Entered at the Postoffice in Decatur, Indiana, as second-class matter.

It was a sane Fourth in Decatur and the crop of burned fingers, accidents and general serious results was smaller than usual.

It is rumored that some one is circulating a petition for a public bathing pool in this city. Its a good thing and deserving of your heartiest support.

Many Decatur people went to Fort Wayne to see the Liberty Bell this morning and the celebration is said to have been all that was claimed for it. The old bell is the greatest relic of this country and around it hovers much real sentiment that every child should know about and does.

The weather seems to have cleared after a two weeks season of rain and wind that did untold damage to the crops in this section. The farmers are as busy as bees just now and they will be until the hay and wheat and oats have been taken care of. The outlook is good and the results will be satisfactory.

We congratulate Mayor Christen on the sane Fourth. His orders not to sell dangerous fireworks was conformed with by the merchants here and as a result the noise and the fuss and the accidents did not compare with previous years, though one could tell that some thing was doing and the young folks had just as good a time as though they were shooting off young cannons.

The new city ordinance books will be published this week and the laws several of them new, will then be in full force and effect. One of the ordinances is a regulation of automobile driving in the city and it should be enforced, at least, as far as regards speed, turning of corners, keeping on the right side of the street, parking the car in the right direction, and otherwise. We believe it would be a good thing if traffic policemen were put on down town to see that the new ordinance is enforced for a time at least until every one becomes familiar with the law.

The time was 1:01, 1:03, and for the tie, 1:07. Lady Dean, jockeyed by Obey Deam, was also entered in the race, but on the stretch on the first heat, became unmanageable and ran into the fence, slightly injuring two spectators. BIG DAMAGE CASE

Sum of \$10,000 Asked Account of Late Conductor
Ben E. Rice.

SUIT FILED TODAY

Against French Quinn, Receiver of Fort Wayne & Springfield Railway.

David M. Rice, administrator of the estate of his son, the late Benjamin E. Rice, who was electrocuted June 9, while on duty as conductor on the Fort Wayne & Springfield railway, today filed in the Adams Circuit court a suit asking for \$10,000 damages for the death of the son. French Quinn, receiver for the railway, is made defendant.

The decedent died in Allen county, June 9, intestate, and left the surviving heirs at law: his widow, Bertha M. Rice; and his four children, Wilma, aged five years; Bertha, aged four; Victor, aged three; and Beatrice, aged one year. The decedent was at death, aged five years; Bertha, aged four; bust and capable of earning over \$1,000 a year, and the complaint sets out that the widow and minor child ren were dependent upon him for support.

The complaint sets out that a part of the duties of Conductor Ben E. Rice was to throw and operate switches connected on the wires of the railway, which wires were charged with a high and dangerous amount of electricity—more than 6000 volts.

The complaint sets out that the receiver maintained near the south corporation line of Fort Wayne, a switch placed in a box or case on the east side of the track, and it was at this place that Conductor Rice received the electric shock that caused his death. The allegation is that the switch was not sufficient to protect the life, limbs and health of the employees. The switch was placed in a box or case about eight feet high and stood on the ground; to reach the switch it was necessary to open a door about sixteen inches square, located about five feet from the ground.

The contention is that the poles or points of the switch were not of sufficient distance apart to shut off and stop the current thereof immediately and that when the switch was disengaged the electricity on the wires would jump from one pole to the other of the switch, causing a blue flame to arise which was dangerous to the person operating the switch, and he was liable to receive a shock from the electricity so jumping. The allegation is that the defendant negligently and carelessly permitted the switch to remain in said dangerous condition. A further contention is that on account of the high and dangerous voltage of electricity carried on said wire to said switch on account of the insufficiency of said switch to hold and restrain the same, the electricity would jump out from the switch towards the person operating the same, rendering it dangerous.

It is alleged that the switch was further defective in that it was not properly and sufficiently insulated and protected; and that a platform stool or other structure completely insulated on which the person operating the switch should stand, was not provided.

Allegation is made that the death was due to the negligence or carelessness of the defendant in providing a reasonably safe place for the employees.

Attorneys D. B. Erwin, and Heller, Sutton & Heller are attorneys for the plaintiff.

Special Judge R. H. Hartford of Portland was here today and sat in the interurban receivership case, in a continued session of court, at which time the plaintiff, D. M. Rice filed a petition asking leave to sue the receiver, as is customary in receivership cases. He was granted such permission and the suit was filed. The complaint is in three paragraphs.

administrator of the estate of Ben. Rice who met death a few weeks ago while working as a conductor on the road. The petition was granted.

Messrs. Koenig and Dirksen claim they will be able to make a deal whereby they can secure the \$84,000 purchase money for the road. They argue that the fact that the Rice suit had not been filed was one of the things which prevented a completion of the financial arrangements. Those who heard Judge Hartford express himself this morning, however feel confident that the matter must be closed up by the 15th or the road will be re-advertised.

ANNUAL REUNION

Of the Eiting Families Was Held Sunday in Jacob Omlor Woods.

THE RAIN INTERFERES

With the Big Time—Over 125 Present—Old Officers Were Again Chosen.

The annual reunion of the Eiting families was held Sunday in the Jacob Omlor woods south of the city. The rain which poured down in torrents in the afternoon interfered a great deal with the good time that everybody was enjoying and cut short the program for the balance of the day. Owing to the rain the crowd did not get to stay long enough to elect officers, so the former ones were agreed upon for another year. Over 125 people were present. Among the families represented were the Jacob Omlor, Dyonis Schmitt, Simeon Hains, Ben Eiting, Thomas Durkin, Joseph Rumschlag, the Colchin families, Niblicks, Lang, Ehinger, Bremerkamps, Gerards, Geimer, Laugherman, Rademacker, Mangold, Mr. and Mrs. Lattin of Toledo, Mrs. Kraus of St. Mary's and Mr. and Mrs. Cromer of Detroit, and Father Seimetz.

It was also agreed to hold the reunion next year and on a day when it did not rain. Henry Eiting is president and John Henry Bremerkamp is secretary of the reunion association.
