PREPARING

FOR NEXT YEAR

While it is unfortunate that the bill for a new constitution should have the appearance of a mere party measure, there is in truth nothing whatever partisan about the proposed constitution.

The republican legislators who met in caucus Wednesday night, with the Hon. Charles W. Miller acting as guide, philosopher and friend, and very obviously thinking more about the issues of next year than about the constitution this year. It is their purpose to make the case perfectly clear, which is, of course, what they should do. But in their eagerness to embrace the present opportunity they should realize that the bill is one which the legislature has a right to pass, and that it is not "tyranny" for a majority to pass bills, even without debate. It may be unwise, unkind and discourteous, but it is not revolutionary.

Nor will it be easy to persuade the people to think of Governor Marshall as a despot. He is not built on that line. One may question the wisdom

of his policy, or quarrel with his law, but really it is going far to ask the people to look on him as a plotter against their liberties. Nor are the republicans in a good position just now to make much out of the issue. If they had co-operated cordially with the democrats in every effort to get through good legislation, the people would have been impressed with their present "road roller" tactics. But as a matter of fact they have by a large majority antagonized almost every good bill that has been introduced, have combined with the reactionary democrats to prevent good legislation, and have done all in their power, through playing the smallest sort of politics, to put the democrats in a hole. Their action in regard to the registration bill is a shining exception. On bill after bill that was desired by the people the roll call has showed an overwhelming democratic majority for it and an overwhelming republican majority against it. That is the situation.

And so we doubt whether there is much political capital to be made just now out of a protest against the bill for a new constitution, or the action of the governor or the legislature in regard thereto. People will be very likely to think that it is simply another case of playing politics, and some may go so far as to feel that, in view of republican opposition to good bills, republican opposition to the proposed action of the legislature is really something in its favor. Finally we suggest that it is wholly impossible for the people to be enslaved, since the courts are all open, the laws are all in force, and finally the people will themselves have the fullest chance to discuss the proposed changes, not one of which can become effective except on the vote of the people.—Indianapolis News.

With today the legislature practically completes its work. The wind-up will come Monday, but it promises to be a day of horse play.

Thursday was the birthday anniversary of Miss Clara Boknecht, teacher at the Dent school house east of the city, and a large number of the patrons, taking with them baskets filled to overflowing with good things for a noon-day dinner, gave her a surprise call. It is needless to say that a good time was in order, and the day will go down in the history of the school as one never to be forgotten. Miss Clara was the recipient of a fountain pen as a gift from the patrons. Those in attendance were Mr. and Mrs. Cramer, Mr. and Mrs. Burn Wolf, Mrs. Homer Lower, Mrs. Lenhart, Mrs. B. E. VanCamp, Mrs. Ross Wolf, Mrs. Spuller and daughter, Mrs. Workering, Mrs. Louis Murphy, Mrs. Willis VanCamp, Mr. and Mrs. Walters, Mrs. Knavel, Mrs. C. W. Boknecht and daughter, Marie.

The Sunday school class of the Concord Lutheran church taught by Willis Fonner gave a happy surprise for one of the pupils, Arthur Clark, for his nineteenth birthday anniversary at the home of his parents, Mr. and Mrs. Harvey Clark, a large number of other neighbors and friends being in attendance. All varieties of social amusements were called into play and the evening was topped off with a refreshing lunch. Arthur was the recipient of a gold watch fob from the company. Another fine present was a top buggy from his grandmother.

Mrs. Noah Mangold was hostess to the Christian Ladies' Aid society Friday afternoon, a large representation being present. The society is planning for the repapering of the church, interior painting of the woodwork and refinishing of the seats. They also arranged to hold a white sale during the first week in April and also to give a dinner. Delicious refreshments were in order after the business period.

The Mite society of the Methodist church held a social session at the home of Mrs. Walter Kaufman Friday, the hours being spent purely socially, plans for work and material matters being left until after the close of the year which ends in April. The collection amounted to about \$4.50.

Just fifty years ago today Abraham Lincoln was inaugurated president of the United States. An interesting even which occurred while he was enroute from his western home to Washington, D. C., to the inauguration is told by Mrs. W. W. P. McMillen and her mother, Grandma Ferry, of this city. Mrs. McMillen's uncle, Elisha P. Ferry, who was then a prominent attorney of Waukegan, Ill., was a personal friend of Lincoln, and the president-elect stopped over night at his home in Waukegan while enroute to Washington to the inauguration. After Lincoln became president, he appointed Attorney Ferry governor of the territory of Washington, and after this became a state, Mr. Ferry was elected state governor, holding the office until his death. An interesting feature of Lincoln's stay over night at the Ferry home in Waukegan, was that a son was born to the Ferrys during the night, and in honor of their distinguished visitor, he was named "Lincoln." The members of the Ferry family are now living in Seattle, Lincoln Ferry among the rest. Governor Ferry was the brother of Mrs. McMillen's father, and a brother-in-law of Grandma Ferry of this city.

Is the Non-Partisan Movement Now on as Demonstrated at Capital.

TWICE THIS WEEK

Vote on Lorimer and Fight For Election of Senators by Direct Vote.

(United Press Service.)

Washington, D. C., March 4—(Special to Daily Democrat)—Definite advancement of the national non-partisan "back-to-the-people" movement will result from the seating of William Lorimer of Illinois, in the senate and the defeat by the senate of the resolution paving the way for the direct election of senators.

This somewhat paradoxical assertion was the conclusion reached by many keen political students, who have watched the trend of events. Representative Norris of Nebraska summed up the situation in the following statement, written for the United Press:

Copyright 1911 by United Press. By Representative George W. Norris.

Great causes move gradually through a series of apparent reverses, which in the end are proved to have been in reality, advances. Obstacles in the way of a great moral movement become finally stepping stones to its accomplishment. Thus it has been with the "back-to-the-people" movement in politics.

Within the last three days the senate of the United States has solidly placed two stepping stones in the path of the country-wide advance toward political purity—one when it failed to approve the constitutional amendment providing for the direct election of United States senators, the second when it voted to give William Lorimer his seat as senator from Illinois.

On the vote on the direct election of senators, the upper house of congress for the first time went on record regarding the long-sought reform. The measure failed by four votes, and its failure showed its advocates, their strength and its weakness. It is a
