### ADVERTISE

Dear fellow struggler, nobody—absolutely nobody—cares a rap about your little game of solitaire but yourself and your wife and the babies. You see the most of them have their own selves and their own wives and their own babies and their own troubles to worry about. John Smith is specializing in Johnology, and Henry Jones is cramming up on Henryometry. Each man has his eye on the road in front of his own machine, and isn't worrying about your gasoline supply or the mixture you're getting in your own little selfish carburetor. Your only hope of staying out of the ditch lies in holding on to your own wheel and steering straight ahead. Don't waste time on your competitors—boost your own game according to the rules and rule one is blow your horn, keep to the right, and display the big letter "I" on your radiator. Brass Tacks.

Root township is voting on the local option question today. The early morning rain, which made the ground too wet to work, brought out more votes than would have otherwise been cast and makes the result even more doubtful, perhaps.

Washington township in Whitley county, voted a tie on the local option election Thursday and will have to do it over again. The "drys" won in

township elections in Brown, Montgomery and White counties.

## WESTERN UNION

CONTINUED FROM PAGE ONE  
Geneva & Celina company and made a comprehensive statement before the board.

Five copies of the 1911 acts are being sent to the members of the legislature, this being a custom of long standing, and one, too, that we presume will always be carried out. Since the various counties in the state have received their allotment the work of sending out the number assigned to the state institutions, libraries and courts is being taken up. This will soon be disposed of and then the work of the last legislature will be complete. There is a great demand for single copies of the acts, and it would seem at present writing that a second edition will be necessary if this demand is supplied. This demand comes from the fact that there was some important legislation enacted at this session, for instance the new constitution, the registration, corrupt practices, Proctor local option and regulation, besides many important acts relating to schools, public health, etc.

Senator Kern is expected home this week for a few days' visit with his family. His coming is in no way being taken advantage of by his friends to add to the boom started for him for the presidency. Senator Kern himself is giving this matter no serious thought. On the other hand he is serious in his desire to see Governor Marshall a formidable candidate, and it is not unlikely that while the junior senator is at home, that he will set off the fireworks for a genuine, blown-in-the-bottle Marshall presidential boom. Many of the governor's friends are not only becoming impatient but insistent that the time is ripe for the Indiana democracy to declare themselves. They want the word to get out to the world at large, that the Indiana democrats intend to organize every state in the union, and to organize them in behalf of Indiana's governor for president. They not only want the word to go out, but they want such an organization made, made, too, regardless of the time it takes or the cost.

District Attorney Frederick Preparing Papers in the Dynamiting Case.

### ORTIE'S CONFESSION

Says That James McNamara Was the Man Who Really Did the Dynamiting.

(United Press Service.)

Los Angeles, Cal., April 28—(Special to Daily Democrat)—With all the alleged details furnished by Ortie McGanigal in his confession, District Attorney Frederick today began preparing the state's case against John J. and James McNamara on charges of dynamiting the plant of the Los Angeles Times. In his confession McGanigal declares that James McNamara dynamited the plant alone and the others mentioned were not in Los Angeles at the time, being guilty only as accomplices, in furnishing the dynamite, which was secured from the Giant Powder company. Attorney Harriman for the defense, says he has positive proof that McNamara has been in close touch with Detective Burns and has received money from him.

Indianapolis, Ind., April 28—(Special to Daily Democrat)—Leo M. Rapaport, counsel for the International Association of Bridge and Structural Workers, left today for Los Angeles, where he will take preliminary steps for the release of the McNamara brothers. Before leaving he asserted that he did not believe the trial would be held for many weeks. He said Attorney Rarrow of Chicago will aid him.

## Try This Test in a "Wear-Ever" Aluminum Utensil

Cook to dryness over heat. Then cover a long time. Burn the tomatoes ten minutes. Then pour in boiling water, increase the heat, boil a few minutes and clean out with a wooden spoon. The utensil will not be injured.

WHICH are you anxious about when you smell food burning —loss of the food or loss of the utensil?

Food may be burned in aluminum utensils, if too much heat is applied; but the burning has no effect whatever upon them.

Less fuel is needed when cooking in "Wear-Ever" utensils. They heat quicker and retain heat longer than other cooking utensils and food cooked in them is less liable to scorch.

Each "Wear-Ever" utensil is made without joints, seams or solder from thick, hard sheet aluminum, 99% pure. Cannot form poisonous compounds with acid fruits or foods, cannot rust, cannot chip or scale, practically indestructible.

Replace utensils that wear out with utensils that "Wear-Ever".

A Conservative Financier estimates that the buying public of this country will absorb 150,000 automobiles this season.

During 1909 and 1910 the Ford output of model T cars was 30,454, of which approximately 20,000 were produced last year.

They intend manufacturing and selling 30,000 during 1911 of the same tried and true Model, one to every four of all other makes combined, using the above estimate of this country's consumption.

They shipped during February this year 3,014 cars. They are now well behind on deliveries on all models and with the advance of spring will go farther behind.

To the Wise who intend buying and driving new Fords this season will need but this one word as a protection on placing an early order.

If you are in the market for a high grade car get a Demonstration on a Ford Model T.
