MR. TAFT

AND HIS PARTY

President Taft's position on the

tariff question during the 1908 cam-

paign was not satisfactory, but he at

least tried to create the impression in

all of the states where tariff reform

sentiment is strong that he would

favor a downward revision. As the

bill which has now been agreed on

increases the average of the old

rates—in other words revises the

tariff upward—Mr. Taft either has

little influence with his Republican

brethren or else has not worked very

hard to redeem what the people be-

lieved was his own and his party's

pledge.

This leaves a very serious situation. It is evident that the Republican organs realize that it is serious because they are laboring hard to prove that both the president and his party have "substantially" or "in a measure" or in some other uncertain way done something or other along the line of keeping faith with the people. But the organs are not able to produce any evidence. The facts are all against them.

All of the papers throughout the country, saving any excepting only the hide-bound Republican organs, frankly admit that the present tariff bill is the worst kind of its kind ever passed by congress. Everywhere there is revolt against it and the party that is responsible for it. The next election will show whether or not any party can pursue with impunity such a perfidious course.

H. Clay Pierce who is nothing but another one of those dear citizens who can steal in sums so large that the public look upon him as a benefactor, is married. Most any one can get married nowadays, though.

The Frankfort Crescent with twelve pages of local advertising, does not look half bad to the eye of a newspaper man. By the way, the Crescent is one of the good newspapers of the state, and deserves all the good things going.

Tariff revision on print paper is a mockery. The Dingley rate on print paper is \$6 a ton, one of those altitudinous items that stand as a monument of folly. After months of investigation the house committee fixed the rate at \$2; a compromise to greed. Then the senate put it at \$4, which is robbery; as another compromise the conferees put it at \$3.75. And the paper trust rejoices.—Anderson Bulletin.

The Washington correspondent of the Cincinnati Enquirer points out many "jokers" in the new tariff bill. A "joker" it must be remembered, is the opposite of a joke. It is a serious thing because it means intentional deception. It is an attempt to do a thing by indirect, devious and fraudulent means which cannot be done openly and directly. The Enquirer correspondent sets out facts which show that those in charge of the tariff bill while in conference slipped into it, under various covers, many provisions which are more scandalous than highway robbery. They, in their working, are of the sneak-thievery variety. The full extent of the villainy will doubtless not be known for a long time.

IT'S THE LAST DAY

Commissioners Are Closing the Business for the August Term

BONDS ARE SIGNED

The Sprunger Bonds Go to the Leslie Bonding Co., of Van Wert

The commissioners are allowing bills and taking care of other matters due for action at this session of commissioners court, expecting to end the session this evening. They will go to Bluffton tomorrow, where they will act jointly with the Wells county board on macadam road matters which affect the two counties.

A. H. Sellemeyer, treasurer of the Decatur school board, and L. A. Sprunger, treasurer of the Berne board, made their reports and the same were approved.

Samuel Teeters et al. filed a petition for a drain which was accompanied by a bond for costs which was approved.

The report of Clerk Haefling on change of venue costs, and which embraced an exhaustive report of these fees, together with the amount due from this county to Jay county, was approved.

The board signed the C. C. Sprunger macadam road bonds and they will be taken up tomorrow by Peterson & Moran, who are representing the Leslie Bonding company of Van Wert.

Commissioners Laughlin & Miller went home with Commissioner Zwick last evening and spent the night with him. They were able to be on deck this morning, and reported a pleasant time with the good people of Bingen.

The petition of John H. and Christina Hiltz to have taxes refunded, was continued.

The board spent the afternoon with their estimate of expenses for next year, and the job proved to be a good hard one. They have shown their knowledge of financing the county by lowering several items of expense.

Miss V. E. Kuntz of Shelby, Mich., arrived in the city today and will make a short visit with Mr. and Mrs. John Niblick.

