WED SATURDAY

Miss Bertha Spangler Became Bride of Rev. Karl Thompson

THE REV. KENDALL

Officiated Saturday Afternoon at 3:30 O'clock at Spangler Home.

The wedding of Miss Bertha Spangler, daughter of Mr. and Mrs. S. J. Spangler of Root township, to Rev. Karl Thompson, former pastor of the Decatur Methodist circuit, took place Saturday afternoon at 3:30 o'clock at the Spangler home. The only witnesses were the bride's family, the groom's parents, Mr. and Mrs. J. H. Thompson and his brother, Homer Thompson of LaGrange. The Rev. Kendall of Dun kirk, solemnized the wedding.

Rev. and Mrs. Thompson left for LaGrange for a visit at the groom's parental home for a week or ten days. They will then go to East Waymouth, Mass., where they will reside during the time that Rev. Thompson is a student at the theological seminary at Boston, where he will finish the course in two winters.

Miss Spangler is a charming woman, fitted in every way to be an assistant of her husband in his life work. She is an accomplished musician and has been the organist of the Mt. Pleasant church, where the groom was former pastor. She was a student in the Decatur high school from which she was graduated this spring. Rev. Thompson is an excellent young man of ability, fine character and earnest in his work. He resigned his pastorate here last fall to enter the theological school at Boston, where he has been a student during last winter, to fit himself further for his profession.

The following officers were re-elected: Norma Hickam, Grand President; Mary Hicks, Grand Vice President; Beryl Showers, Grand Secretary; Alice Dryer Ballou, Secretary; Bess Kinsley, Treasurer. The Union City Eagle says of the closing event: "The dance given by the K. K. K. fraternity at the new Thornburg garage on Pearl Street last evening was a brilliant success in every sense of the word. The sides of the room were decorated with peach blossoms and suspended from the ceiling were several tastefully arranged hanging baskets. The music was furnished by the Park or Saxophone Trio of Columbus, O. In the words of George Ade, 'It was some music,' and all enjoyed their selves to the utmost. Mr. and Mrs. Bert Kulp gave a very pretty and graceful demonstration of the Viennese Hesitation and the One Step. Mr. and Mrs. Kulp are considered among the very best dancers in Western Indiana. About two hundred and fifty people thronged the floor and gave hearty applause to the magnificent trio which furnished the music and which was forced to respond again and again to encores. This was the closing event of the splendid Tri Kappa convention and this morning the visitors left for their respective homes."

HOOSIER LADS

From Pleasant Mills are Given Write-up in Mt. Carmel (Ill.) Paper.

ARRIVED THERE

Safe and Sound—Have Traveled 475 Miles in 10 Foot Row Boats.

The following from the Mount Carmel (Ill.) Republican tells another chapter in the lives of the two Pleasant Mills boys who are sailing down the rivers to the Gulf of Mexico. The headlines read: "Hoosier Lads on Long Trip: traveling hundreds of miles by water in ten-foot boats." The article says:

The Republican office had as visitors Tuesday John Boner and Ralph Fuller, two youths from Pleasant Mills, Ind., who are now making a trip by water from Bluffton, Ind., to New Orleans in row boats only ten feet in length, a feat never before attempted in such small crafts.

Each young man has a separate boat and the boats which are of cypress, were designed and built by them. The boats are especially equipped with wave guards and it is claimed by the owners that it is almost impossible for the boats to over turn. Waves four feet high have been ridden without the slightest danger of capsizing. The boats are also equipped with folding tops, similar to those used on autos, and at night these tops are raised, making excellent sleeping quarters in the boats. If desired, the tops may also be used during the day time as protection from the hot rays of the sun.

The boys left Bluffton June 8 and since that time have traveled about 175 miles, stopping one day at Huntington and two days in Vincennes. They left here Wednesday morning, expecting to reach New Harmony this evening. On leaving the Wabash river they will continue their journey to Paducah, Ky., where they expect to find employment (all fall), leaving Paducah in September to complete their journey down the Ohio and Mississippi river to New Orleans.

