**A Discovery
about your
TEETH**

Tonight, if you will closely examine your teeth after
brushing them, you will make a surprising discovery.
Though you have been cleaning your teeth regularly, you will
find an accumulation of tartar on the enamel and bits of food de-
posit hiding between the crevices. Your dentifrice has not been
REALLY CLEANING!
Loss of teeth is usually due to one of two conditions—Pyorrhea
or Decay—both of which ordinarily develop only in the mouth
where germ-laden tartar is present.
CLEAN your teeth—REALLY CLEAN them! Senreco, a den-
tal specialist's formula will do it. Senreco embodies specially
prepared, soluble granules unusually effective in
cleaning away food deposits. Moreover, it is particu-
larly destructive to the germ of Pyorrhea.
Go to your dealer today and get a tube of Senreco—
keep your teeth **REALLY CLEAN** and protect your-
self against Pyorrhea and decay. Send 4c to Senreco
304 Walnut St., Cincinnati, Ohio, for trial package.
