

PRINTYPE

Receives the Plaudits of the Public

Vigilant Protector of People's Eyesight Hailed as a Benefactor by many thousands of Enthusiastic Admirers. "Officer Printype" Responds with becoming modesty.

Officer Printype says: "I am overwhelmed by the ovation which has greeted my appearance in your midst. I am simply doing my sworn duty in ridding the Business and Financial Districts of the Bad Characters that for years have made Typewriters a menace to your eyesight. I have mercilessly exposed and relentlessly pursued these dangerous Typewriter Types, which are responsible for more cases of Defective Vision than all other causes combined.

"Report direct to my Headquarters in the Oliver Typewriter Building, Chicago, any machine whose type is violating the Optical Law and I'll have the offender haled before the Court of Public Opinion."

**Printype—
OLIVER
Typewriter**

Printype is owned and controlled exclusively by the Oliver Typewriter Company

America rings with praise and applause for Printype. This superb new typewriter type has attracted more attention than any typewriter innovation brought out in recent years.

Hundreds of thousands of people have seen this new type and wondered what it was that made Printype Correspondence seem like a spoken message. There's virility, strength and charm in Printype correspondence. There is refinement and "class" and style.

Not because of its novelty—it's inherent in the type!

A VAST IMPROVEMENT

Printype is designed in shaded letters and numerals, like the new type in which books and magazines are printed. It is book type transformed and adapted to modern typewriter requirements.

This radical departure from the old style "outline" letters makes it possible to produce on The Oliver Typewriter, a page of manuscript as clear and attractive as that of the finest book. The Oliver is the first and only typewriter that successfully prints print!

THE PRIMARY REASON

Printype resulted from our discovery that "outline" type, with its sameness, due to absence of shading, was harmful to the eyes.

THE SILENT TEST

For months, without any advertising, we put hundreds of Printype "Oliver Typewriters" into actual service, in many diverse lines of business. We wanted the public's verdict. It came in a burst of admiration and a flood of orders that proved Printype a brilliant success.

Printype letters, wherever seen, excited the keenest interest. Business men who received their first Printype letter almost invariably answered, post haste, "Where did you get that type?" Thus Printype captured the country without firing a single shot.

PRICE NOT ADVANCED

The Printype Oliver Typewriter sells for \$100. You can pay at the rate of 17 cents a day. The "Printype" is our latest and best model. The new type adds 25 per cent to the value, but not one cent to the price. A small cash payment brings the machine.
