IN MEMORIAM.

(T. W. Watts)

The days to come and the hours of night
Shall speak of his deeds and his stand for right;
His life was noble and ever most true,
An example for us, We take courage anew.

"Dead, yet liveth" is the word of old,
More fitting tribute can never be told;
His work, though quiet, was work without fear,
His greatest bequest was loyalty here.

say?
"The call of duty is God's call. Obey. Speak to us, friend, and what wilt thou
Though pathway be strewn with
thorns that bring pain,
The privilege to serve others may
ne'er come again."

This princely brother with spirit fine,
Has left us hope and thoughts sublime;
So cherish we now his memory long,
Though voice be stilled, from us he's
not gone.

Ours to remember and ours to honor,
Kindness to think of and thoughts to
ponder;
We gather from each a vision of
"Light,"
Death takes us homeward, for death
is not "Night."

SCHOOL CHILDREN STRIKE.

(United Press Service)
Pittsburg, April 21.—(Special to
Daily Democrat)—Forty school chil-
dren struck in Allegheney this after-
noon and formed a straggling parade
carrying banners on which was inscribed
"Kick out Heeter." Since charges
were made against S. L. Heeter by
Ethel Fisher, and which resulted in in-
dictments being filed against him and
his acquittal, it has caused much gen-
eral dissatisfaction in certain quarters.

PROGRESSIVES WIN FIGHT.

(United Press Service)
Indianapolis, April 21.—(Special to
Daily Democrat)—The bull moosers
won the legal fight of placing their
member on the primary board when
Judge Remster ordered the city clerk
to appoint a progressive member on
the board in place of a republican. The
case hinged on the clause "Last pre-
ceding election." The progressives
contend that it meant the last general
election, while the republicans con-
tended that it meant the last city elec-
tion.

BUY POP CORN MACHINE.

Joseph & Lang, proprietors of the
ice cream parlor, have purchased a
new and handsome pop corn machine
and peanut roaster combined. The
machine is of the latest make, it being
made entirely of nickel-plating and
glass, and is the only one of its kind
in the city. It is operated by electric-
ity instead of a gas engine, as the roas-
ters that have formerly been made.
The pop corn has no chance to burn
and the peanuts will be roasted in the
city. Joseph & Lang intend to do a
big business with this machine and as
soon as the weather permits they will
set the outfit outside of their place of
business.

"HOWDY" ENTERS RACE

HOWARD WILCOX.

Howard Wilcox, who has been nom-
inated to drive the Fox Special in the
third annual 500-mile International
Sweepstakes Race at the Indianapolis
Motor Speedway, May 30, is an Indi-
anapolis man, who has been driving
racing cars ever since he was a young
boy in short trousers. He won the
first race he ran, which was the Five-
mile Southern Championship at New
Orleans in 1909. He holds the world's
record for the stock chassis beach
straightaway mile, which he lowered
to 40.32 seconds. He also holds the
record for the five-mile beach cham-
pionship which he made over the At-
lantic Pablo course in 3:56:82. Wil-
cox is generally known throughout the
racing fraternity as "Handsome How-
dy."

EUROPE SENDS CARS

INTEREST IS AROUSED OVER EN-
TRY OF FOREIGN RECORD
BREAKERS.

Famous Drivers to be Seen at Indi-
anapolis Speedway on May 30.

For the first time in the history of
American automobile racing, several
of the greatest European cars will
start at the beginning of the
third annual 500-mile International
Sweepstakes race at the Indianapolis
Motor Speedway, May 30. Foreign
cars have been seen in this country
before, but they were not the cars
which have made the sensational re-
cords abroad. However, with the en-
trance of an English Sunbeam and two
French Peugeots, matters have taken
another turn, for these cars are the
ones which have distinguished them-
selves both on the Brookfields track,
in England, and in the great French
Grand Prix race.

It has long been the desire of the
Indianapolis Speedway management
to have these cars represented in the
500-mile race, and last autumn Charles
W. Sedwick, director of events at the
Speedway, went to Europe in order
to interest the European manufactur-
ers in the great American event. After
leaving Indianapolis Mr. Sedwick
spent several days in New York where
he sought the advice of men who had
an intimate knowledge of European
automobile affairs. When he told
them that he hoped to arouse the in-
terest of the Sunbeam and the Peu-
geot Company in the Indianapolis
race, and that he desired to induce
them to enter their cars he was
laughed at.

