

A survey of the spring styles shows that—

Women's *Suit Coats* are short, and rather short—bolero effects, English tailored effects, military effects. They have set-in sleeves. Some are belted, some plaited, some flared. Some are button trimmed. Some have plain collars, some fancy collars. There are straight fronts and pointed fronts. Some interpret the vogue for the higher waistline.

Women's *Suit Skirts* are full, extremely full. Most of them are made with yokes. Some are plaited, some are circular. A novel feature of some is a band or fold of the material covering the hem. And they are all very short.

Women's *Separate Coats* are near the three-quarter length. They have set-in sleeves. Some feature the new high waistline. They are full, either in the front, at the sides, or in the back—some all around. There are coats for "important" occasions, and coats for general wear.

Let us show you how all these style features are developed in the new Bischof models we have just received. The variety of models assembled here, the range of prices, cannot but win your admiration.

MRS. BEIDEL TELLS WOMEN

How Lydia E. Pinkham's Vegetable Compound Kept Her in Health for 14 Years.

Shippensburg, Pa.—"It was several years ago that I started taking Lydia E. Pinkham's Vegetable Compound. I then suffered terribly every month. My husband bought me a bottle of it and it helped me right away. Then after my second child was born I had a female trouble very badly and I used Lydia E. Pinkham's Vegetable Compound and in a short time was cured and have been in excellent health since. I always praise the Compound whenever I have an opportunity as I know it helped me and will help others. Lately I have given the Compound to my daughter and I wish all suffering women would take it and be convinced of its worth."—Mrs. JAMES A. BEIDEL, 113 N. Penn Street, Shippensburg, Pa.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

MOTHER RESTORED TO HER FAMILY

Writes a Letter to Tired, Worn-Out Mothers Telling How Vinol Made Her Well and Strong.

Jackson, Miss.—"I shall feel repaid for writing this letter if I can help any tired, worn-out mother or housekeeper to find health and strength as I have."

"I have a family of five, sew, cook and do my housework and I became very much run-down in health. I had indigestion and stomach pains and headaches. Often I would be in bed for several days at a time, and before I took Vinol I tried too many remedies to mention, without benefit. A friend asked me to try Vinol. I did so and before I had taken one bottle noticed a big improvement. Now I am well and strong and my old time energy has been restored. Vinol has no superior as a tonic for worn-out, run-down, tired mothers or housekeepers."—Mrs. J. N. MELTON, Jackson, Miss.

We ask every tired, care-worn, run-down, nervous man or woman in this vicinity to try Vinol, our delicious cod liver and iron tonic without oil, and they too will soon be able to say that Vinol has built them up and made them strong. Remember, we will return your money if it fails to benefit.

STRAIGHT ARM THRUST.

WHO invented the steamboat? Robert Fulton. But that was a long time ago and since then it has been improved and is now modern in every way. So it is with Chiropractic. Dr. Ross of Fort Wayne College has taken Chiropractic and from its crude way built it up until it stands forth as a Science all by itself. He is not the originator, for Chiropractic originated in the Old Country a long time before it was ever heard of in the United States. But he (Dr. Ross) is the founder of the Ross Straight Arm Thrust, the one Scientific thrust of the day.

INTERNATIONAL HARVESTER MACHINES

The Low Lift Manure Spreader Looks No Better Than It Is

WHEN you come to turn the corners of your field with the Low Lift manure spreader, the beater goes right on spreading on the corners, no matter how short a turn you make—to right or left. That's because there is a differential in the axles, something like the one in your mower.

The Low Lift spreader is built of steel—gears, driving parts, controlling levers and main frame. The only wood is in the box sides, apron slats, tongue and beater rails—places where wood is the best material to use.

Front trucks are solidly built into the main frame, axles are solid and attachments to it are key-seated.

The spreader is here waiting for your inspection. Drop in and look over the various good features for yourself.

AT COUNTY AUDITORS OFFICE

COURT FAME AND FORTUNE AT SPEEDWAY

A heart-breaking bid for first honors in the next Indianapolis 500-mile race will be made by Tom Alley and Eddie O'Donnell, who are entered in Duesenberg cars. The race means everything to them, as they are barely out of their apprenticeship, and want to make good. Both have proved stellar performers thus far, in opportunity, Alley breaking the 100-mile dirt track record last fall, and O'Donnell taking third at Corona.

WARD EXTRA HEAVY FENCES

THE BEST AND HEAVIEST FARM FENCE ON THE MARKET TODAY IS MADE RIGHT HERE IN DECATUR AND SOLD AT THE LOWEST PRICES.

Realizing the increasing demand for an extra heavy square mesh fence we have recently equipped our factory with the best and most modern machinery for the manufacture of same.

The above fence is made from OPEN HEARTH STEEL WIRE, extra heavily galvanized, and in standard heights of 47 and 55½ inches in both 6 and 12 inch spacing.

Our EXTRA HEAVY DIAMOND MESH FARM AND HOG FENCES are the best on the market and so well known that no further comment is necessary. Our EXTRA HEAVY DIAMOND MESH COMBINATION POULTRY AND STOCK FENCE is positively the strongest fence of its kind manufactured and will turn cattle and hogs as well as your poultry. It has no competition and is a world beater. Our ORNAMENTAL LAWN FENCES are the best made. All of the

above fences are made from BASIC OPEN HEARTH STEEL WIRE which the government experts have tested and found to resist rust and corrosion much longer than any other wire manufactured. Our FARM GATES cannot be beaten and the prices are extremely low. The many re-orders we are receiving is strong evidence that our products are what we claim for them.

Remember we manufacture FENCES AND GATES for every purpose. We also handle all kinds of fence supplies and barb wire.

Call at our factory and see what we have to offer you. It will be a pleasure to our Sales Force to show you through our modern plant, whether you buy from us or not. If you cannot call telephone No. 257 at our expense or drop us a card and we will mail you our catalog.
