officer
and sentenced. At every police head-
quarters is a prison, where the guilty
serve out their sentences. Tact and
justice in dealing with the Indians
and half breeds as well as other classes
have made the force very effective.
The rebel leader, Louis Riel, was
hanged at this place. The colonel
gave each of us buttons such as are
used on the uniforms of the N. W. M.
P. On our return to Regina we learned
many things of interest concerning
its municipal government. Regina
owns and operates all public utilities,
as most Canadian towns do. It is the
best paved city in western Canada.
Handsome school buildings, churches
and homes prove its wonderful pros-
perity. The government is erecting a
new building here to cost \$1,500,000.
There are also several railroads, which
make it a distributing point. Regina
is one of the best towns we visited.
