Eighteen car loads of horses enroute from the west to Canada, via Detroit, passed through Ft. Wayne in a Wabash freight train. Astronomers of the naval observatory are observing with keen interest the activities of Delavan's comet, says a Washington dispatch, which is now visible to the naked eye and which will remain visible throughout October. It may be seen about 10 o'clock on clear nights at a point almost directly below the pole star. At that time the comet is low in the sky. As the night wanes the comet rises higher in the heavens, and in the early morning between 2 and 4 o'clock it reaches its greatest altitude above the horizon. Then, it is said, is the best time to observe the comet.

It has been remarked repeatedly that, notwithstanding the exaggerations of his imitators, Sousa is the sanest of the bandmasters of the generation. He eschews the meaningless and wholly theatrical mannerisms which are effected by so many other leaders for the sole purpose of attracting attention and eliciting comment. Sousa leads with an easy grace that seems to be a part of the music he is conducting, yet with a masterful precision which absolutely controls the wonderful body of musicians banded together in his name. The programmes presented by Sousa and his Band always contain something new, and we are wondering what special treat will be offered when they appear in Ft. Wayne Wednesday, afternoon and evening at the Majestic Theatre.

Miss Vera Richardson of Fort Wayne visited here with friends. William Jackson went to Fort Wayne today noon.
