Yes Follow the Crowd and Get a Home of Your Own and Quit Paying Rent

Are you expecting a great reduction in values, or a sudden fall in prices? A moment's consideration will convince you that artificial gas, electric lights, paved streets, stoned roads, large manufacturing industries, and new traction lines put in operation, do not reduce the prices of the real estate, near them. That good locations will steadily increase in value, no matter who owns them. That you might as well save that increase as to pay high for it when you buy some years later. Now is the time to invest your money while property is reasonably cheap.

The Snow Agency can fit you out with your choice from a list of about 25,000 acres of as good farm lands as can be found in eastern Indiana or from a list of about

One Hundred City Properties

The owners want to sell these properties, not for speculation, at fictitious values, but for a change of investment. Some of them can be exchanged for good farm lands. If your property is for sale at its real cash value, by listing it with us we will advertise it without cost or expense to you, and are nearly sure to find you a buyer in a reasonably short time.
