### ATTENTION, FARMERS.

We are making and have for sale a high grade tankage for stock food and especially for hogs, containing a large per cent of portine. This food is claimed by our experiment stations and by the farmer and feeders of the country as a very profitable feed, in addition with corn, during the winter season, when hogs are shut up and the ground is frozen. We are selling it at \$40.00 per ton, which is from five to ten dollars less than packers and stock dealers are asking.
