### PUBLIC SALE.

Having sold an interest in our business and taken another partner, it is necessary that we give a clean-up sale. We have therefore decided to hold a public sale at our residence, known as the McCarthy farm, just north of Wren, Ohio, beginning at 12:30 sharp, on Saturday, October 9, 1915, at which time we will offer the following: Horses: Six head of horses, consisting of general purpose and draft horses. Twenty-six head of cattle: Six head of fresh cows, 20 head of feeding cattle, weighing from 600 to 800 pounds each. Thirty head of sheep, consisting of 20 head of brood ewes and some light lambs for feeding purposes. One hundred head of hogs, consisting of 80 head of shoats, weighing from 40 to 125 lbs. each; three sows with pigs by side. Nine hundred shocks of corn in field. This corn is all cut up in good shape. Ten bushels of potatoes; 3 dozen chickens. One Ford five passenger car, 1914 model, in good condition. Farming implements: One broad tire wagon, hay rack, mowing machine, sulky breaking plow, good as new; cultivator, good as new; wooden frame harrow, set double work

Parties who ordered enlarged pictures through Charles Phillips, can get them by calling at the residence of Mrs. E. A. Phillips on North First St. 23914.

### MAKE A TRACTOR

If You Have an Overland Auto You Can Do It—It is a Success.

### EXPERIMENT IS MADE

Does Practical Farm Work—Will Do Plowing—Will Not Damage Machine.

After driving a 1912 Overland touring car more than twenty thousand miles over the rough roads of Saskatchewan, A. W. Bell, a native of Saskatchewan, conceived the idea of putting it to work on his farm. His theory was that if the car could stand two years of traveling over the so-called roads of that section of the country, it could go a step better and do the practical work. The Overland was converted into a tractor by the simple arrangement of putting in an extra axle under the frame, two feet in front of the rear axle of the car, on which were placed two binder wheels. After removing the rear wheels of his car, Bell replaced them with small sprocket wheels which were connected with large sprockets on the drive wheels by a chain. This reduced the speed of the car and gave it more power. Practically all of Bell's neighbors who were interested in his experiment, believed the scheme to be impractical. They tried to convince him that the engine would heat up too much and declared the gears could not possibly stand the continuous strain. But, although the machine has been in almost constant use throughout the summer, no trouble has been developed. It has been run as many as fourteen hours a day, drawing a set of discs and a set of sixteen fast harrows, without even needing a fresh supply of water. Bell states that he was able to seed thirty acres a day or harrow from sixty to seventy acres with his automobile. By drawing two twelve-inch bushers, he managed to break five acres of soil a day, or the equivalent to the work done by six to eight horses. The Overland consumed just seventy gallons of gasoline to put in the crop, while the cost of horse feed alone would have more than doubled the expenditure. The saving in time and labor was another important item. It took less than an hour to change the rigging of the car, so that at any time when its owner desired to make the trip to town, all that was necessary was to take off the farm equipment and transform the machine into a full-fledged touring car.

### DR. BURNHAM'S SAN-YAK

Acts as a Living Antiseptic in the Stomach and Intestines.

San-Yak prevents self poisoning, that serious illness from which so many persons of sedentary habits and advanced age suffer.

San-Yak prevents clogging of the colon and caecum; hence its great value in destroying germs from undigested animal food which are a factor in the true cause of poisonous decompositions of the bowels, causing appendicitis, rheumatism, typhoid, dysentery and arterio sclerosis or hardened arteries.

Heart trouble is developed through self poisoning from the kidneys and bowels. To maintain health all such poisoning must be checked, and you can do so with the use of San-Yak.

Take San-Yak; it is the greatest medicine yet known for man, woman or child. \$1.00 per bottle. Sold by Smith, Yager & Falk drug store, Decatur, Ind.

### HAS NOT YET ANNOUNCED.

(United Press Service)  
Anderson, Ind., Oct. 6—(Special to Daily Democrat)—Fred Van Nuy, Democratic floor leader in the senate during the recent session, has not announced himself as a candidate for governor. He said today. The report that he announced his candidacy at the barbecue in Elwood was not based on fact.

I have not announced that I am a candidate," said Van Nuy today. All this talk of me being in the gubernatorial race is on the part of my friends. They will have to convince me that there is real demand before I will enter the race. I certainly don't intend to go to the expense incident to a primary campaign without having convinced myself that there is considerable sentiment in favor of me.

"I haven't said that I'm in the race, and if I do say that I am, it will mean that I am in to go all the way. This talk of my being a stalking horse is all rot."

Since the first suggestion was made that Van Nuy might be a candidate for governor, stories have been widely circulated that should he enter the race it would not be to make a finish fight. It was to this that his "stalking horse" remark referred.

A delegation from Anderson carrying "Van Nuy for governor" banners and wearing Van Nuy buttons went to the Elwood barbecue.

### TODAY'S HOOSIER ODDITY.

(United Press Service)  
Fort Wayne, Ind., Oct. 7—(Special to Daily Democrat)—Fort Wayne can conduct a street car strike with decorum. With many strike breakers working cars, and a hundred strikers idle, it was left to a drunken cripple to do the greatest violence. Armed with a heavy cane and fortified with whiskey, Tom Mitchell overcame the handicap of a wooden leg and drove the crew from a Broadway car. He held the fort till the police came. He had no connection with the strikers.

### SPECIALLY LIVELY.

An especially lively meeting will be held tonight by the Knights of Pythias. Following the conferring of the first rank work on a candidate or two, discussion of final arrangements for holding the opening of the home on October 14th, will be had, and the committees will be authorized to perform the duties necessary for making the affair a success.
