Congress convened today for the short session. They will probably spend three months and when it's through a few of the 35,000 bills introduced during the past two sessions will have become laws. Some of them are important, a few are for the real good of the people; most of them are not. Among the more important bills to be considered are those which relate to: The Panama canal, federal incorporations, ship subsidy, issuing of injunctions, conservation, Alaska and the bureau of public health. While President Taft will probably do all in his power to secure legislation along most of the subjects mentioned, it is very doubtful if he succeeds.

John L. Griffiths, of Indiana, consul-general to England, has sent tidings from that land which will be greeted with joy by hundreds of thousands who know what tire trouble is. Mr. Griffiths has sent a concise report to his government here in which he tells of the invention of an automobile tire that has all the good qualities of the pneumatic tire, but contains no rubber. He says: "The springs are made of slightly tapered strips of special steel coiled spirally in such a way that the greater part of each turn is within the preceding one, and that under sufficient compression the whole of the inner coils can be forced within the outermost one. To the surfaces of the links which roll on the ground are cemented blocks of a hard composition of fiber and gutta-percha compacted under pressure, and these it is stated, can be renewed when worn away at a cost of 97 cents to \$1.22 for each wheel."

AN OBLIGING SANTA.

Little folks are flattening their noses against the windows of the Steele & Weaver racket store viewing the large display of holiday goods. And why shouldn't they delight to do so? For right there in the midst is a clock-work Santa Claus that nods his head all the time and of course that means that he is promising to bring them the large, nearly life-sized goolly dogs, gray elephant, dappled pony, countless numbers of dolls and other toys shown therein, for Christmas. Most anybody would be glad to look at that kind of a Santa Claus!

The M. E. Ladies' Mite society was largely represented yesterday afternoon at the home of Mrs. Dan Beery, the collection amounting to about \$5. The ladies were jubilant over the fact that this more than made up enough to cover their indebtedness, and they were especially pleased because it was attained in so much less than the allotted time. The society pledged itself to raise \$750 on the church improvements this year, and up to Thanksgiving they had raised all but \$17.50 of the desired amount. This they pledged themselves to raise before the holidays, and they were more than pleased Friday when the report showed that they had more than attained their goal, with a little balance for the treasury.

Mrs. H. S. Lachot entertained the Entre Nous club Friday evening in a pleasant way. The members brought their sewing which busied them for some time, until a physiology contest was in order. Miss Ruby Miller won the first prize in this and Miss Corrine King of Bluffton, the booty. An appetizing luncheon was served during the evening. Miss Goldie Gay will be hostess at the next meeting in two weeks.

Mr. and Mrs. J. C. Sutton and their guests, Miss Ethel Sutton and Mr. Charles Shepherd of Geneva, will comprise a Fort Wayne theatre party this evening.

The members of the Loyal Hearts' class of the Christian church were happily entertained this afternoon by Miss Julia Gillig at her home on First street.

Mrs. Ed Lyons had as her guests at supper Friday evening Edith and Clarence Porter of Chanute, Kansas; Wilbur Porter and E. Cutting.

The Misses Millie Reinking, Edith Cook, Ella Cook and Ethel Smith of Fort Wayne will be guests Sunday of Miss Marie Heckman.

The Misses Eva Erwin and Alice Schroeder of Fort Wayne are guests of the Misses Ireta and Mary Erwin.

Mrs. L. A. Graham was a delightful hostess Friday afternoon to the members of the Euchre club. There were four tables where the players spent the afternoon at cards, these being cleared at 5:30 for the tempting luncheon. The party included Miss Barker of Marion; Mesdames George Flanders, J. S. Peterson, T. M. Reid, Fred Patterson, O. L. Vance, J. W. Tyn dall, J. H. Heller, Charles Meyers, L. E. Steele, M. E. Brackett, Fred Heuer, C. A. Dugan, Misses Minta Acker and Gertrude DeVoss. Mrs. J. H. Heller will be hostess at the next club meeting in two weeks.

WOMEN SHOULD NOT VOTE.

At All Elections, Was Decided at Election School House.

The spelling bee and debate held Friday evening at the Election school house of which Frank Mills is the teacher, was largely attended. There were two spelling contests, one in which all took part, simply "spelling down," and another in which sides were chosen to spell against each other. Two books were given as prizes. The debate followed in which Muri Fulk and William Jackson, for the affirmative, and Frank Mills and Albert Sellemeyer, for the negative, debated on the question: "Resolved, That Women Should be Allowed to Vote at All Elections." The negative won.
