

Clothcraft is Almost Too Good To Be True

You must not judge CLOTHCRAFT CLOTHES by their low prices.

When we say \$10 to \$25 some wonder how CLOTHCRAFT CLOTHES can be as good as we claim.

This is where the famous CLOTHCRAFT GUARANTEE comes in. It is an absolute protection as to style, all-wool, shape-holding qualities, workmanship and durability.

But the Guarantee doesn't explain the low prices. And explanation is what makes belief easier.

Clothcraft Clothes

50 Years of Honesty

Here is the explanation: Three generations of honest men have devoted their lives to the study of one thing—how to make good, stylish, all-wool clothes that can sell at medium prices.

CLOTHCRAFT is the result of 50 years of scientific study of one idea.

These years have shown how to eliminate waste.

They have brought forth marvelous processes known to no other factory.

You Are the Gainer

They have seen the output grow until the cost of each individual garment has been reduced to a minimum.

Thus several dollars is actually saved in the cost of each and every garment.

And this saving is what pays for the better wools and better tailoring in these clothes. You are the gainer.

Remember

This is the only line of all wool clothes in America that sells at from \$10 to \$25.

Particulars will later be given out by the Geneva celebrators, and it will contain everything good under the sun.

W. B. Hale and Jesse Throup came home yesterday from Indianapolis, where they attended Masonic grand lodge, and incidentally looked after business of importance.

Mrs. C. F. Graves came home yesterday from Waterloo, Indiana, where she visited for some time with her father, who has been in poor health, and who is also showing but slight improvement.

The Geneva school board will meet on next Monday evening, and at that time they will select the teachers for the Geneva schools for the coming year. Some surprises are said to be in store for the patrons of the schools, and in the meantime every one is doing nothing but quietly holding his breath.

Geneva has fewer loafers and more men at work than any other town on the historic banks of the Wabash. Geneva is prospering and while we do not often take time to blow our own horn, yet the fast pace is exciting the admiration of not a few of our neighbors. This year will prove the banner one for the best little town in the kingdom.

We are informed that a Geneva citizen is again in serious trouble in Fort Wayne, and if such proves true we will give the particulars later.

A. G. Briggs, our leading citizen and flanncier, is having the round on his life. Bolls, and bolls seem determined to put one over him. The last count was three on the back of his neck, and he has suffered so long with them that his condition is really serious.

Art Coleman moved his grocery store one door west to the W. W. Briggs room yesterday and is already settled in his new home. Lack of improvement in his former place of business made the change a necessity, and Mr. Coleman is not the fellow who does not know when a necessity is after him.

MRS. FRANCE BADLY BURNED

While Lifting a Pan of Hot Chocolate from the Stove this Morning.

Mrs. Bart France was quite badly burned with hot chocolate just before noon today. She was baking a cake and in lifting a pan of boiling hot chocolate from the stove, she upset the fluid which spread over her hands and wrists. The right hand was terribly burned, the skin being cooked off and the left hand was also badly scalded. Dr. J. M. Miller was called and dressed the injuries and she was resting as easy as could be expected this afternoon. While it is not believed the burns will prove serious, she is suffering considerably, and will be ill for several days as a result.
