Southern Pacific Conductor Wins Suit Against Santa Fe Road.

Los Angeles, Cal., Jan. 31.—Mark R. Hamble, a Southern Pacific conductor, received a verdict for damages in the federal court yesterday of \$19,000 against the Santa Fe railroad for personal injuries sustained in a wreck at Tehachapi in February, 1903. He sued for \$25,000. Hamble contended that the Santa Fe train entered the "block" upon which he was running before it had any right to do so. The Order of Railroad Conductors aided Hamble in the suit.

WELL KNOWN HERE

They Are Preparing to Remove to Oakland City,

Indiana

The Eagle, a newspaper published at Augusta, Illinois, has dedicated a goodly portion of its space of last week's issue to a glowing account of Dr. W. A. Hutchison, who is well known here, having wedded Miss Elizabeth Jackson, a well known Decatur lady. Mr. and Mrs. Hutchison are preparing to remove to Oakland City, Indiana, where they will make their future home. The following resolutions were passed by the brotherhood class which is indicative of the esteem he and wife are held by the people of Augusta:

Whereas, Dr. Hutchison has resigned his charge here, and will soon take up his work at Oakland City, Indiana, now therefore be it

Resolved, That we, the members of the Brotherhood Class, hereby express our appreciation of his services as teacher. We now recall, with much pleasure, his successful efforts in the organization of this class, the pleasant hours we have spent together in the class room, and the many social gatherings made pleasant by him. We will miss his friendly greetings, both in the class and on the street.

We commend his work and example, and express our regret of his departure, as we realize that we are losing a teacher, rich in the treasures of mind and heart, which has made his presence a benediction, and will cause him to live under a halo of tender memories.

After the adoption of the resolution Dr. Hutchison made a few well chosen remarks to the Brotherhood and the meeting adjourned, all wishing the doctor happiness and success in his new field of labor.

THE FOURTH WEEK

(Continued from page 1.) the passage in the house of representatives by a unanimous vote when Representatives Hazzards bill providing for an increase rate for the support of the Lafayette soldiers' home from \$12.50 to \$16.00 was brought up. The home has been in danger of losing the support of the national government as contributions were taken from the pensions of inmates. A special message of Governor Marshall called attention to the need of a raise in the rate.

Both house and senate met this afternoon at two o'clock. It is expected that a busy week will follow, as many bills, many of them more or less important, will be reported out of committee, and will be ready for action upon the floor of both legislative bodies.

Father of Charles Dunn

Conflagration

HIS STORE BURNED

Has Visited at Decatur Several Times and is Well Known Here

Charles R. Dunn has received a communication from Fairbury, Ill., conveying the sad news that his father, who several times has visited Decatur, has suffered a loss by fire in which the loss aggregates about \$7,000. An exchange has the following to say about the conflagration:

The clothing store of L. G. Dunn was found to be on fire Monday night about 10:45, and an alarm turned in. The cause of the fire is unknown. It was at first believed to have started from a spark from the stove, but the general opinion now is that it must have started between the metal ceiling and the second floor, either from electric wires or rubbish carried in by mice and stored close to the chimney. The latter theory is most probably correct, owing to the fact that everything appeared all right when Mr. Dunn left the store not over thirty minutes before the fire was discovered. The blaze started in the northeast corner of the store and had gained considerable headway. The fire was checked somewhat by the metal ceiling and the flames spread to the west side of the room. Two streams of water were soon being thrown on the blaze, and in a very short time, what had threatened to be a very disastrous fire was under control of the fireman. Mr. Dunn and his clerk, Ralph Bodley, were in the store until about 10:15 taking an invoice of the stock. When they reached a good quilting point, Mr. Dunn told Bodley to go to the Klondyke and order some oysters and he would be down in a few moments. He had only been out of the store a short time, and was enjoying his oysters, when some one turned in an alarm, and he was as much surprised as any one when he found it was in his store. Mr. Dunn carried a stock of about \$7,000 to \$8,500, which was partly insured.
