DEMOCRAT WANT ADS PAY BIG

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

TRAITS OF THE SCANDINAVIAN

Writer Sees Sweetness in Their Nature, But It Is Seldom Visible on the Surface.

There is sweetness in the Scandinavian nature, but you reach it deep down past flint. The late Governor Johnson of Minnesota drew people because he had imagination and tenderness—traits none too common among his people. They are undemonstrative in the family, and it is not surprising that their youth on the farms are restless from heart hunger. Besides, there is dearth of recreation. The Norwegian has his violin, but the Swedish folk dances we hear so much about were not brought in by the immigrants. They lack the German Maennerchor, Turnverein and Schuetzenfest. It is unusual to find them organizing athletic sports. Their social gatherings center in the church, which, of course, acts as a damper on the spirits of the young. They love fun, to be sure, but have not the knack of making it. Shut up within themselves, hard to reach, slow to kindle and dominated by an austere hell-fire theology, they are too often the prey of somber moods and victims of suicide and insanity.

An experienced social worker finds selfishness the besetting sin of the Scandinavians he deals with. If a settlement class gets a room or a camp it objects to any others using it. In any undertaking they have in common with other nationalities they try to get the best for themselves. They withheld aid from the distressed of another nationality, while the Irish will respond generously to the same appeal. A labor leader notices that the Scandinavian workmen are "hard givers."

On the other hand, an observer remarks: "For a suffering person, circulate your subscription paper among the Irish; for a good cause, circulate it among the Scandinavians."—Century Magazine.

SEEMED A LITTLE SUSPICIOUS

Might Have Been Nothing in Remark Mother Made, But Mr. Nextdoor Understood It.

"It is a wise plan, when there is any necessity for keeping a thing secret, to say nothing bearing upon it before the children," said a gentleman who is not now on the best terms with his neighbor.

"I had a bed of very choice geraniums for which the cat from next door evinced a liking. It admired them, not from the path, but from various positions in much closer proximity, which was not exactly good for the geraniums.

"My advice to the owner of the animal to keep the cat at home was received in none too friendly a spirit, but I bore with the nuisance for some time, till my patience gave way, and one day the cat vanished.

"Next door did not charge me with any crime. He was far too astute a gentleman. Instead, he lured my youngest boy around to his garden with some cherries.

"Your father hasn't by any chance been saying anything about cats, at home lately, has he, George?" he asked.

"George shook his head.

"Nor your mother, eh?"

"Not a word," replied George.

"Only when father was cleaning his gun last night, she said she thought we could risk leaving the milk jug on the steps this morning."

Wing Shun's Note.

A woman going away for the summer received the following note from her Chinese laundryman, to whom she had sent word that he need not call at her house for laundry work until her return in the autumn:

"Dear Lady: Wing Shun sends sorry regrets on you go away. Hopes you have happy good time and need some more washing and you get home. Glad to wash you some more then. All business dull in summer time some more for so many like you to go off and stay one, two, three some four months. Bad for Chinaman; good for lady. I hope you write me letter or say on telephone when you return back all dirty clothes in trunk and I come some more.

"With love,
"Wing Shun."

Vera Cruz in the Sixteenth Century.

Robert Thomson, merchant, visited Vera Cruz in 1555. It had then not more than three hundred households. "This town," he wrote, "is subject to great sickness, and in my time many of the Mariners and officers of the ships did die with those diseases, there accustomed, and especially those that were not used to the country, nor know the danger thereof, but would commonly go in the Sunne in the heat of the day, and did eat fruit of the country with much disorder. . . . Whereupon they were cast into a burning ague, of the which few escaped."

Ancient English Trees.

Undoubtedly the most remarkable and interesting group of trees in England is that which is known as Burnham Beeches, near Windsor. It is probably a fragment of the ancient forests of Britain, and many of the trees, hollow to the core, must be very old. It is a matter of history that these trees were pollarded—that is, they had their heads cut off—by Cromwell's Ironsides, who wanted wood for gunstocks, so they must have been remarkably well grown even then.

HIS TURN TO MAKE MISTAKE

John Dawson May Have Meant to Be Neighborly, or Perhaps He Thought He Had Bargain.