IT'S SOME WHEAT

C. H. Gage Will Have Twenty-Five Hundred Bushels this Year

HE IS AT MOTT
North Dakota is Not Slow When It Comes to Raising Good Wheat

Where is Mott? This was a form used several years ago for the advertising of Mott, North Dakota. A letter came to C. S. Niblick, president of the Old Adams County Bank, written by C. H. Gage, a former Adams county boy, but who now owns a section of this great wheat growing soil. The letter imparted the information that Mr. Gage would harvest about twenty-five hundred bushels of wheat this year. That is the prospects looked that good. They will not begin to cut their wheat for about ten days yet, but as it stands in the field the yield looks anything but discouraging. Mott is where the Beery boys have gained fame and fortune, and from the tone of the letter from Mr. Gage there is no hot air about the stability of the fortune that in a few years will come to those who invested in land in and around Mott. Several Adams county people are located there and so far as we know they are all doing well, and are making money in various ways. North Dakota has much rich and fertile land and the older it gets the more productive it becomes.

MOMENTARY DESPONDENCY

In speaking of the divorce suit filed by Mrs. Huff of Berne, the Berne Witness has the following: Prof. Huff arrived here yesterday evening and in an interview stated that he had no knowledge of his wife's actions here of last Friday until Saturday, and considers the whole a deplorable affair, the result of momentary despondency on the part of Mrs. Huff, induced in part by some outside influence. The matter has already reached a temporary settlement, by Mr. and Mrs. Huff parting for the present, Mrs. Huff taking the boy with her to Iowa where she will stay awhile and Mr. Huff taking the little girl.

ARE SPRUCING UP

Methodists are Making Improvements at Their Church

PAINTING PARSONAGE

Church Will Be Frescoed and a Heating Plant Put in Operation

The Methodists are sprucing up. Painters are now busily engaged in spreading the paint on the parsonage, which was in sad need of such a tonic. It will look fine when the work is done, which will not take long. In addition to this, committees from the church are wrestling with the matter of frescoing the church throughout, and also placing of a heating plant there that will keep the shivers down when the blasts of winter resemble anything but a hot day on the third of August. The frescoing will embrace the whole interior of the church, and will be a much needed addition to the appearance of this house of worship. For some time the membership have been discussing a building project, which will finally terminate in an addition to the present church or an entirely new structure. This will be delayed for the present, but it will not be long until such a project is undertaken. The church is much too small for the present needs of the congregation, especially for the Sunday school needs, but these improvements will likely be delayed for another year or so.

A force of workmen are busily engaged at present tearing down the big gas tank which was constructed by the Kerr-Murray company in the Nuttman addition. It will require at least six weeks to place the tank in condition to hold gas, and will as previously stated, cause the expenditure of \$2,000 extra by the contracting firm.

Notice is hereby given that the undersigned as trustee of Root township, will on Thursday, August 5, at one o'clock p. m. at the Frank Roop farm, let to the lowest and best bidder an allotment of 690 feet of the Peter Holthouse ditch, allotted for cleaning. CHAS MAGLEY, Trustee Root Tp.

ANNUAL ELECTION

The Old Adams County Bank Hold Their Annual Election

DEclare DIVIDEND

The Old Directors and the Old Officers are Re-elected for Another Year

An important election was held in Decatur today. The polls opened at ten o'clock at the Old Adams County Bank, it being the day for their annual election of directors. Previous to the hour named for the opening of the election the directors met and wound up the business for the year just closed, which by the way was the most prosperous in the history of this great banking institution. The board closed their business by the passage of a resolution declaring the usual five per cent semi-annual dividend, and in a few days more the stockholders will be in possession of this amount in interest upon the face of their holdings in stock. The old board of directors were re-elected, they being C. S. Niblick, E. X. Ehinger, Mat Kirsch, John Niblick, J. S. Bowers, Henry Hite and W. J. Vesey. Likewise the old officers were re-elected and they are C. S. Niblick president, Mat Krish first vice president, John Niblick second vice president, and E. X. Ehinger cashier. All of them are gilt edged, and their re-election means that the Old Adams County Bank will continue to grow and expand, be a great bank for a great city, and what is more will continue to make dividends for its stockholders.