The object of the young men's trip is to see the country and have a general good time, and to add to the novelty of the trip they decided to use only ten-foot boats.

As the ordinary row boats are from 16 to 20 feet in length it may readily be seen that they have a real venture some trip ahead of them.

AWAY WITH AGE LIMIT

THEORY HAS BEEN PROVED TO BE AN ABSURDITY.

Many Notable Instances of Men Who Have Done Their Best Work After What is Looked on as Middle Age.

Though Sir William Osler persistently denies that he ever advocated what is known as Oslerism, it is a convenient and euphonious name for a theory as to old age, and Oslerism it will remain so long as there is life in that fallacious doctrine. He explains that in an unguarded moment he quoted a foolish jest from a forgotten novel, but being a physician he was taken seriously. However, our sympathy for him should be qualified by the fact that his mistake has given him a far wider reputation than any of his achievements in medical research.

Who it is a joke must bear its consequences, and these should not be so painful to a man who had the pleasure of seeing his mother smile at Oslerism in her hundredth year, and who at sixty-five boasts that he is doing better work than at thirty.

Gladstone at forty expressed the opinion that no statesman could be of real service to his country after passing the three-score mark, but his brain was never clearer than when at eighty he was the most important factor in British politics.

Some men only begin to live or to do their best when they have reached the stage usually spoken of as that of the grey and yellow leaf. Innumerable instances might be cited, but perhaps the most conspicuous is that of William de Morgan, the foremost English writer of today, who wrote his first work at sixty and whose humor becomes the more youthful the older he grows.

And here is our own John Burroughs, world famed as a naturalist and author, planning new volumes on his seventy-seventh birthday. Age has not withered his imagination nor weakened his enthusiasm in the cause of natural history, while his latest work has all the freshness that marked the effusions of two-score years ago.

It is time that men ceased to limit not merely their activities, but their lives as well, because of the superstition that old age necessarily means feebleness. Those who are actually exhausted may not deny the fact, whether they are forty or eighty, but there are many who are only victims of the suggestion that at a certain period they must begin to decline. Let those latter learn of Burroughs and others that suggestion can cut both ways and is just as effective when conducting to the belief that it is never too late to do good work and enjoy life.

Big Hands Saved Him.

Attorney John Cronin was appearing for a client charged with picking a pocket. The government's chief witness had evidently read detective fiction. He described at length how he, standing quietly by, had seen the prisoner slip a slim fingered hand into the victim's pocket. He described the perfectly manacled hand and tapered fingers of the alleged pickpocket's hand minutely, just as it goes in a detective yarn.

Then Attorney Cronin opened his defense. "My defense consists of 'Exhibit A.' Mr. Prisoner, hold out your hands." The prisoner, a six-foot man, did so, showing the jurors a pair of huge hands with gnarled fingers, which would have done justice to a bricklayer.

"The witness called those fingers long and tapering, gentlemen," said Cronin. "Now I want you to look at them and tell me if you think that bulging chap could get hands like those in the subway, let alone a person's pocket!"

The jury returned a verdict of not guilty.—Boston Traveler.

Pictorial Hint.

On the retirement of a rich manufacturer, who had been consistently stingy in his business career, his workmen presented him with an illuminated address, smartly designed by one of their number.

He was obviously touched by the gift, and acknowledged it in a neat little speech.

"But there's one thing about it I can't quite understand," he added. "What does that little sketch in the corner represent?"

"That's a picture of you giving your workmen a supper," the artist explained.

"But I never did such a thing in my life!"

"I know that, sir, and my mates said you never would; but I thought I'd put it in, just to give you a sportin' chance of provin' 'em all wrong."

The chance was taken, and the farewell supper was a great success.

Literally.

A scholastic journal gives this story as "strictly true." A class had studied the first chapter of Acts, concerning the election of a new apostle.

"And how was Matthias chosen?" asked the instructor.

"They all jumped on him and kicked him," replied the bright boy of the class.

"Whatever put that idea into your head?" inquired the teacher.

"Well, sir, you told us 'You read to us that 'the lot fell on Matthias'!"

EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.
