

Remember Two Things When You Paint:

1. The paint is a small part of the cost. It's the painting that counts.
2. It costs less to put on good paint than cheap, because it's made better.

If you use **LOWE BROTHERS "HIGH STANDARD" PAINT** you get the best results at least cost. You will remember the high quality long after you have forgotten the cost. Get color cards and pamphlets at once.

A SPRING TONIC

Better than drugging the system—better than artificial tonics—more effective in cleansing the system and toning up the nerves—is ten days or two weeks among the picturesque highlands of Southern Indiana at those wonderful and rapidly becoming famous

FRENCH LICK

and
WEST BADEN SPRINGS
on the

MONON ROUTE

and it is MUCH CHEAPER. There are several different springs, having different curative properties. For Stomach, Liver, Kidney and Bowel troubles and their attendant nervous affections, these waters have produced wonderful results. They allay gastric irritation, render soluble in the body substances that are harmful, and thus free the body of them. Their action on the kidneys and bowels, as well as on the skin, corrects the acidities due to various kinds of fermentation in the body.

An excellent adjunct to these waters is the good air and the opportunity for exercise in the open.
Booklet telling all about the waters and giving list of hotels and boarding houses, with their rates, sent free.

YOUR VACATION TRIP

In arranging your summer vacation be sure that part of it, at least, is spent on the Great Lakes. It is the most pleasant and economical trip in America and you will enjoy every minute. All the important ports of the Great Lakes are reached regularly by the excellent service of the D. & C. Lake Lines. The ten large steamers of this fleet are of modern steel construction, propelled by powerful engines and have all the qualities of speed, safety and comfort. The United Wireless Telegraph Service used aboard.

Tickets reading via any rail line between Detroit and Buffalo, Detroit and Cleveland are available for transportation on D. & C. Line Steamers in either direction.

The D. & C. Lake Lines operate daily trips between Detroit and Buffalo, Detroit and Cleveland, four trips weekly between Toledo, Detroit, Mackinac Island and way ports, and two trips weekly between Detroit, Bay City, Saginaw and way ports. A Cleveland to Mackinac special steamer will be operated from June 25 to September 10, leaving Cleveland direct for Mackinac, stopping at Detroit enroute every trip and at Goddard, Ont., every other trip.

Special daylight trips between Detroit and Cleveland during July and August. Send 2-cent stamp for illustrated pamphlet and Great Lakes map.

A RARE COIN.

It is called a "Mistake" and is Very Scarcely Seen.

"See this penny I got today at the postoffice," said the cashier. "There aren't five other pennies like it in the United States."

He handed out a cent piece with the die impression half off the face of the coin and with a big half moon of blank metal showing along one side.

"They call it a 'mistake,'" he continued. "Perhaps once in 20,000,000 times the two little notched fingers on the minting machines that grip the blank disk and draw it forward to the die fall to spring away. In this case the left hand finger struck and pushed the coin halfway over the die. That is how the impression is only half on the disk."

"You can see the raised edge on the blank portion of the metal," the cashier went on as he took up his pen. "It isn't everybody knows that each coin goes under the dies twice. The first time it is struck with a blank, dome shaped set of dies to put an edge on the disk. Then it gets the regular die with the familiar head on it."

"What's it worth?" Oh, I'll say probably \$25 or so. I see it's been in circulation for nine years. It's a wonder some coin collector hasn't nabbed it. I'm going to keep it as a rarity."

SENSE OF HEARING.

Sound Waves and the Way They Act Upon the Ears.

The detection of the direction of a sound by the sense of hearing is, like the rapid focusing of the eye on objects at different distances, one of those instinctive operations which are continually done without any conscious method.

Sound waves traverse the air as ripples stir the water, and the ear by experience acquires some slight power of detecting the direction in one case, as the eye does with far greater accuracy in the other. Usually, we unconsciously receive assistance from other senses as well. Often we fail to locate at once some hidden source of sound, such as a singing bird, and then our instinctive ingenuity displays itself.

The intensity of sound is, of course, by no means so great behind a screen as in front of it, and every one carries with him the screen of his own head, which may prevent a particular sound from being heard so well by one ear as by the other. If, then, the head is turned until this inequality disappears and both ears hear equally well, we know that we must be directly facing or turned from the source of sound, and our previous rough idea of its whereabouts generally prompts us to face it.

Wind and Temper.

There is a closer connection between wind and temper than at first sight appears. A coldish wind has a bracing effect and, on the whole, is beneficial. In countries where hot winds occur periodically, on the other hand, these are regarded as a nuisance, if not a curse. Every one almost gets cross, weary and done up and has a headache daily. In Egypt the season when crimes are commonest is when the hot khamsin blows. Nearly always during a severe storm the Arabs in Algeria were restless, if they did not attempt an actual rising. The solano, which now and then rushes across the Mediterranean in fiery blasts from Africa, upsets every one in Spain and is the worst wind in that country. And even in the Pearl of the Antilles the fierce hot wind is such a pest that it is recorded of a family living in Havana that they made it a rule in the household to preserve absolute silence until the wind disappeared. It was the only plan they could think of to avoid family quarrels.

You Can Have Insured Clothes

THAT'S the kind we offer you in Clothcraft. With each Clothcraft garment goes an insurance policy in the form of a signed guarantee by the maker. And we stand back of it, too.

The guarantee means that your Clothcraft Suit must hold its style—that it is strictly pure wool—that the coat front won't break—that the collar and lapel won't sag or pucker. Think what this means to you.

Yet Clothcraft Clothes cost no more than ordinary clothes which never could stand such backing.
