...for the fellow that wants a lot of warmth and not much weight is our 8 inch felt shoe with a leather sole and heel. You can fit them with any kind of an artic, alaska or rubber sandal and have the warmth of a felt boot and have no more weight than a light shoe. Another advantage is that you can slip a clean alaska or sandal over them on sunday or when you come to town and you can't tell but what you have on a dress shoe. Considering the amount of wear and comfort you will get out of them the price is most reasonable too
