

When the Liver is "On Strike" Don't Neglect Constipation

When the living stream of humanity pours forth "on strike" from the dark mouths of the mining shafts, or from iron gates of the mill, then do the engines shut down and the big machines stop for lack of operators. When the liver, the "operator" of the body, refuses to do its work, and ceases to secrete the bile to aid the digestive organs, then do the stomach and kidneys become overworked and woeeful state of affairs begin. There is dizziness, a dull headache, fickle appetite, coated tongue, dry mouth, chills, vomiting of bitter matter (too much bile) dysentery, diarrhoea, jaundice, and yellow skin. Liver troubles steal upon a person almost before he realizes it and then to make matters worse, the sufferer often uses harsh mineral remedies, such as calomel, which excites and irritates the important organ. The common sense treatment is P.C.W. Special Treatment. It is certain yet gentle in its action. It hurries to rescue of the constipated bowels, arouses them to healthy state; gives aid to congested and disordered liver and soon has the system in perfect shape. The right time to begin treatment of liver ills is when the first symptoms are apparent. Don't wait until your case becomes chronic. Get a package of P. C. W. Special Treatment today. Your money back if it fails to benefit you.
