MOORMAN NAMED

Nominated This Afternoon
For Congress by Republi-
cans of Thirteenth.

ENDORSE BEVERIDGE

But There is Nothing Doing
on the Payne-Aldrich
Tariff Law.

(United Press Service.)
South Bend, Ind., March 31—(Special to Daily Democrat)—John J. Moorman of Knox was this afternoon nominated for congress by the republicans of the Thirteenth district in convention here. The resolution adopted by the convention was most interesting concerning the tariff question, because the only part of the tariff resolution endorsed was the plank for a board of tariff reform and this was only incidental to praise President Taft, inasmuch as to give it a vitality and usefulness. The sentiment for tariff reform is so strong in the Thirteenth district that the endorsement of the Payne-Aldrich bill was out of the question. Senator Beveridge was endorsed. Mr. Moorman is the editor of the Stark County Republican, and one of the best known republicans of the district, having been the district chairman for a number of years. Congressman Henry Barnhart, who will be renominated by the democrats, is the owner of the Rochester Sentinel and until his election to congress was the editor of that paper. He has since leased it but is still regarded by profession as an editor, as is Moorman.

BADLY BRUISED

Dr. Mark Moran of Portland
Meth With Serious Acci-
dent Monday.

THROWN INTO DITCH

Was Dragged Two Hundred
Feet—His Escape Was
Almost Miraculous.

Returning to this city after visiting a patient south of Portland, about 6:30 or 7 o'clock Monday evening Dr. M. M. Moran met with an accident that was remarkable for the fact that he was not more seriously injured, or killed. As it was, he suffered a number of severe cuts and bruises about the limbs and body, and is barely able to be at his office.

As he was on the levee south of College Corner, approaching the city his horse shied and threw the buggy and its occupant into the ditch several feet below. Dr. Moran clung to the lines and caught between the shafts and one of the front wheels and was dragged for a distance of about 200 feet before the horse was finally brought to a stop. A large hole was gouged in the driver's right leg, below the knee, and the knee joint was all but dislocated. A bruise was sustained about the head and the doctor suffered a general shaking up. The rig itself was not badly damaged and was in condition to be driven to the city. —Portland Commercial-Review.

PRIVATE FUNERAL

Edward F. Oliver, Son of
Marion Oliver, Died This
Morning at Monroe.

FROM SCARLET FEVER

Causing Sorrow to Many—
Nineteen Years of Age
—Burial Todty.

Monroe was shocked this morning when it became known that one of its best known young men, Edward Francis Oliver, died this morning at 4 o'clock from scarlet fever, complicated with heart trouble, after but a short illness. The young man was born and reared in that vicinity and was the son of Marion Oliver, the prominent grain dealer of that town. He was a bright young man, with a bright and happy future and his untimely death is sadly deplored by all. Only last summer his mother, Mrs. Ella Oliver, passed away and there survive him his father and two brothers, Chauncey and Homer. A sad feat of the case is that on account of the contagion of the disease the home has been quarantined and the funeral was necessarily private. It was held this afternoon and burial took place in the Decatur cemetery.

ERIE CONDUCTOR IS DEAD.

Capt. J. N. Creamer, veteran Erie conductor and many years a resident of this city, is dead at his farm home near Rochester. He had been in poor health many months and the end was not unexpected. The end came Tuesday morning.

At the funeral, which is to be held Thursday afternoon at 3 o'clock, the I. O. O. F. lodge of this city will be there. The O. R. C. will also attend in a body. The deceased was a civil war veteran and prominent along the entire length of the Erie.—Huntington News-Democrat.

It is said that a buyer has already been found for the bonds and that the actual construction work will be completed and cars running into Portland before the end of 1910.

TRICKS WONT WORK

Senator Aldrich Tries a
Smooth One on the Pro-
gressive Boys.

CUMMINS CALLS HIM

And the Regulars Make No
Attempt to Meet the
Charges Made.

Washington, March 30—Senator Aldrich, who returned from New York last night, today offered the senate progressives a proposition in the shape of proposed "compromise" amendments to the interstate commerce bill. The progressives refused to accept the offering. The alleged concessions were pronounced bogus and notice was served on the senator from Rhode Island that he is wasting his time in trying to bring about an agreement on the basis he now promises.

Soon after Senator Aldrich showed up in the senate today, Senator Elkins, chairman of the committee on interstate commerce, was seen in earnest conversation with him. In a little while Senator Elkins arose and offered a series of amendments to the pending interstate commerce bill, stating that they were approved by a majority of the committee. Senator Cummins was on his feet in a twinkling. He is a member of the committee on interstate commerce.

