Gums shrinking? Danger ahead!

Go now to a mirror and examine your mouth? Do your gums look "rinsed out," shrunken? Do you see a jagged appearance in the gum-line?

If so, see your dentist. He will tell you that you have *pyorrhoea*, and that to save your teeth you will have to fight this dread disease at once.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhoea grips you for good. Details in folder with every tube. A two-ounce tube for 25¢ is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address The Sentinel Remedies Company, 503 Union Central Building, Cincinnati, Ohio.

Childish Characteristics.

The prominent characteristics of childhood are innocence, trustfulness, sensitiveness and curiosity, and on our treatment of these qualities the future development of the child will largely depend. To keep the childish bloom of innocence as far as possible untainted; to honor trustfulness by unswerving truth and the firm intention never to deceive; to meet sensitiveness with tender consideration and not with hardness and lack of sympathy; to treat curiosity as mind-hunger and not to starve but feed it; these are considerations of vital moment. The child's sense of wonder is a lovely endowment which should never be chilled or discouraged. For the child the world is full of surprises. The whole earth, the heavens above and the waters beneath, the color and scent of flowers, the wind in the trees, the songs of birds, the flight of the swallow or the butterfly, all are beautiful surprises in which the child should be encouraged to find delight and instruction.—Rev. R. P. Downes, L.L.D.

Pillar of Cloud by Day.

With reference to this method of directing the march of caravans across deserts, Linant Pasha points out how modern times furnish an illustration of it. The great caravan which every year sets out from Cairo to Mecca has a conductor on a camel leading the way. Day and night, whatever the weather is, he remains without any covering, naked to the waist. With him march men with large torches which are kept alight during the night and illuminate the column of smoke above them, so that it appears a pillar of fire. During the day, when the head of the caravan is difficult to see on account of intervening hills and mounds of sand, the torches are kept burning, so that instead of the light which served during the night, a column of smoke indicates to the straggling caravan from afar the direction of the march and the time and place of a halt.
