Going Over Factories, Workshops, Public Buildings, Etc.

Thomas S. Williamson of Anderson, deputy state inspector of factories, work shops, laundries, mercantile establishments, printing offices, bakeries, hotels and public buildings, is in Decatur, paying his annual visit here in the interests of the state department of inspection, duties which require about three days' work in this city. Mr. Williamson reports that he finds the conditions of the buildings here, which come under his inspection, better than the average, but in cases where they are not quite up to the standard, suggestions for the required improvement are taken very willingly.

Two Propositions For Extending Interurban South

Either to Geneva

OR TO PORTLAND

Stockholders Leave Working Out of Plans in the Hands of Directors.

The meeting held by the ninety or more stockholders of the Fort Wayne & Springfield railway company, at the assembly room in the interurban building, Wednesday afternoon, was an enthusiastic one, at which propositions for the extending of the road south were discussed. Two very good propositions for the building of the road south—one for the building to Geneva and the other to Portland, were found very satisfactory, and it is quite sure that one will be taken up as soon as possible. Just which one, however, was not decided upon and this was given over into the hands of the fifteen directors, who will hold a meeting about April 1st, and decide which can be best put through. After the decision, the work on the building of the line will begin at once. About forty-five of the Ohio stockholders were in attendance. These were brought over in a special interurban car sent from here to St. Mary's, Ohio, the day before, the Ohio stockholders returning home at 7 o'clock Wednesday evening over the Clover Leaf.

Peter Kirsch was given a very complete surprise Wednesday evening at 6 o'clock when he returned home for supper and found a table sumptuously spread, and the members of the Sunday school class of the German Reformed church of which he is the teacher, waiting to partake of it with him. The class includes Willie Nyfeler, Harold Kirsch, Henry Weidler, Emma Weidler, Agnes Sellemeyer, Effie Miller, Hulda Mutchler and Lydia Kirsch, and two other guests who were present were Edgar Mutchler and Lulu Gerber. The class had its picture taken before the event and this was presented to Mr. Kirsch Wednesday evening, and will long be a prized remembrance of his class and the esteem in which they hold their teacher. A post-card shower was also given Mr. Kirsch, he receiving a large number from his class as well as other friends. After the supper, the class went in a body to the German Reformed church, where Lenten services were held.

Friday evening, beginning at 7:30 o'clock there will be given a reception to all members of the Methodist church and congregation at the church parlors. The ladies of the aid society, under the leadership of the president, Mrs. John R. Parrish, have kindly arranged to furnish the refreshments and will be assisted in serving by the young ladies of the Queen Esther Circle, of which Mrs. Daniel Sprang is superintendent. Good music will be furnished throughout the entire evening by different persons. The object of the reception is that the members of the church and congregation may have an opportunity to become better acquainted and enjoy a pleasant social evening. The pastor and official board cordially invites all members of the church, with their families, and also those who attend