Sam Showalter was having a sale of his surplus stock. To start the sale, he led out a milk cow, one of the best of his herd, and told the auctioneer of his herd, and told the auctioneer, she was four years old. John Dawson, a long, leathery, weather-beaten fellow with a shrewd eye, bid in the low with a check for the cow. He gave Showalter a check for the amount, and said he would come for the cow the next day.

"I tell you, John," said Showalter, when Dawson rode up the next morning to lead home his purchase. "I made a mistake yesterday. I said that made a mistake four years old; but when I talked it over with the old woman last night, I remembered that she is eight years old. It was another cow altogether that I had in mind.

"I didn't want to let a mistake like that go with a neighbor," continued Showalter, whose word was not usually accepted as entirely dependable in the community. "so I thought the fair thing to do was to tell you, and just let you take your check back, and I'll keep the cow."

Dawson squinted his eye approvingly at the cow—she had every mark of a good milker—and then looked apologetically at Showalter. "Well, Sam," he said, "turn about is fair play. You made a mistake yesterday; I'll make one today, and just keep the cow."—Youth's Companion.

HAS BRIEF DAY OF SPLENDOR

Lizard Canary Has Well Been Given Nickname of "Mayor of Birdie Land."

The lizard canary is one of the most unique varieties in the cage-bird world. Its beautiful ground color, so nicely ticked, and pretty little "cap" make it a thing of beauty and a joy forever. It is, however, the only variety that molts out its plumage at the end of the first season. By this it is meant that, although the bird possesses so beautiful a coat for the first year, the plumage disappears altogether at the second moult.

Thus it is a show bird for only one year, the first season, and this is considered a drawback to its popularity. On account of its wearing such gay apparel for one year and then putting it aside, the lizard has been aptly termed "Mayor of Birdie Land."

The little story connected with the lizard and a mayor is well worth repeating. It was a well-known bird show being opened by Sir William Treloar, then lord mayor of London, that this celebrity, in a few well-chosen words, likened himself unto the lizard canary, many grand specimens of which were on view at the show. The stately robes which he wore were only for a season; such is the case with the lizard.

Speedy Turtle.

"Look here, waiter!" shouted the angry, hungry guest at the restaurant. "Yessuh, yessuh!" answered the waiter, who appeared to be all out of breath, as from some sort of violent exertion.

"I ordered that turtle soup an hour ago and you haven't brought it yet." "Yessuh, no!" Ah! plum perry, suh, but it jest couldn't be helped. When Ah done catched dat turtle Ah was a-takin' him to de cook he done slipped outah mah hands an' ran out de back door an' up de alley. Yessuh, Ah had to chase him foah blocks befo' Ah could catch him. Yessuh, he'll be ready in er minute."

When Tailor Lost Customer.

Biggs, previously a comparatively poor man, had come into a big fortune, so he set about doing things in grand style. Ordering some clothes from his tailor, he told him he would send round his coachman to be measured for a liver.

The tailor scented good business, and, thinking his customer would not be proof against flattery, he said: "Don't you think, sir, it would be nice to have your crest stamped on your coachman's buttons?" "Crest!" roared the indignant Mr. Biggs. "What do I or my servant want with crests? Dye take us for a family of cockatoos?"

Hookworm Easily Cured.

In some regions in Porto Rico it is estimated that not more than thirty-three per cent of the natural efficiency of any force of men can be exercised because of the terrible problem of hookworm disease. Yet science has demonstrated that hookworm disease is about the most easily mastered of all the diseases in the category. It is easily cured, because in most cases simply a dose of epsom salts, followed by a dose of thymol, and that in turn by another dose of salts, is effective. Thymol is made from the common thyme of the garden.

How to Preserve Poor Wine.

A rich but exceedingly mean man, residing in upper New York, who had an excellent wine cellar, but poor wine, found that in spite of its quality some of the servants was always stealing it. He called his butler, who was in a chronic state of disgust at the employer's stinginess, and said: "Thomas, this has got to stop! It is your business to attend to such matters. Now, what would you suggest as the most practical way to preserve this wine?" "I don't know, sir," replied the butler, "unless you put something that's better worth drinking alongside of it."
