Hot weather. Most too hot to fuss and worry and fret and stew. Take it cool or at least put it off until the frost is on the pumpkin. This is one time of the year when a fellow who has to stay on the job feels more than usually spiteful against the rich who can idle away their time at the seashore.

The Evansville Courier gave two prizes for the best article written by members of the Indiana Democratic Association describing their recent visit to that city and the awards have just been made. First money, \$25.00 was divided between Mrs. A. D. Moffett of Elwood and Frank Gwin of New Albany and second prize went to George R. Griffin of Spencer.

We do not wish to "crow over" the old school of diplomacy, but it will sadly learn a lesson from the Washington schoolmaster. Its mistakes were natural from its point of view, which is the old point of view and the worldly point of view. Its disciples failed to see that there was another and a wiser and better viewpoint. They failed to appreciate the fact that it pays quite as well in international affairs as in individual affairs to consider the moral side of questions. And they failed, finally, to realize the true conditions in Mexico and to see that only a policy as the president's offered the hope of a permanent cure for a situation which it was to the interest of Europe as well as the United States to bring to an end. Though Mexico is not yet out of her troubles, Mr. Wilson has helped her forward mightily by peaceful means on the road toward permanent liberation and stable gov-

ernment. And every step which she takes in that direction will be as much for the benefit of other countries as for her own. Thus the policy which the old-fashioned builders of nations rejected promises to become the head of the corner with constructive statement of the future, and the desired diplomatic amateur has rendered a double service to Mexico and the world—the establishment of a standard of peaceful diplomacy which conserving and practical interest makes duty and obligation the first principle of the international code.—Baltimore Sun.

Rapids, Mich., was found dead today in his cell. He had cut his throat with a shoe shank. Prison officials will make no statement. Robinson was found lying in a pool of blood. He had made no outcry. At six o'clock an hour before the body was found, the guard pronounced him in normal condition.

played with the Western association. Blouvelt, an ex-player in the Central league, also of Fort Wayne, will be placed in the outfield. Kimbal of Elkhart has been secured to hold down third, and Shively of the Auburn Reds, one of the fastest amateur clubs in the state, has also been secured. The local team has recently been organized and with Henry Thomas as manager will be known as the White Stag team. A complete shake-up has been given the team and with Ed Coffee as captain, new spirit has been infused into the team that will make it a sure winner. The team will also be strengthened for Sunday's game and with Cashdollar as pitcher and several new faces in both in and outfield, the two teams will be about equal in strength and will put up a battle royal.

Although the ball fever has not been very strong this season, owing no doubt to the class of ball that has formally been played, the new organization will endeavor to instill new life into the national game by securing only the very best teams, and giving the fans the very best of playing that is in them. To make this a success it behooves every fan to get up on his toes and boost. Incidentally it might also be a good thing if every body who witnesses the game would come in through the gate and leave their quarter. Of course money is not really necessary to run a ball team.