"I wish to state, Mr. President," said he, "that there has been no meeting of the committee to discuss these amendments. They never have been considered in committee at all. I wish to correct the impression left by the chairman of the committee that these amendments have been agreed to in the committee."

Senator Elkins made no attempt to refute the sharp challenge of the senator from Iowa.

The progressives say that the amendments offered by the chairman of the committee at the instigation of Senator Aldrich will not accomplish the purpose of allaying insurgent opposition to the measure. On the contrary the fight is on to the finish, they say, and the prospect is for at least a month of debate for the progressive opponents of the bill, who are prepared to attack all of its essential provisions.

According to information received by the progressives the amendments offered were prepared in New York at a conference which Senator Aldrich had during the last few days with railroad officials and railroad attorneys. That they were intended as a bait to the progressives there can be no doubt, but not a single progressive could be found today who is satisfied with them or who believes that they reach any of the vital defects in the bill.

Decatur is becoming quite aristocratic—and the tenement owners are beginning to draw the lines of renting quite as tightly as landlords of flats in the large cities—when it comes to the children question. This week a family moved from a house in this city, and it is said that the owner objected to their living in the house because of their one child, a babe a little more than a year old, who is just beginning to toddle around, tramped down the grass on the lawn. Needless to say the owner is an old bachelor.

ADAIR TO SENATE

Is the Plan of District Chair-
man Beebe and Other
Democrats.

SAYS A DISPATCH

Plans May be Further Dis-
cussed at the State Com-
mittee Meeting.

Anderson, Ind., March 31—A goodly sized boom for Congressman J. A. M. Adair as the democratic candidate for the United States senate was inflated here yesterday and will probably be heard from in a meeting to be held by the democratic state committee at Indianapolis. George T. Beebe of this city, who represents the Eighth district in the state committee, said that, should Mr. Adair allow his name to be used in this connection that he would receive the enthusiastic support of the Eighth district, despite the fact that his district has already announced several candidates for state offices.

Mr. Beebe denied today a rumor that the state committee had been called for tomorrow to discuss a proposition recently made by Governor Marshall that the state convention name the candidate for United States senator. Mr. Beebe admitted that this subject might come up, but he explained that at the last meeting of the committee it was decided to hold monthly meetings and that the meeting tomorrow is the regular routine.

GO TO DENVER NEXT TUESDAY.

Charles S. Peterson, who is representing a Denver company and selling irrigated land in Colorado, reports that he will leave here next Tuesday with several parties who are interested in the values to be found in the garden spot. The party will include several business men who will very likely make an investment. The proposition is a good one.

RED CROSS RULES

For Prevention of Accidents
Were Received Today by
Interurban.

POSTED IN CARS

By Conductors—If Followed
Accidents Will be Great-
ly Reduced.

Not only is the Red Cross society devoting itself to the alleviation of suffering, but it is putting forth its whole effort for the prevention, believing that "an ounce of prevention is worth a pound of cure." A number of placards for posting in the cars were received today from the railroad commission by the Fort Wayne & Springfield railway, and were handed out to the conductors who forthwith placed them in a conspicuous place in their cars. The cars bear the heading "American Red Cross. William H. Taft, president." Each is adorned with a Red Cross mark, printed in red, and below, under a lower heading, "Prevention of accidents," with the first words of each sentence, "Never," and "Look," printed in red, are the following rules for the public to observe:

Never reach or lean out of car windows.
Never step on or off of cars in motion.
Never face to the rear in stepping off car.
Look for on-coming automobiles.
Look for on-coming car when passing another.
Look both ways when crossing the trolley track.
Should the public observe these rules it is safe to say the usual number of accidents would be greatly reduced.

WHITNEY'S MUSICAL COMEDY CO.

A Troupe of Thirty Colored Artists
Here Next Week.

The announced attraction at the Bosse, commencing Monday, April 4, is the wonderfully successful "Whitney Musical Comedy Co." the largest and best company of colored artists in the world. It comes to us this season is an entirely new production, embellished with beautiful scenery and costumes and new and novel effects. The singing and dancing in this entertainment are well known features, and from the time the curtain goes up until its final fall there is a succession of popular melodies. As the singing is a feature of this company, so also is the dancing. The eccentricities of such comedians as Salem T. Whitney and Homer Tuft are only made the more side-splitting by the graceful and pretty dancing of the ladies of the company, and the genuine buck and wing dancing of the other artists.
