Tooth Loose? Watch out for Pyorrhea!

When you find a tooth that gives back and forth, even just a little, see your dentist at once.

He will find conditions which you might overlook. He will find a gum recession, even though slight, where the gums have pulled away from the teeth. And he will tell you that you have the dread disease pyorrhea.

From pyorrhea come by far the greater part of all tooth troubles. Unless treated and checked, it will result not only in the shrinking and malformation of your gums and of the bony structure into which your teeth are set, but in the loss of the teeth themselves.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your teeth against the attack or further progress of pyorrhea.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for weeks' daily treatment. Get Senreco of your druggist today or send 4c in stamps or coin for sample tube and folder. Address The Senreco Remedies Company 503 Union Central Building, Cincinnati, Ohio.
