

EVERY FAMILY NEEDS A BIBLE

There are many different kinds, the old versions, the new version, and they are printed in various kinds of binding and style. To appreciate the Bible one does not necessarily have to be a church member or a religious man or woman, but it should be available for every one and often referred to. It does not matter how many Bibles you have you will want the one which the Daily Democrat has arranged to furnish you at the cost of shipping, clerk hire, packing and express. The publishers of this great Bible claims that it is a Five Dollar edition but by special arrangement we have secured the privilege of disposing of the supply we have on hands for.

CITY ORDINANCES

(CONTINUED FROM PAGE ONE)

The second ordinance ordering the property owners to trim their shade trees so that the branches would not be lower than eight feet from the sidewalk, was unanimously passed on its first, second and final readings. The ordinance will go into effect at once and provides for a fine of not more than ten dollars for persons failing to abide with the rules therein set forth.

The third ordinance will be of great interest to all water consumers as it changes the minimum water rate from \$5.00 a year to the following rates: Forty cents per month for a five-eighths-inch meter; 60 cents per month for a three-quarter-inch meter; \$1.00 per month for a one-inch meter; \$1.40 per month for an inch meter; \$1.80 per month for a two-inch meter, for each and every month, as a service charge and in addition thereto for the first 15,000 gallons, 25 cents per thousand gallons, for the first 30,000 gallons, 20 cents per thousand gallons for the next 30,000, and 15 cents per thousand gallons for all over 75,000 gallons, 10 cents per thousand gallons. It also provides that no one would be furnished water from the city plant at a different rate and that all meters installed after April first would belong to the city. The ordinance will go into effect April 1. It is also ordered that the bills would be due the first of every quarter, and that the property owners must keep the meter in a convenient place, and see that no damage was done to it, either from freezing or by other means.

The fourth ordinance, forbidding the placing of ashes on streets, alleys, sidewalks and highways within the city limits and providing for a fine not exceeding ten dollars for those violating the law, was also passed. The ordinance will be in effect at once.

A proposed vehicle ordinance failed to pass as one of the councilmen objected to several sections contained therein.

The purchasing committee was empowered to buy a car load of paving brick and a car load of sand, the same to be used in brick the alley leading from Second street to the waterworks plant, and in constructing a house for the new air compressor bought by the council to be installed at the waterworks plant.

The matter of selling an old scraper owned by the city to Julius Haugli was referred to the street and sewer committee. The matter of cleaning Third street was also left in the hands of the committee.

The following bills were allowed, and the meeting adjourned:

LIKE A JOURNEY

To Other Lands is the Illustrated Bible Now Offered by Democrat.

READ THE OFFER

Six Coupons and a Small Amount of Cash Gets the Wonderful Bible.

Most of us know the boundaries of our own state, or at least our county, but we little realize the educational value to be gained from occasional hour devoted to reading other lands.

Take, for instance, Palestine, which is described as a narrow strip of country at the eastern end of the Mediterranean sea, stretching from 40 miles east and west, covering its territory an area of only 12 square miles. Why, out of our small cover from five to ten times as much space, the state of Texas contains more than 20 times as much area of Palestine.

Of all the lands of the earth, Palestine is one of the most interesting. In this small country originated a volume that is familiar to all—Bible. It has often been a question of wonderment that such a small portion of our earth could be instrumental in producing a work so universally known. And yet small countries have given to the world some of its greatest treasures. Take for instance Greece, England, Italy and Egypt. Of them are small, yet they have had world leaders in some one or another characteristic.

To-day there is not a place on planet which is more thoroughly studied and known than this 1,200 square miles of Palestine. Even in our generation, every foot of it has been surveyed. Our geologists have passed through the rocks botanists have gathered and classified its plants, zoologists have collected and named its animals. Maps have been made that show every mountain, valley, lake and river, as well as cities and villages.

In Palestine are to be found all rock formations, as well as all flora and fauna known to this day. Between the high altitudes of mountains with their perpetual snow and tepid waters of the Salt sea, every climate is experienced, in which there is every living thing that is known to the earth. So it has been truthfully said that Palestine is a whole world in a nutshell.

By reading the foregoing, one gets a slight glimpse of the interest and knowledge set forth in the New Illustrated Bible, which is being distributed by the Democrat. This magnificent volume contains 600 text illustrations prepared by the world's greatest artist at the enormous cost of \$50,000, aside from the numerous page colored plates from the famous Tissot collection. Every picture accurately portrays a scene that throws a true light on the particular subject which it accompanies. Some Bible lay claim to "illustrations," but they simply have "pictures" inserted at random, without regard to the subjects. These may be said to enhance the volume to the word "illustrations," but it must be admitted that they have no educational value, inasmuch as they have no bearing on particular subjects which they accompany. The New Illustrated Bible which the Democrat distributes is the only one that truly illustrates the exact subject related to it in position as well as matter.

SELLS ANOTHER FORD

The Kalver & Sikes firm, agents for Ford company in this district and another sale to their long list of buyers. The purchaser being Mrs. Ry Zwick of Williams.
