Pyorrhea—the disease nearly everybody has

No matter how sound your teeth may seem to be, no matter how you may scoff at the idea of your having this disease, it is a positive fact that the germ which causes it is working now in your teeth.

The appalling discovery of this fact—that the germ which causes pyorrhea is one which inhabits every human mouth—was made over a year ago. Since then dentists have been urging everyone to take special precautions in their daily toilet to prevent this disease from developing in its acute form of bleeding gums, tenderness in chewing and loose teeth.

To meet the need for such a daily treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public in the convenient form of Senreco Tooth Paste.

Sample size

Senreco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senreco also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Senreco treatment tonight—full details in the folder wrapped around every tube. Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senreco at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Senreco Remedies Co., 505 Union Central Bldg., Cincinnati, Ohio.

FRESH PASTRIES

For The New Year Reunion.

Get your orders in today for the pastries you'll need at the New Year's dinner.

We carry a fresh line of bread, rolls, buns, cookies, cakes and other fancy pastries.

HIS PROTEGEE NOW HIS WIFE

She Went to School as the Object of His Compassion, but Became His Beloved.

Mrs. Borman was a widow who kept a boarding house in a small western town. Her daughter, Alice, was a scrawny little girl of fourteen. Mrs. Borman had been forced to take her out of school to help with the work; washing dishes and waiting on table.

Jack Forbes, twenty-five, was his widowed mother's only child—wealthy, by the way. Jack had never been strong, so he went West. He came to live at Mrs. Borman's.

He felt sorry for the poor little scrub of a girl and offered to send her through school. He sent her away to a private school and paid her bills regularly, in a fatherly way, though he never wrote her or went to see her. With him it was simply an act of compassion.

At twenty-two he ordered her home—to his mother's home, feeling that there she could get some finishing touches socially. Then he intended to make a schoolteacher out of her. In the meantime he had gone into business, made a success of himself, and regained his health at the same time. Work was all he needed, anyway, and to get away from his mother's apron strings.

He was not at home when Alice arrived, but came a few days later, probably out of curiosity. I cannot finish this ideal story by saying that Alice had blossomed out into a wonderful beauty, for she had not. But people say she was dainty and refined, with wonderful hair and eyes and the manner of one high born.

Of course, Jack fell in love with her. She had always been in love with him, I think. Had she been courted by a score of lovers I think he would have been her choice. Well, they are married now and, as the story book says, "they have two beautiful children."

Isn't this a regular story book romance? And the beauty of it is it's true. I know, for I am Alice and Jack Jr., is up on my chair back now, poking clover blossoms into my hair, and baby Alice is asleep. And they are two such beautiful, wonderful children!—Chicago Tribune.

Partner's Liability.

A unique question of liability in an automobile accident case was decided by the supreme court of South Dakota in Van Horn vs. Simpson, which held that where defendants were copartners and were riding in an automobile in partnership business, the negligence of the owner and partner in driving the automobile was imputable to the other partner, since a member of the copartnership the owner and driver was his agent, and both defendants were jointly liable for injuries to a traveler upon the highway. It is pointed out "that these two defendants at the time in question were copartners in the real estate business, and that this auto was then transporting both defendants in the prosecution of such copartnership business; that it was then being used as an instrument for the benefit and within the scope of the partnership business; that Simpson was not a passenger or gratuitous guest of Anderson in said car, but was a party interested in the purpose and business in which such car was then being operated."

Marked Resemblance.

The allies seem to be taking Constantinople in about the same fashion that we used to spell it, when we were boys and girls, away back in the years of never-mind-what. We had a quaint old crank of a teacher who taught orthography in a most peculiar wise. He would make us spell and pronounce a syllable, move to the next, duplicate the previous performance, hop back and bring up the prior syllable, go ahead, back and ahead and so on to the bitter end, thus: "C-o-n, con; there's your con—s-t-a-n, stan; there's your stan; there's your con—stan—t-i, ti; there's your ti; there's your con—stan—t-i—n-o, no; there's your no; there's your tino; there's your stan—t-i—no; there's your con—stan—t-i—n-o—p-le, ple; there's your ple; there's your no—ple; there's your tino—ple; there's your stan—t-i—n-o—ple; there's your con—stan—t-i—n-o—ple; there's your Constantinople!"—Kansas City Star.

Blind Man's Advice.

Capt. Francis P. Peirson-Webber became a successful poultry raiser, though sightless. So adept has he become in this vocation that he can tell the weight of an egg to the fraction of an ounce, can determine its freshness, and even what breed of fowl laid it. He is now county adviser in poultry culture to Warwickshire and Northamptonshire, England. He hopes to persuade "everyone who has the opportunity to keep not less than ten good hens, so as to provide a household economy which shall yield an average of 1,500 eggs yearly, the hens being fed almost entirely on household waste scraps prepared the right way."

Well-Dressed Farmer.

Apparently the best-dressed farmers in the country live in California. In a questionnaire 566 farmers gave the cost of their clothes. Of these, 116 paid from \$10 to \$15 each for their suits; 143 from \$15 to \$20; 142 from \$20 to \$25; 26 from \$30 to \$40, and three from \$40 to \$60. Two of the three in the last named class were from California, and 12 of the 26 who paid from \$30 to \$40 were also from the same state, the next greatest number from any one state in this class being six from Texas.

HELP WANTED

FOR SALE OR RENT—A dwelling in good location. Inquire at James T. Merryman's office, 1, O. O. F. Block or phone 286. 3101f

LOST—Pocketbook containing about \$6.00. Finder please return to this office and receive reward. 3121f

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says "We can't help but look better and feel better after an inside bath."

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking, and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

The New Year Is Here

Accept Our Greetings and Cordial Good

Wishes for Your Increased Prosperity in 1916.

A year ago we adopted as our slogan, "A Million Stags in 1915," and while we were a little too optimistic in setting our goal at a point that would almost double our business, we did bring our sales from 571,550 in 1914 to over 830,000 in 1915, and we're trying in many ways to improve the quality of both our product and the service we're rendering in giving smoke satisfaction to our friends, but the one thing we're proudest of is the standing we have with the good fellows who are constantly calling for The White Stag Cigar. May your days grow longer, and may your voice grow stronger and may every day of the New Year be a happy one.

THE WHITE STAG CIGAR CO.

Postponements usually end in postmortems

"The day that has slipped away can't come back—the old gentleman with the scythe and hour-glass does not make round trips."

What have you to show for last year? Start now to make the coming year fruitful. Start to put money in our bank.

Don't postpone starting!