"Don't you know," said one automo-
bile authority, "that you are not the
first man to go to Europe on such a
mission as this? Why, practically ev-
ery race association in the country
has made an effort to secure Sunbeam
and Peugeot entries, but they have
never succeeded. I would advise you
to save your time and your boat fare,
for I know it will not be long until
you are back in New York, and that
you will tell me that I was right."

But Charles W. Sedwick was too
enthusiastic over his project to let
such advice as this dampen his ardor.
"You may be right," he told his
well meaning friend, "and if I find
that you are I shall be perfectly will-
ing to acknowledge it, but I am going
to try anyway, and then if I fail I will
at least have the satisfaction of know-
ing that I have done my best."

He proceeded on his way, and no
sooner had he arrived in Europe than
he sought out the heads of the great
concerns which manufacture the most
celebrated of the European cars. He
went to them in a direct and business-
like way. He told them of the Speed-
way and showed them photographs of
it, and he gave them an awful sur-
prise, for the average European can
not imagine that there is a track in
the world which is greater than the
track at Brookfields. Mr. Sedwick
proved definitely that faster time
could be made on the Indianapolis
Motor Speedway than could be made
at Brookfields, and that by entering
the 500-mile race on May 30, the Eu-
ropean manufacturer would have the
opportunity to pit his cars against the
very best cars manufactured in Amer-
ica, and that the European drivers
would be able to match their skill and
science against the skill and science
of the American veterans.

It did not take long for the foreign
manufacturers to see the logic of Mr.
Sedwick's arguments, and when, at
the end of thirty days Mr. Sedwick
sailed for New York again, he had
been given the practical assurance
that both the Sunbeam and the Peu-
geot factories would begin building
cars which would measure up to the
technical standard required for the In-
dianapolis race. Word has been re-
ceived that the car has been completed
and is showing up splendidly in the
tests which are being made of it. It
is now ready for the driver who will
bring it to America, and that driver,
by the way, is no less a man than the
veteran Frenchman, Guyot, who has
won more honors than any other driv-
er in Europe and who is an aviator
as well as a motorist. The Peugeot
company have also sent their formal
entry papers the cars they send will
be driven by Goux and Zucarelli, both
of whom rank among the great drivers
of the world.

GARDEN SAGE DARKENS GRAY HAIR SO NATURALLY NOBODY CAN TELL.

Restores Its Lustre, Prevents Scalp
Itching; Dandruff and Falling
Hair.

That beautiful, even shade of dark,
glossy hair can only be had by brewing
a mixture of Sage Tea and Sulphur.
While it is a messy, tedious task, it
well repays those whose hair is turn-
ing gray, faded and streaked.

Your hair is your charm. It makes
or mars the face. When it fades, turns
gray and looks dry, wispy and scraggly
just an application or two of Sage and
Sulphur enhances its appearance a
hundred-fold.

Don't bother to prepare the tonic;
you can get from any drug store a 50-
cent bottle of "Wyeth's Sage and Sul-
phur Hair Remedy," ready to use.
This can always be depended upon to
bring back the natural color and lustre
of your hair and is the best thing
known to remove dandruff, stop scalp
itching and falling hair.

Everybody chooses "Wyeth's" Sage
and Sulphur because it darkens so
naturally and evenly that nobody can
tell it has been applied. You simply
dampen a sponge or soft brush and
draw this through the hair, taking one
small strand at a time which requires
but a few moments. Do this at night
and by morning the gray hair has dis-
appeared and after another applica-
tion it becomes beautifully dark and
appears glossy, lustrous and abun-
dant. It certainly helps folks look years
younger and twice as attractive, says
a well known downtown druggist.

Pity the Unpainted House!

Would you go out in the pouring rain wear-
ing your best clothes if you had no protection
such as an umbrella or raincoat? Not if you
could help it, you say.

Yet some people expose expensive material to
the elements without adequate protection.
The building material in your house is ex-
pensive and should be protected. Otherwise
it will be ruined as surely as the fine clothes
you wouldn't wish to wear out in the rain.
